The Teacher Student Data Link is an extract in the Michigan Student Data System (MSDS) that reports links between students and the teachers who instruct them. This collection is necessary to meet the requirements of the American Recovery and Reinvestment Act (ARRA) and the America Competes Act as part of the State Fiscal Stabilization Fund.

This is a full-year collection, reporting data that reflects students' performance throughout the current academic year and their statuses at the end of the school year.

Report Logic

The following logic is enforced in this extract:

- Reports one record per student for students enrolled in one or more courses within the date range on the extract editor. Students with no course information will not be included in the extract.
- Reports one record per school. Multiple calendars from the same school will be combined into one school record.
- Students must have a score for a Grading Task or Standard that is marked 'State Reported'

and has a Code selected to be included in the extract. To report a record, Grading Tasks must have Score Group values mapped to State Codes, and for Standards, the rubric values must be mapped to State Codes.

- Enrollments, Calendars, Courses or Grade Levels marked as "State Exclude" will not be included in the report.
- To report, a course must have a SCED Course Identifier.
- Student records are grouped by student UIC number and the calendar in which the student is enrolled. Students report only one record per calendar, but each student record can have multiple course records attached. A course record reports for each Term in which the students receives a grade on a reported task/standard.

Report Editor Fields

The following table describes the fields available in the extract editor.

Editor Field	Description
Extract Type	The type of extract being generated. In this case, select <i>Teacher Student Data Link</i> .
Count Date	The date on which the information in the report is valid.
Previous Count Date	The last date on which the report was run.
Students w/o UICs	Indicates if students who don't have identification numbers should still be included in the report.
Pull Missing Scores Only	Indicates if only students who have a State Reported Grading Task with a Score of null will be included in the report.
New Migrant Students	Limits the students reported to only those who are enrolled in an active Program with a Code of MIGRANT and State Reported selected.
Exited Migrant Students	Limits the students reported to only those who were actively enrolled in a Program with a Code of MIGRANT that has an End Date on or within the Previous Count Date and Count Date.
Submitting Entity	Describes the entity submitting the extract to the state.
Reporting Window	Indicates if the extract is being generated for an entire <i>School Year</i> or as a <i>Mid-Year</i> report.
Format	The format in which the report will generate. Use <i>State Format (XML)</i> for submission to the state and HTML or CSV for data review and verification.

Editor Field	Description
Ad hoc Filter	Use to select a previously-created Ad hoc Filter to further specify the report population. When an Ad hoc Filter is selected, records report based on the options selected in the editor, not the Campus toolbar.
Validate	Marking this checkbox will cause a validation to be run of the XML data to make sure it is correct. If errors are found, the extract will list these errors for correction based on the schema.
Include Protected Identity Info	Reports Demographics information from Census > People > Identities > Active Identity > Protected Identity Information.
Calendar(s)	The calendars for which data will be included in the report.

Generating the Teacher Student Data Link Extract

1. Select *Teacher Student Data Link* as the **Extract Type**.
2. Enter a **Count Date** *mmddyyyy* format or by clicking the calendar icon and selecting a date.
3. Enter a **Previous Count Date** in *mmddyyyy* format or by clicking the calendar icon and selecting a date.
4. Indicate if **Students without UICs** should still be included in the extract.
5. Indicate if only students who have a State Reported Grading Task with no score will be reported by marking the **Pull Missing Scores Only** checkbox.
6. Indicate the **Submitting Entity** of the extract.
7. Mark **New Migrant Students** to only report students in a Migrant program.
8. Mark **Exited Migrant Students** to only report those who have exited a Migrant program within the Count Date window.
9. Select the **Reporting Window** for which the extract is being generated.
10. Select the **Format** in which the report should be generated.
11. Select an **Ad hoc Filter** to determine what students appear in the extract. When an Ad hoc Filter is selected, records report based on the options selected in the editor, not the Campus toolbar.
12. Mark **Validate** to verify XML data.

For guidance in validating the XML file against your state's schema using a free, third-party program, see the [Validating an XML File Against a Schema File](#) article.

13. Indicate if the extract should **Include Protected Identity Info**.
14. Select the **Calendar(s)** that should be included in the extract.
15. Click **Generate Extract** to generate the report in the indicated format or **Submit to Batch** to schedule when the report will generate.

Users have the option of submitting a report request to the batch queue by clicking **Submit to**

Batch instead of Generate Extract. This process allows larger reports to generate in the background, without disrupting the use of Campus. For more information about submitting a report to the batch queue, see the [Batch Queue](#) article.

If the **Include Protected Identity Info** checkbox is marked in the extract editor, Demographics fields report from Census > People > Identities > Active Identity > Protected Identity Information.

Element Name	Description & Format	Campus Location
Submitting Entity Type Code	<p>This code is used by the system to identify which type of entity code will be reported in the Submitting Entity Code characteristic. Entity codes in EEM are unique within type categories. This characteristic identifies which category the system uses for validation of the submitting entity and to confirm user entity permissions.</p> <p>Valid options include: A: Agreement Number D: District B: Building * Always report B even though there are other valid values.</p> <p><i>Alphabetic, 1 character</i></p>	Not dynamically stored
Entity Code	<p>The entity responsible for the certification (if applicable) of the collection. Generally this is the entity receiving funding from the State. It may or may not be the entity that is directly providing education services to the student.</p> <p>Logic: If Submitting Entity = D, report State District Number; if Submitting Entity = D, report School Override; if School Override is NULL, report State School Number</p> <p><i>Numeric, 10 characters</i></p>	Student Information > General > Enrollment > State Reporting Fields > School Override AND System Administration > Resources > School > State School Number School.number
UIC	<p>The Unique Identification Code, produced by the Center for Educational Performance and Information.</p> <p><i>Numeric, 10 digits</i></p>	Census > People > Demographics > State ID Person.stateID

Element Name	Description & Format	Campus Location
Last Name	Student's legal last name. <i>Alphabetic, 25 characters</i>	Census > People > Demographics > Last Name Identity.lastName
First Name	Student's legal first name. <i>Alphabetic, 15 characters</i>	Census > People > Demographics > First Name Identity.firstName
Middle Name	Student's legal middle name. <i>Alphabetic, 25 characters</i>	Census > People > Demographics > Middle Name Identity.middleName
Suffix	Suffix of student name, such as Jr., III, etc. <i>Alphabetic, 9 characters</i>	Census > People > Demographics > Suffix Identity.suffix
Date Of Birth	Student's date of birth. <i>Date field, 8 Characters, YYYYMMDD</i>	Census > People > Demographics > Birthdate Identity.birthdate
Multiple Birth Order	Indicates that the student is part of a multiple birth, such as twins or triplets. If null, reports as 1. <i>Numeric, 1 digit</i>	Census > People > Demographics > Multiple Birth Order Identity.multipleBirthOrder
Gender	Indicate gender of student. Valid options include M: Male and F: Female. <i>Alphabetic, 1 character</i>	Census > People > Demographics > Gender Identity.gender
Operating District Number	The state-assigned code for the district submitting the data. <i>Numeric, 5 digits</i>	System Administration > Resources > District Information > NCES DistrictID District.number
School Facility Number	The state-assigned number of the official Educational Entity Master (EEM). <i>Numeric, 5 digits</i>	Student Information > General > Enrollments > School Override AND System Administration > Resources > School > State School Number School.number

Element Name	Description & Format	Campus Location
