New

View Activities

- The initial view provided by the Activity Monitor is a summary view of all activities. This summary view provides a preview of the roster information and the status of each activity.
- To view detailed information about an activity, click the **Edit** button to go to the **Activity Builder**. While editing is limited after registration is open, the Activity Builder still allows you to view all of the details for the activity.

The Activity Monitor allows you to filter activities by using the following options.

Activity Monitor

Previous

Current

Upcoming

Proposed

Activity Name

Type

Status

Prior Year Only

☐

Option	Description
Previous	All activities in a Complete status.
Current	All activities in a Draft , Registration Open , Registration Closed , or Active status.
Upcoming	All activities in Ready status.
Proposed	All activities in Pending , In Review , and Returned status. Only users who are given the <i>Activity Approval</i> tool right see this option.
Filters	<p>You can further narrow the number of activities that display by using the following filters:</p> <ul style="list-style-type: none"> • Activity Name • Type (Activity, Athletics, Field Trip) • Status <ul style="list-style-type: none"> ◦ Draft ◦ Preapproval Returned ◦ Preapproval Required ◦ Preapproval Pending ◦ Preapproval Complete ◦ Registration Open ◦ Registration Closed ◦ Active - Registration Open ◦ Active - Registration Closed
Prior Year Only	<p>When this checkbox is marked, only activities from the prior calendar year display.</p> <p>This checkbox only displays on the Previous tab.</p>

Delete or Cancel an Activity

There are two options for removing an activity from the Activity Monitor:

- **Delete** completely removes the activity from the Activity Monitor. You cannot delete an activity if students have already registered. Registered students can be removed from an activity; however, this should only be done after refunds are processed.
- **Cancel** assigns the *Cancelled* status and automatically moves the activity to the **Previous** view on the Activity Monitor. After cancelling an activity, you can see who cancelled the activity, the date on which it was cancelled, and the cancellation reason by clicking the **Edit** button. Cancelled activities can be deleted if the activity does not have any registered students.

► [Click here to expand...](#)

You cannot remove an activity if it is in a *Complete, Active, or Preapproval Pending - Proposal* status.

To Delete or Cancel an Activity, you must have Delete tool rights for the Activity Monitor and Calendar rights for the school associated with the activity.

1. Click the **Remove** button.

The screenshot shows the 'Activity Monitor' interface. At the top, there are tabs for 'Previous', 'Current', and 'Upcoming'. Below these are filters for 'Activity Name', 'Type', and 'Status'. A specific activity is displayed: 'Driver's Ed' with a registration date of 08/01/2020 and an activity duration from 09/15/2020 to 12/18/2020. It shows 1 total student, 1 payment complete, and 0 forms complete. At the bottom right of the activity card, there are three buttons: 'Roster', 'Edit', and 'Remove'. A mouse cursor is clicking the 'Remove' button.

Result

The Removal Details panel displays.

2. Select **Delete** or **Cancel**.

The screenshot shows the 'Removal Details' panel. It has a 'Remove Type' section with two radio buttons: 'Delete' and 'Cancel'. The 'Cancel' option is selected. Below this is a 'Cancellation Reason' text area. At the bottom of the panel, there are two buttons: 'Remove' and 'Keep'. A red box highlights the 'Remove' button in the bottom left of the panel, and a red arrow points from it to the 'Remove' button in the bottom right of the panel.

