Special Education Student Template Extract

Report Logic

If the Resident District (Student Information > General > Enrollments > State Reporting Fields > Resident District) does not match the State District Number (School > Resources > District Information > State District Number), the student does NOT report.

The Student Template reports records for all actively enrolled students as of the entered Effective Date. This report is the same as the PIMS Student Template except it includes the Reporting Date field.

- The **December** Reporting Period reports students who have a Special Education Status of Y AND a Service Type of Primary (an IEP is not needed in order to be reported).
- The **July** Reporting Period reports any students who were ever enrolled in the selected calendar.

For the **July Reporting Period**, the following logic applies:

1. All students age 14 or older report, as of the entered Effective Date, where the Enrollment Special Education Status is Y or E, with an enrollment within the school year.
   - The student does not need to have a locked IEP.
   - The student reports when the Enrollment End Date is not populated or is within the instructional days of the selected calendar.
   - The student does not report when the Special Ed Status = N or blank on all enrollments.
2. Any student who has the "Does the student have a transition plan as part of their IEP?" marked on their Transition State Reporting editor of the IEP.
   - The IEP must be locked.
   - The IEP Start Date is before or within the instructional days of the selected calendar. That means the IEP Start Date can begin in the previous school year with an end date in the current school year.
   - The IEP End Date is within or after the instructional days of the selected calendar.
   - The student's Enrollment End Date is not populated or is within the instructional days of the selected calendar.

One record per district code, school year date, student ID and snapshot date is reported.

Field	Description
Extract Type	Determines the type of Extract being generated. For this extract, select **Student Template**.
Reporting Period	Indicates the time of year for which the extract is being generated. Options are December or July.
Effective Date	Entered date causes the extract to report all students actively enrolled as of that date and/or all data as of this date. This date entered is considered the end date of the reporting period, unless it is a snapshot extract.
Report All Resident Districts	When marked, students report whose Resident District does not match the Enrolled District.
Format	Determines how the extract generates. Extracts can be generated in State Format (comma delimited) or HTML. Use the HTML format for reviewing and verifying data prior to submission to the state. Use the State Format for submitting the data to the Department of Education.
Report Protected Identities	When marked, last name, first name, middle name, suffix, and gender information reports from the Protected Identity Information section on the Identities editor, if the fields are populated.
Report All Addresses	When marked, address fields included in the extract (Address 1, Address 2, City, State, Zip) report for each student record. When not marked, address information only reports for Special Education and CTE students only.

Field	Description
Ad hoc Filter	Select an existing ad hoc filter from which to report students. Only those students included in the **Student** Data Type filter and who meet the reporting population are included in the extract.
Select Grades	Select which grade levels to include on the report.
Calendars	At least one calendar must be selected when generating an extract. Calendars can be selected by the Active Year, by School or by Year. When a calendar is chosen in the Campus toolbar, that calendar is automatically be selected.
Report Generation	To generate the report immediately, use the **Generate Extract** option. To choose when the report generates, use the **Submit to Batch** option. Submit to Batch is useful when generating the report for several calendars or for larger amounts of data being reported. See the Batch Queue article for more information.

Generate the Student Template

1. Select **Student Template** from the **Extract Type** from the dropdown list.
2. Select the applicable **Reporting Period.**
3. Enter the **Effective Date** of the extract in *mmddyy* format or use the calendar icon to select a date.
4. Select the **Format** of the extract.
5. If desired, mark the **Report Protected Identities** checkbox.
6. If desired, mark the **Report All Addresses** checkbox.
7. If desired, select an **Ad hoc Filter**.
8. Select a **Grade** level for the extract.
9. Select the appropriate **Calendar(s)** from which to include data on the extract.
10. Click the **Generate Extract** button or the **Submit to Batch** button, if available. The extract displays in the selected format.
