MN v3.3 - Student Special Education Program Associations Resource Preferences

Last Modified on 09/22/2025 9:45 am CDT

The Ed-Fi Configuration tool is used to establish Ed-Fi data resources.

The following describes how to set the resource preferences for the Student Special Education Program Association resource. If the Configure or Edit buttons do not display, then the resource does not need to be mapped and the toggle button can be used to turn the resource on or off.

 If a mapping is changed, a resync must be performed on the resource in order for the new mappings to send correctly. Any item not mapped will not report to Ed-Fi.
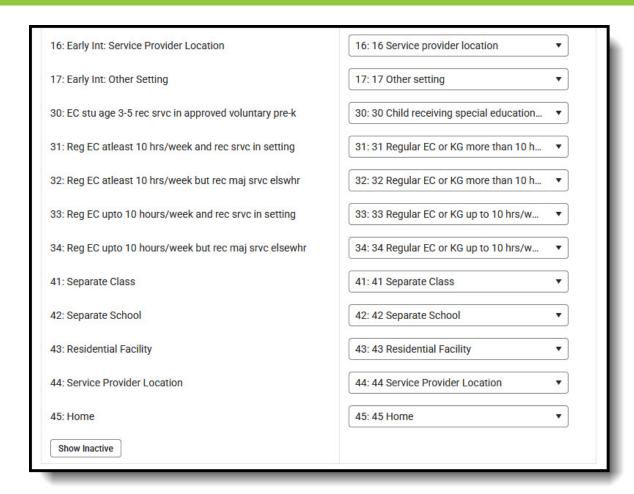

1. Select the appropriate **Ed-Fi Code** for the Special Education Setting Descriptors.

Enrollment Special Ed Disability Setting	
Attribute Dictionary	System Settings > Custom Data and Links > Core Attribute Dictionary > Enrollment > Special Ed Disability Setting
UI Location	Student Information > General > Enrollments > Special Ed Fields > Special Ed Disability Setting