3. Enter a **Cancellation Reason**. This field is required for Cancelled activities.
4. Click **Remove**.

Result

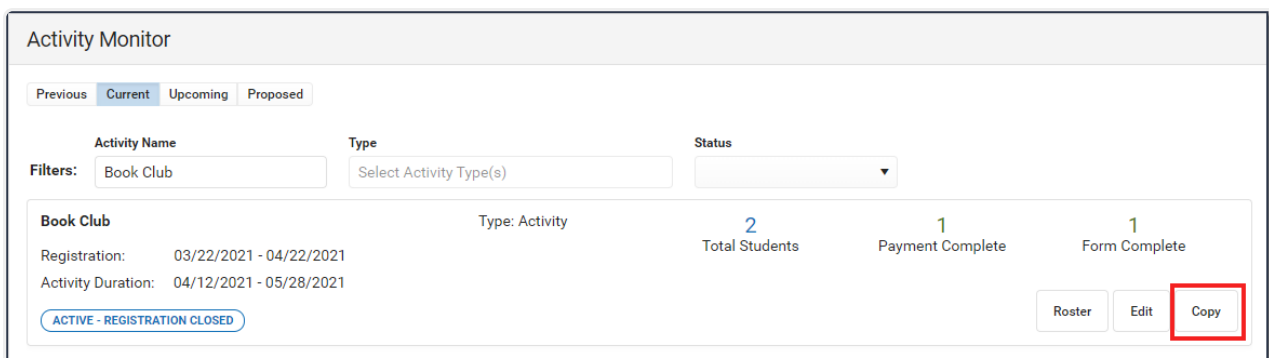

A Confirmation message displays.

Copy an Activity

To save time, click the **Copy** button to copy an existing activity. After you click **Copy**, Campus displays the [Activity Builder](#) tool in copy mode. See the [Activity Builder](#) article for details about each step in the Activity Builder tool.

When you copy an activity, Campus creates a new activity by duplicating most of the information from the existing activity.

- Registration and Activity dates are not copied.
- Campus verifies Activity Owners, Ad Hoc filters and Custom Forms are still active and requires you to update that information if necessary.
- You cannot copy an activity if its Status is Draft, Cancelled, or in any state of Preapproval.
- You must have **Add** rights for the Activity Monitor to copy an activity.
- You can **NOT** finish copying an activity if your activity requires preapproval. See the [Submit an Activity Request for Preapproval](#) topic in the [Activity Builder](#) article for more information.
- Activities that are associated with more than one school and more than one [Preapproval Configuration](#) cannot be copied. Instead, create separate activity records for the applicable schools.

The screenshot shows the 'Activity Monitor' interface. At the top, there are tabs for 'Previous', 'Current', 'Upcoming', and 'Proposed'. Below these are filters for 'Activity Name' (Book Club), 'Type' (Select Activity Type(s)), and 'Status'. The main table displays details for the 'Book Club' activity, including 'Type: Activity', 'Total Students: 2', 'Payment Complete: 1', and 'Form Complete: 1'. It also shows registration dates (03/22/2021 - 04/22/2021) and activity duration (04/12/2021 - 05/28/2021). At the bottom of the table, there is a status bar that says 'ACTIVE - REGISTRATION CLOSED'. To the right of the table, there are three buttons: 'Roster', 'Edit', and 'Copy'. The 'Copy' button is highlighted with a red box.

Example Copy Button

Review a Proposed Activity

Using the [Activity Dashboard](#), users can create and submit activities for approval. Once an activity is submitted for approval, it displays in the Activity Monitor in the Proposed area. Only users who are given the *Activity Approval* tool right, can review proposed activities.

