

Course Grade Calc Options - Video

Last Modified on 10/21/2024 8:20 am CDT

The Course Grade Calc Options tool is used to configure how each standard and grading task on a course is calculated. This course uses a course with both grading tasks and standards aligned to it as an example of how grade calc options might be used.

The **Campus.2251** release added icons and an icon legend to indicate which items are locked at the Course Master level, unlocked at the Course Catalog level, no longer linked to a Course Master, or managed at the Course level.

Save Copy

Changes made to these options at the course level are not reflected in Instruction until they have been pushed to sections from the [Course Information tool](#). Pushed changes may impact student grades.

Icon Legend: Locked to Course Master Linked Course Catalog Unlocked Course Master Unlinked Course Managed

Fill Options Filter: Type All Term All Task All

Term	Schedule	Standard/Grading Task	Composite	Rollup	Calculation	
	1	Main	M.1: Understand concept of function, identify important features	<input type="checkbox"/>	<input type="checkbox"/>	Type Proficiency Estimate (Rubrics)
*Method Decaying Average						
<input type="checkbox"/> Limit Assignments to Last						
<input type="checkbox"/> Cumulative Grading Starting in
