# Report Logic

This extract reports a record for each student enrolled in a P-Tech, Smart Scholars, or Smart Transfer state program tied to the Calendar selected in the extract editor. Students only report once on the report.

The report can be run against a district's active year as well as any prior year.

# Report Editor

Field	Description
<b>Extract Type</b>	The SIRS Extract to be run.
<b>Effective Date</b>	The date for which information reports. This date defaults to the the system date, but can be modified as needed.
<b>Grade Selector</b>	Identifies the state grade levels to include in the report. This defaults to "All Grades"
<b>Format</b>	The format in which the report should generate. Options are State Format (CSV) and HTML. Use State Format for reporting information to the state and the other type for data review and verification.
<b>Ad Hoc Filter</b>	Selecting a filter limits the results to only those included in the filter.
<b>Column Headers</b>	Indicates whether Column Headers should be included in the report. This dropdown list applies to State Format (CSV). This defaults to Exclude.
<b>Select Calendar</b>	Identifies which Calendar(s) should be included in the report. Calendars can be sorted by active year, by school or by year. This defaults to the calendar selected in the Campus toolbar.
<b>Generate Extract OR Submit to Batch</b>	Users have the option of submitting a report request to the batch queue by clicking <b>Submit to Batch</b> instead of immediately generating the report by clicking <b>Generate Extract</b> . The batch process allows larger reports to generate in the background without disrupting the use of Campus. For more information about submitting a report to the batch queue, see the <a href="#">Batch Queue</a> article.
