Tool Search: Attendance Contact Log

The Attendance Contact Log records all instances of communication by school personnel regarding a particular student and their attendance. This communication can be with the student, their guardians, or others, and could include letters or email, phone calls, and face-to-face meetings for example.

There are several areas within Infinite Campus that include a Contact Log tool - Attendance Office, Census, Counseling, Health, PLP, Response to Intervention (RTI), Special Education, plus several states and districts have a localized Contact Log for certain tools. In an effort to consolidate and streamline the process of managing communication between the school and students/guardians of students, the [Contact Log in Student Information General](#) is the main hub where all contact log records can be viewed and modified by school personnel who are granted proper tool rights. The Attendance Contact Log functions the same as this central Contact Log.

Submit feedback for the new Contact Log by clicking the **Feedback** button in the bottom right hand corner. This takes you to the [Campus Community Contact Log](#) forum topic where you can add your suggestions for the Contact Log.

Filter Contact Log Records

The Contact Log organizes records by Module (the type of contact log record), Contacted By (who made the contact), Contacted (who was contacted), Contact Type, the date and time the record was saved, and the Details (reason) for the contact.

Contact Log records are sorted first by the Date and Time of the record, with the most recent record displaying first. To display contact log records for only one module, select that module by using the filter option located in the Column Menu which is indicated by 3 dots to the right of each column.
