Technical Information

See the [Technical Information - Release Pack Campus.2311](#) (<https://kb.infinitecampus.com/help/technical-information-release-pack-campus2311>) article for a list of schema changes in this release.

Activity Registration

Activity Registration Date Fields (SIS-166774)

The Date fields in ad-hoc were not setup as date fields and were missing operators to produce expected results. Because of this, we will be depreciating fields and introducing new ones. If you are utilizing these ad hoc fields, you can use the "Element Replacement" tool under System Administration > Data Utilities to update to current equivalents.

Deprecated Fields

- activityStart
- activityEnd
- regStart
- regEnd
- signUpDate

New Fields

- activityStartDate
- activityEndDate
- regStartDate
- regEndDate
- signupTimestamp

Activity Registration Maintenance (SIS-167640)

The following updates have been made to the Activity Registration tool:

- On a Field Trip in Activity Roster, a checkbox in the Select column was incorrectly displaying when "Manual" was selected under Option Purchased.

Ad hoc Reporting

[Pivot Designer Security Enhancements](#) (SIS-167259) **[Enhancement]**

Enhancements were made to more directly align the data security of the Pivot Designer to the Query Wizard and provide a more graceful error message when a user attempts to access a pivot table containing information they do not have rights to view. Users now receive an error message explaining the reason why they cannot view the pivot and the tool rights required.

Campus Learning

[Submitting Assignments on Behalf of Students](#) (SIS-160480) [Enhancement]

Teachers now have the option to submit assignments on behalf of students. A note at the bottom of the submission indicates when an assignment was submitted for the student by a teacher. Using the View As Student option in the top right corner of the screen, teachers can view the assignment as a student sees it and submit work for the student for assignments that have submissions enabled. Depending on what is enabled for the assignment and what options the teacher has available, they can submit text in the Editor, upload a file to the Digital Repository, or attach a file from the teacher's own Google Drive to the assignment.

An additional option has been added for Digital Repository users: after clicking Upload File on the

submission screen, teachers can select Take a Photo to take a photo using their webcam or phone camera and attach it to the assignment. This option to take a photo is also available to students via Campus Student.

[Display Options and Campus Student/Parent Updates \(SIS-166864\) \[Enhancement\]](#)

The following updates have been made to the Display Options tool:

- Minor improvements to the Display Options report.
- Cosmetic adjustments.
- Added a Display Options Summary at the end of the Calendar and Term Settings information in the Display Options tool that shows the enabled display options for the calendar.
- When copying a template using Batch Edit, options were added to Step 3 to "Fill & Append School Name" and "Fill & Prepend School Name."
- When using Batch Edit to edit Calendar and Term Settings, an option was added to show only updated options in steps 4 and 5.
- Logic has been updated so that Campus Student & Parent follow the related portal preferences for the Document tools in future school years. This change allows upcoming students, those with enrollments in the future school year only, to see documents and custom forms.

Additionally, accessibility improvements for screen readers and keyboard navigation have been made to Campus Parent and Campus Student, as well as cosmetic adjustments and improvements.

Student Number Preferences - Windowing/Use Next Highest Available Number (SIS-165387)

In a previous release, the Student Number preferences were modified to include an option for using the smallest available student number or using the next highest available number in the sequence.

The logic for using the next highest number was incorrectly using the highest value in the database, instead of the maximum value entered. This has been corrected.

In addition, when assigning student numbers with Use the next highest available number in sequence option and the next available value is higher than the value set for the Max value, a warning message displays indicating the Max Value field needs to be increased in order to auto-generate the number. Then, the Generate Number field on Demographics, Student Locator, Add Person or new Enrollments can be marked and the student number generates.

Special Ed Amended Copy Fix (SIS-167281)

Previously when the Special Ed Preferences "Auto Create a PDF when Amend Tool is used" or "Auto End Date the previous locked Plan when a new Plan is locked with overlapping dates" were marked Yes and the user amended a document, the auto generated PDF copy was not matching the original plan. This has been fixed so the PDF copy now matches exactly and is a direct copy of the original plan prior to the amendment changes. This error was only applicable for those plans rewritten with the New Look of Campus.

