**Classic View:** Student Information > General > Contact Log

**Search Terms:** Contact Log

The Contact Log records all instances of communication by school personnel regarding a particular student. This communication can be with the student, their guardians, or others, and could include letters or email, phone calls, and face-to-face meetings for example.

There are several areas within Student Information that include a Contact Log tool - Counseling, Health, PLP, Response to Intervention (RTI), Special Education, plus several states that have a localized Contact Log for certain tools. In an effort to consolidate and streamline the process of managing communication between the school and students/guardians of students, the Contact Log in Student Information General is the main hub where all contact log records can be viewed and modified by school personnel who are granted proper tool rights.

For example, Contact Log records entered in Health by the Health Office Staff with rights only to the Health Contact Log can be viewed by general office staff and administrators in Student Information General.

Submit feedback for the new Contact Log by clicking the **Feedback** button in the bottom right hand corner. This takes you to the [Campus Community Contact Log](#) forum topic where you can add your suggestions for the Contact Log.

The screenshot shows the 'Contact Log' interface for student Dylan V. Abegg. At the top, there is a header with the student's name, grade (11), and counselor (Joy Counselor). Below this is a table with the following columns: Module, Contacted By, Contacted, Contact Type, Date/Time, and Details. The table contains five rows of contact records. To the right of the table is a sidebar with a 'Related Tools' dropdown and a list of navigation options including Activities, Ad Hoc Letters, Assessment, Athletics, Attendance, Behavior, Blended Learning Group Assignments, **Contact Log** (highlighted), Credit Summary, Custom, Enrollments, Fees, Flags, Forms, Grades, Graduation, Lockers, OLR Athletic Health Info, Person Documents, and Profile. At the bottom of the interface, there are buttons for 'New', 'Print', and 'Feedback'.

# Contact Log Fields in Ad hoc Query Wizard

Information from the Contact Log records can be included in an Ad hoc Query using the **Student Data Type**. Contact log fields are available in the following locations:

- Student > Counselor > Contact Log
- Student > Learner Planning > Contact Log (includes fields for RTI, PLP and Special Education)
- Student > Health > Contact Log

See the [Contact Log Detail Descriptions](#) for specific Ad hoc fields.

## Tool Rights for Contact Log

[General Tool Right Information](#) | [Assign Tool Rights to Contact Log](#) | [Contact Log Tool Rights Examples](#)

Tool Search: Tool Rights

## General Tool Right Information

Full rights to Contact Log require the following:

- **Rights** (All checkbox marked) for the **Contact Log** tool for Student Information > General > Contact Log and Census > People > Contact Log.
- **RWAD** rights to the module level Contact Log tool right for the appropriate module - Counseling, Health, PLP, RTI, Special Education, etc.
- **Access to Records Created by Other Users** subright for the appropriate module - Counseling, Health, PLP, RTI, Special Education, etc. This subright allows the user to view or edit contact log records another user created within a module (Counseling, Health, etc.).
  - **R** rights allow the ability to view records created by another user for the module.
  - **W** rights allow the ability to edit records created by another user for the module.
  - **A** rights do not add any function.
  - **D** rights allow the ability to delete records created by another user for the module.

Note the following:

- **All rights to Student Information > General > Contact Log and Census > People > Contact Log do NOT allow access to add a contact log record.** It only displays the Contact Log tool, but no existing records are visible.
- **RWAD rights are NOT cumulative** . A user who has no access subrights to Counseling, but does have RW rights to Health allows the viewing and editing of Health contact log records another user created.
- Assigning access subrights WITHOUT enabling rights to the parent Contact Log module tool right automatically assume R rights for that parent right.

## Assign Tool Rights to Contact Log

Procedures are provided using the new navigation.

## Filter Contact Log Records

The Contact Log organizes records by Module (the type of contact log record), Contacted By (who made the contact), Contacted (who was contacted), Contact Type, the date and time the record was saved, and the Details (reason) for the contact.

Contact Log records are sorted first by the Date and Time of the record, with the most recent record displaying first. To display contact log records for only one module, select that module by using the filter option located in the Column Menu which is indicated by 3 dots to the right of each column.

In the example below, the Column Menu is open for the Module column showing the options available.

The screenshot shows the 'Contact Log' interface for student 'Abegg, Dylan V'. The table below represents the data shown in the interface:

Module	Contacted By	Contacted	Contact Type	Date/Time	Details
