The Student Class Grades Detail reports student grades that are associated with a specific course.

The screenshot shows the 'SIRS Extracts' interface. At the top, there's a navigation breadcrumb: 'Reporting > NY State Reporting > SIRS Extracts'. Below this is a section for 'NY State Repository System Extracts' with a note: 'This tool will extract student data for SIRS data collection. Choose CSV format when uploading to SIRS, otherwise choose one of the testing/debugging formats.'

The main form is divided into two columns:

- Extract Options:**
  - Extract Type:** Student Class Grades Detail (highlighted with a red box)
  - Effective Date:** 04/15/2020
  - Included State Grade Levels:** All Grades (dropdown menu showing KH, KF, 01, 02)
  - Format:** State Format(CSV)
  - Ad Hoc Filter:** (empty dropdown)
  - Column Headers:** Exclude

At the bottom, there's a 'Batch Queue List' table with columns: Queued Time, Report Title, Status, Download. Above the table, it says 'Refresh Show top 50 tasks submitted between 04/08/2020 and 04/15/2020'.

# Reporting Logic

- To report, the course must have a Grading Task marked as State Reported. (Grading & Standards > Grading Task > State Reported must be checked.)
- Reports student grades that are associated with a course where the Course > State Code is not null.
  - **Students that DO Report**
    - Students with a Score attached to a State Reported Grading Task.
    - Students whose course has ended.
    - Students who drop a course after attending any instructional time before their roster end date.
  - **Students that do NOT Report**
    - Students that drop a course before the first day of the course.
    - Students that drop a course after the first day of the course but are absent for all possible instructional minutes before their roster end date.
    - Students that are currently rostered as of the Effective Date and have not received a grade.
    - Students assigned a grade that is mapped to the *Class Detail Outcome Code X: Do Not Report*.
- Full Academic Year Date is ignored when generating this report.
- When the **Ignore Enrollment State Exclude** checkbox is marked, enrollment records with "State Exclude" selected **ARE** included.
- When the **Include Transfer Transcript Records** checkbox is marked, all stand-alone transfer records for students enrolled in the selected calendar(s), are included if the following are true:
  - If a transcript record exists in a student's Transcript tool for a year tied to the same year as the calendar selected on the extract editor, AND
  - The transcript record is for a course that is not tied to a section offered in the school; i.e., it was added as a stand-alone transfer record, and there is no section ID. (Having an identical course number to a course with a section in the calendar does not alter the fact that it is a transfer record.)
- If a student has multiple enrollment records to report for one calendar, a single record reports per course for the enrollment record that has the highest primacy ranking.

Type	Primacy
P: Primary	1
P: Primary with most recent enrollment Start Date	2
P: Primary with most recent enrollment Start Date and most recent End Date	3
S: Partial	4
S: Partial with most recent enrollment Start Date	5
S: Partial with most recent enrollment Start Date and most recent End Date	6
N: Sped	7
N: Sped with most recent enrollment Start Date	8
N: Sped with most recent enrollment Start Date and most recent End Date	9

## Best Practice for Transfer Score Groups

The best practice for Transfer records is to have unique scores set up in the [Score Groups and Rubrics](#). If duplicate scores exist; e.g. two different Score Groups with a value of "60" where one value is marked as a passing score and one is not, the report cannot determine which "60" to report and randomly makes a selection. If duplicate values are required, it is best to make one unique by adding a special character; e.g., 60\*.

<b>Effective Date</b>	The date for which information reports.
<b>Included State Grade Levels</b>	Identifies the state grade levels to include in the report.

<b>Generate Extract/ Submit to Batch</b>	Users have the option of submitting a report request to the batch queue by clicking <b>Submit to Batch</b> instead of immediately generating the report by clicking <b>Generate Extract</b> . The batch process allows larger reports to generate in the background without disrupting the use of Campus. For more information about submitting a report to the batch queue, see the <a href="#">Batch Queue</a> article.
<b>Select Calendars</b>	Identifies which Calendar(s) should be included in the report. Calendars can be sorted by active year, by school or by year.
