The 21st Century Community Learning Centers (CCLC) provide academic enrichment opportunities during non-school hours for children, especially those who attend high poverty and low performing schools. This program helps students meet state and local student standards in core academic subjects and offers enrichment activities, literacy and other educational services to families.

Information provided here details how to record 21st Century information in Campus. Always follow your district's policies when adding or modifying 21st Century information.

21st Century information is reported on the Student Program Association Ed-Fi Resource and the Student Program Attendance Events Resource. See the [Arizona Ed-Fi](#) article for more information.

CCLC Course information is reported on the [21st CCLC Summary of Classes Report](#).

21st CCLC Record

Calendar information, attendance preferences, course information and Ed-Fi configuration need to be done prior to enrolling students into CCLC programs. See the [21st Century Setup Information](#) section for guidance.

21st Century Student Information

A student may participate in the 21st CCLC program sporadically throughout the year. Meaning, they might participate for a period of time in the summer, then again sometime in the school year. When this happens, individual enrollments AND 21st CCLC program records for each set of dates needs to be created.

A student who participates from July 1 to July 31, then again from September 1 to September 30, would have two enrollment records with start/end dates for June and start/end dates for September and two CCLC records with the same start/end dates for June and September.

Schedule Student into CCLC Courses

Add Roster Start and End Dates

Tool Search: Schedule

Because CCLC courses are offered for a short period of time (usually for a month), **Roster Start Date** and **Roster End Date** must be populated when a student is scheduled into the course.

Once the course is added to the student's schedule, select that course from the Schedule grid. Enter the **Start Date** and **End Date** of the course.
