Search Terms: CalGrant GPA

The CalGrant GPA Verification Extract creates a file to upload CalGrant GPAs for 12th grade students into the CalGrant web app or to print a review document showing student names and their CalGrant GPA. Users can generate one of three reports:

- CalGrant Verification - lists what students are included in the upload file and their GPA. This should be generated first to review student GPA information.
- CalGrant Non-SSN - uploads the student's GPA information using their Student ID.
- CalGrant Graduated - uploads the graduated student's GPA information using their Student ID.

The screenshot shows the 'CalGrant GPA Verification Extract' tool interface. At the top, there is a search bar and the Infinite Campus logo. Below the title, there are breadcrumb links: 'Reporting > CA State Reporting > CalGrant GPA Verification Extract'. The main section is titled 'CA CalGrant GPA Upload' and contains a detailed description of the tool's purpose and usage. Below the description, there are two columns of options: 'Report Options' and 'Select Calendar'. The 'Report Options' column includes dropdown menus for 'Permission Options' (set to 'All Student'), 'Report Options' (set to 'CalGrant Non-SSN'), and 'Report Format' (set to 'PDF'). There are also checkboxes for 'Contact Information' and 'PO Box Address'. The 'Select Calendar' column has radio buttons for 'active year' (selected), 'list by school', and 'list by year'. A scrollable list of school names is visible, including '19-20 Abbott Elementary', '19-20 Bryant Elementary', '19-20 Colfax Middle', '19-20 Dupont Middle', '19-20 Emerson High', and '19-20 Franklin High'. A 'Generate Report' button is located at the bottom left of the form area.

Report Logic

The CalGrant GPA is calculated as the sum of unweighted GPA values divided by the sum of GPA weights from courses posted on the student's transcript that:

- Were taken in the student's 10th and 11th grade year (includes 12th grade year if generating the CalGrant Graduated option); and
- Have the CalGrant checkbox marked on the course.

Any failing grade the student may have received is included in the CalGrant GPA calculation, unless there is another transcript course with the same course number from the same school marked as a Repeat Course. If there is a repeat course, only the grade from the repeated course is used in the GPA calculation as long as it was taken in the 10th or 11th grade. If there are multiple courses with the same course number but none of them are marked as a repeat course, all courses will be used in the calculation.

Up to four bonus points for 10th grade and four points for 11th grade are included (if they exist) in the calculation.

Courses that have no GPA value are not included in the calculation.

Tool

1. Select the desired **Permission Options** from the dropdown list.
 - **All Students** - returns all students in the 12th grade.
 - **CalGrant OK** - returns only those students who have the CalGrant OK checkbox marked on their [enrollment records](#).
2. Select the desired **Report Options** from the dropdown list:
3. Select the desired **Format** of the report from the dropdown list. Use the **State Format (Fixed Width)** when uploading the information to the state. Use the other available formats (CSV, HTML, PDF, XML) for data review and testing.
4. If generating the CalGrant Graduated option, select an **Ad hoc Filter** that includes a list of the graduated students.
5. Select the **Calendar** from which to report data. Only one calendar can be selected. Calendars can be selected by the active year, by the school, or by the year.
6. Click the **Generate Report** button. The report displays in the desired format.

If a student does not have a Social Security number, use the CalGrant Non-SSN option.
