

Textbook Opt-Out Program (Indiana)

Last Modified on 10/21/2024 8:22 am CDT

Tool Search: Textbook Opt-Out

The Textbook Opt-Out program allows schools to identify students with FRAM records who opt out of the Curricular Material Program. The school/district can create an ad hoc filter to find any students whose application indicates the student/family declined textbook assistance. The Federal/State Program Updater can be used to mass populate the 'Textbook Opt-Out' Program using the ad hoc filter.

Textbook Opt-Out record dates may not overlap. Users must end date a record before creating a new record. The new record must have a start date that is AFTER the end date of the old record.

Students are excluded from the Student Curricular Material Program Associations (Indiana v3.6) resource if they have a Textbook Opt-Out record containing the following: a date that overlaps with a calendar AND the Opt-Out box is checked.

The screenshot displays the 'Textbook Opt-Out' interface for a student named Alexander, David L. The student's grade is 10 and their DOB is 04/05/07. The interface includes a table for 'Textbook Program Opt-Out' with columns for 'Start Date' and 'End Date'. Below the table is a 'Textbook Opt-Out Detail' section with fields for 'Start Date' and 'End Date', an 'Opt Out' checkbox, and a 'Comments (up to 255 characters)' field. The interface also includes buttons for 'New', 'Save', 'Delete', and 'Print Summary Report'.

Indiana Textbook Opt-Out Detail Editor

Start Date

Use this field to enter the date on which the Textbook Opt-Out record for the student was created.
