

# On Track (Missouri)

Last Modified on 04/25/2024 12:48 pm CDT

Tool Search: On Track

An Individual Career and Academic Plan (ICAP) is a multi-year plan used to guide students towards their personal career and post-secondary goals and prepare them for graduation. See the Missouri Department of Education [website](#) for additional guidance on the creation of an ICAP.

The On Track tool in Campus is used to track the student's progress towards graduation in relation to the student's ICAP. This tool is used to track data for state reporting purposes.

**Users should only create one On Track record per student. Multiple records could cause reporting issues.**
