Object Population and Business Rules

Requirement

• SIF_Request (Batch) Object population logic:

1. The student will report no more than 1 active instance of StudentParticipation per ProgramType.
 1. Infinite Campus doesn't allow overlapping FRAM or English Learners records.
2. Each eligible FRAM and English Learners record will report a separate StudentParticipation record when the FRAM or English Learners record was active for at least 1 day in the SIF Zone Year.
3. Each eligible StudentParticipation record will have a unique RefId. Eligible records align with unique records (FRAM, English Learners) in Infinite Campus.
 1. For example: Each eligible FRAM record assigned to a student will have a unique StudentParticipation RefId.
4. For records with a FreeReduced ProgramType:
 1. When an eligible School History record exists for a schoolwide provision, and the student has an existing FreeReduced StudentParticipation record in the year:
 1. The record populating from FRAM will have a ProgramExitDate of 1 day prior to the School History effective date.
5. When the SIF Zone Year is set to "All Years", and the School History End Year is < the current year, populates the ProgramExitDate with (System Admin>Calendar>Calendar>End Date) from the end-year calendar.

FreeReduced FRAM determination logic:

1. One of the following must be true:
 1. The FRAM record must be active at any point during the Zone Scope Year(s).
 1. To be considered active in the Zone Scope:
 1. The FRAM "Start Date" is NOT Null and <= current date and <= the calendar End Date of the Zone Calendar and Year
 2. The FRAM "End Date" is Null or >= calendar Start Date of the Zone Calendar and Year
 3. Eligibility Type = Meal
 4. No Access to Meal (NA) = NOT Checked
 5. Eligibility = Free or Reduced
 2. Student is considered **FreeReduced or school qualifies for a schoolwide provision** :
 1. Schoolwide Provision:
 1. (System Admin>Resources>School>School Editor>USDA Programs>Provision) = **2: Provision 2, 3: Provision 3 or 5: CEP** in the School History record with the most recent Effective Date <= the current date and <= the calendar End Date of the Zone Calendar and Year
 2. Provision Base Year <= the current academic Start Year or blank
 3. Provision End Year >= the current academic End Year or blank
 2. No triggers will be added to Schoolwide Provisions. must run batch.

Economic Disadvantaged determination logic:

1. The FRAM record must be active at any point during the Zone Scope Year(s).
 1. To be considered active in the Zone Scope:
 1. The FRAM Eligibility record meets any of the following criteria:
 1. FRAM Eligibility record with the latest Start Date that is <= the current date has:
 1. Eligibility Type = Meal
 2. Start Date is NOT Null and <= current date and <= the calendar End Date of the Zone Calendar and Year
 3. End Date is Null or >= calendar Start Date of the Zone Calendar and Year
 4. Eligibility = Free OR Reduced
 2. FRAM Eligibility record with the latest Start Date that is <= the current date has:
 1. Eligibility Type = Meal
 2. Start Date is NOT Null and <= current date and <= the calendar End Date of the Zone Calendar and Year
 3. End Date is Null or >= calendar Start Date of the Zone Calendar and Year
 4. Eligibility = Paid
 5. Certified Type = Declined
 3. Student's FRAM Eligibility record with the latest Start Date that is <= the current date has:
 1. Eligibility Type = SES
 2. Start Date is NOT Null and <= current date and <= the calendar End Date of the Zone Calendar and Year
 3. End Date is Null or >= calendar Start Date of the Zone Calendar and Year
 4. Eligibility = Any selection
 5. Certified Type = Any selection

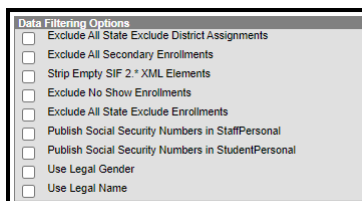

Requirement

• **EL determination logic:**

1. The EL record must be active at any point during the Zone Scope Year(s).
 1. To be considered active in the Zone Scope:
 1. The EL "Identified Date" is NOT Null and <= current date and <= the calendar End Date of the Zone Calendar and Year
 2. The "Program Exit Date" is Null or >= calendar Start Date of the Zone Calendar and Year
2. Only the following elements may report:
 1. RefId, StudentPersonalRefId (These are standard attributes belonging to the object)
 2. StudentParticipationAsOfDate:
 1. Report the current date.
 3. ProgramType/Code:
 1. Report "0256"
 4. ProgramExitDate:
 1. Report the date in (Student Info>Program Participation>English Learners>Program Exit Date) for the most recent English Learners record when the following is true:
 1. The English Learners Program Exit Date is not null and <= the current date
 2. When the English Learners Program Exit Date > the current date or is null, do not report this element

Please note that if a student's Program Start Date > current Date and still has a valid ZoneScope then the triggers won't send. A batch request will have to be sent for those records when that program's Start Date becomes less or equal to the current date.

Follow [SIF Zone Options](#) Rules for Zones:

Do Not Report when the Calendar > 'Exclude from SIF Exchange' is selected.

Object Data Elements
