An Individual Career and Academic Plan (ICAP) is a multi-year plan used to guide students toward their personal career and post-secondary goals and prepare them for graduation. See the Missouri Department of Education [website](#) for additional guidance on creating an ICAP.

The ICAP/On Track tool tracks the student's progress toward graduation in relation to the student's ICAP. This tool is used to track data for state reporting purposes. See the core [On Track](#) article for additional information.

> **Users should only create one On Track record per student. Multiple records could cause reporting issues.**
