The Activity Monitor tool can be used by Campus administrators or activity coordinators to manage and monitor existing and upcoming activities. The Activity Roster is accessed on the Activity Monitor tool and provides a detailed view of the students who have registered for an activity.

View Activities

- The initial view provided by the Activity Monitor is a summary view of all activities. This summary view provides a preview of the roster information and the status of each activity.
- To view detailed information about an activity, click the **Edit** button to go to the **Activity Builder**. While editing is limited after registration is open, the Activity Builder still allows you to view all of the details for the activity.

The Activity Monitor allows you to filter activities by using the following options.

Delete or Cancel an Activity

There are two options for removing an activity from the Activity Monitor:

- **Delete** completely removes the activity from the Activity Monitor. You cannot delete an activity if students have already registered. Registered students can be removed from an activity; however, this should only be done after refunds are processed.
- **Cancel** assigns the *Cancelled* status and automatically moves the activity to the **Previous** view on the Activity Monitor. After cancelling an activity, you can see who cancelled the activity, the date on which it was cancelled, and the cancellation reason by clicking the **Edit** button. Cancelled activities can be deleted if the activity does not have any registered students.

When you copy an activity, Campus creates a new activity by duplicating most of the information from the existing activity.

- Registration and Activity dates are not copied.
- Campus verifies Activity Owners, Ad Hoc filters and Custom Forms are still active and requires you to update that information if necessary.

- You cannot copy an activity if its Status is Draft, Cancelled, or in any state of Preapproval.
- You must have **Add** rights for the Activity Monitor to copy an activity.
- You can **NOT** finish copying an activity if your activity requires preapproval. See the *Submit an Activity Request for Preapproval* topic in the [Activity Builder](#) article for more information.
- Activities that are associated with more than one school and more than one [Preapproval Configuration](#) cannot be copied. Instead, create separate activity records for the applicable schools.
