

Staff Planner - Video

Last Modified on 03/11/2024 8:47 am CDT

This video introduces the new Staff Planner tool. This initial release of the tool is not its final version. As part of an ongoing project to update Campus's Scheduling tools, enhancements and modifications will continue to be added over the next several releases. Updates will be noted in Release Packs when they become available. Customers will still be able to schedule using existing tools while new tools are being developed.

This video shows how to use the Staff Planner to set parameters for the periods, courses and rooms to which each teacher can be assigned during the scheduling process. This video was updated in July 2023.
