School Year

Users must select the School Year for which data is being collected.

Assessment Group Fields

Attributes in this group are used to report the date on which the LEA is starting the local assessment window for each listed assessment. Attributes are only reported for those assessments where LEAs select a shorter assessment window than the state window and where the Department includes in the development of an enrollment-based missing reports in the assessment collections. There are currently three assessment collections that meet these criteria.

Initial Eye Exam Group

Ohio requires that, within three months of beginning to receive services for the first time under an IEP, a student must undergo a comprehensive eye examination. This is reported through the Initial IEP Eye Examination attribute group and is reported during the Traditional Districts Final Student (S) Collection and the Community/STEM School Final Student (S) Collection by traditional districts and community schools that are legally responsible for writing an IIEP during the timeframe for reporting Special Ed Events for the current school year. It is always reported with at least two records: one record for attribute name EYEREQCNT and another record for attribute name EYERECCNT.