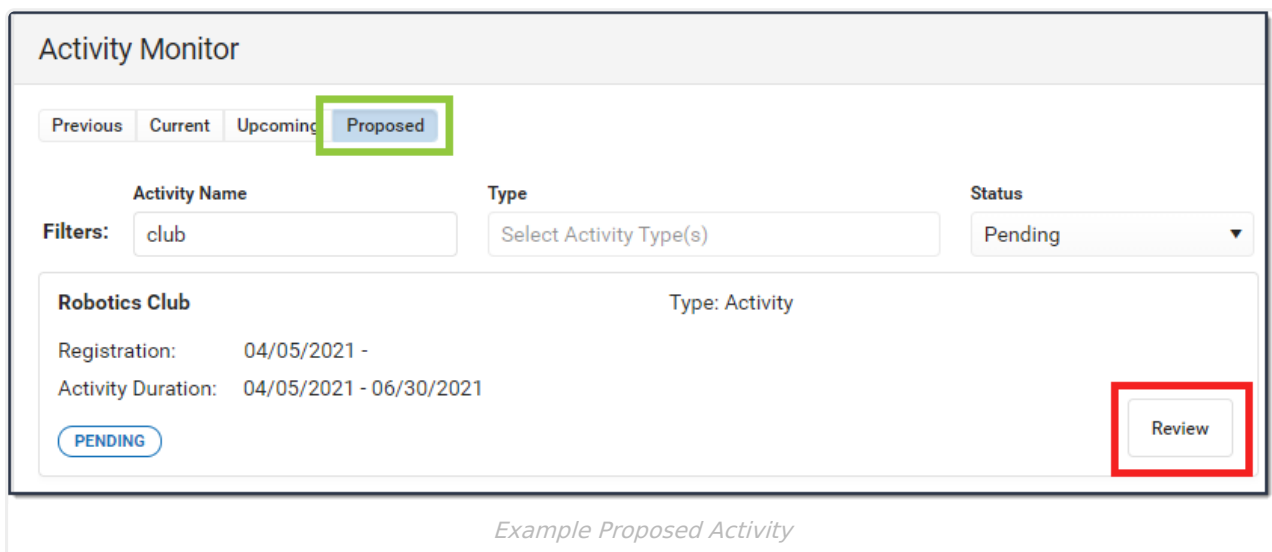

When reviewing, keep the following items in mind.

- You cannot review your own proposed activity.
- If an Ad Hoc filter is not provided by the user, you can add one on the Build Roster screen.
- If the user who submitted the activity does not have access to Ad hoc, a description of the

group they want for the activity may be included.

▶ [Click here to expand...](#)

- On Step 4. Link to Portal, the **Restrict to Associated School Enrollments** checkbox is automatically marked.
▶ [Click here to expand...](#)
- If someone Recalls an activity that they submitted, there is no notification that this occurred. Campus just removes the proposed activity from the Proposed screen.
- Not all fields are required during the review; however, for an activity to be eligible for approval, the following fields must be filled in.
 - Adhoc Filter
 - Form Title
 - Categories
 - Product Type

The screenshot shows the 'Activity Monitor' interface. At the top, there are tabs for 'Previous', 'Current', 'Upcoming', and 'Proposed'. The 'Proposed' tab is highlighted with a green box. Below the tabs, there are filters for 'Activity Name' (set to 'club'), 'Type' (set to 'Select Activity Type(s)'), and 'Status' (set to 'Pending'). The main content area displays a table with one row for 'Robotics Club'. The table shows 'Registration: 04/05/2021 -', 'Activity Duration: 04/05/2021 - 06/30/2021', and a 'PENDING' status. A 'Review' button is highlighted with a red box in the bottom right corner of the table row. Below the table, the text 'Example Proposed Activity' is displayed.

Use the following steps to review Activities that are in a **Pending** or **In Review** status.

1. Click the **Review** button.

Result

The Activity Builder displays on Step 1 Create Activity.

2. Review each screen in the Activity Builder and make any necessary changes.

Tip: You can skip screens by clicking the number at the top of the page. You might want to skip to Step 5 Finish if you already know the proposed activity must be declined or returned.

3. On Step 5 Finish, click **Finish**.

Result

The Proposal Response options display.

The screenshot shows the 'Proposal Response' dialog box in the Infinite Campus system. The dialog is titled 'Proposal Response' and has a close button (X) in the top right corner. It contains three radio buttons for selecting a response: 'Approved' (which is selected), 'Declined', and 'Returned'. Below these buttons is a text area labeled 'Comments'. At the bottom of the dialog are two buttons: 'Save' and 'Close'. The background of the screenshot shows the 'Form Selection' step of a process, with a 'Finish' button at the bottom right highlighted by a red box and a red arrow pointing to it from below.

4. Select one of the following options.

- **Approved** - The activity will display in the Current or Upcoming area with the appropriate status.
- **Declined** - The activity is removed from the Activity Monitor and displays in the Previous area of the [Activity Dashboard](#) with a status of *Declined*. When you select this option, the Comments text box is enabled and you must leave notes for the user who submitted the activity.
- **Returned** - The activity displays in the Proposed area with the status *Returned*. When you select this option, the Comments text box is enabled and you must leave notes for the user who submitted the activity. The activity displays in the [Activity Dashboard](#) with the status *Returned*. The user who submitted the activity can review your comments, make changes, and re-submit the activity for approval.

5. Click the **Save** button when you are finished.

Result

A Notification is sent to the user who submitted the proposed activity.