Locator

Student and Staff Locator Updates (SIS-166876)

Changes to the search functionality released in Campus.2251 disabled the black arrow in the Student Locator and the Staff Locator that indicates a person is locally enrolled /employed. This issue has been corrected. For students locally enrolled and staff locally employed:

- A black arrow displays next to their name.
- The hover over text displays the selected person's information.
- A new person record is NOT created when selecting the student / staff member and saving on the next screen.

The pronoun drop lists under the Identity Information section of the Student Locator and the Staff Locator have also been updated to correctly populate based on the options designated using the Pronoun Setup tool.

Messenger 2.0 - Priority Messages (SIS-167654) [Enhancement]

The option to schedule "Priority" messages has been added to the Messenger 2.0 tools. New tool rights have been added for sending Priority messages. A new "Priority" button added to the Create New Message section of Messenger 2.0, between General and Emergency, a new Priority indicator for the Scheduled Messages list, and a new Priority tab has been added in the Select Templates view. Much of the workflow is the same as the other message workflows. Additionally, Priority messages:

- Respect the dial window.
- Can be scheduled as recurring.
- Include additional fields and sub-reports beyond what is available for Emergency messages.

In support of this update, a new Priority column has been added to Census Messenger Contacts, a new Messenger 2.0 Priority phone number has been added to CalledID Preferences, and Messenger 2.0 - Priority options for Default Delivery Devices in Messenger Settings.

Arizona - Student School Attendance Events - Attendance Calculations (SIS-166996)

Logic for reporting Arizona Attendance Calculations has been updated, as follows:

- Event Duration logic for Grades K-8 and Grades 9-12 when summing total attended minutes now includes present minutes when populated. Meaning, if there is an attendance code with a status of Absent on a given period, but present minutes are also entered, those present minutes are included in the total attended minutes.
- Modality Time logic for partial day virtual attendance for Grades K-8 and Grades 9-12 now includes the following:
 - For in person attended minutes, include any present minutes entered for a period that has a status of Absent and the state code does NOT contain DLP or DLA.
 - For distance learning attended minutes, include any present minutes entered for a period that has a state code of DLA.
 - For in person/distance learning absent minutes, if there are present minutes entered for the absent period, then subtract the present minutes from the total period minutes and use that value in the sum.

Nevada

Nevada-Attendance Summary Report Update (SIS-160611)

Students were displaying inconsistently on the NV Attendance Summary Report. The Java code considered the last line in the result set. The next line was ignored if the Student ID on the last line matched the Student ID of the next line (e.g. both listed with a 'Pending' status). This issue has been corrected. The Java code now matches on Person ID instead of Student ID.

Wisconsin Evaluations Updates (SIS-166827)

Several updates have been made to the Wisconsin Evaluation documents. Updates to the Eligibility Report include:

- an issue where the Role was not printing on the Team Meeting Cover Page has been resolved.
- upon printing, the disability area(s) are pulled from the Eligibility Determination editor instead of from the student's enrollment record.

Updates to the Existing Data Review include:

- an issue where the Role was not printing on the Team Meeting Cover Page has been resolved.
- the informational text on the (IE3/RE5) Need to Conduct Additional Assessments editor has been updated to the following, ""The IEP team has determined that additional assessments or other evaluation materials are needed to determine whether your child continues to have a disability (impairment and a need for special education), and to identify your child's current educational needs.""

Updates to the Referral include:

- validation on the (R-1) Referral to Special Education to allow users to click the Not Needed button when Reevaluation is selected as the Evaluation Type.
- a new date field, Date Notice sent with Statement of Parental Rights, has been added to the (IE-1) Notice of Receipt of Referral/Start Initial Evaluation editor.
