Health vaccines and their associated compliance listing are based on state guidelines. While Infinite Campus maintains standard guidelines for all states, districts have the ability to enter additional compliances. The following information describes vaccine compliance rules as defined by the Nevada Department of Health and Human Services.

For more information about the creation, modification or deletion of vaccine compliances, see the [Vaccines](#) page.

Immunization Rules

The following tables describe all Nevada immunization rules per vaccine.

Immunization compliance rules are read-only.
