

New Mexico Ed-Fi Information

Last Modified on 03/11/2024 8:47 am CDT

Tool Search: Ed-Fi

Ed-Fi is a data interchange standard and framework created by the Dell Foundation to allow K-12 educational institutions to consolidate and analyze data, and communicate this data with each other. It also provides a dashboard toolkit from which users can create dashboards to analyze data from the student, district, state (and eventually national) level.

The following information pertains to New Mexico school districts only.

For more information, see the following Ed-Fi articles:
