Tool Search: Detentions by Student

Detentions by Student displays detention time assigned to students with an [Early Warning Behavior GRAD score](#) between 50 and 100, allowing you to view the total time assigned, time served, and remaining unserved detention time.

This report is only available for district users who have purchased the Campus Analytics Suite.

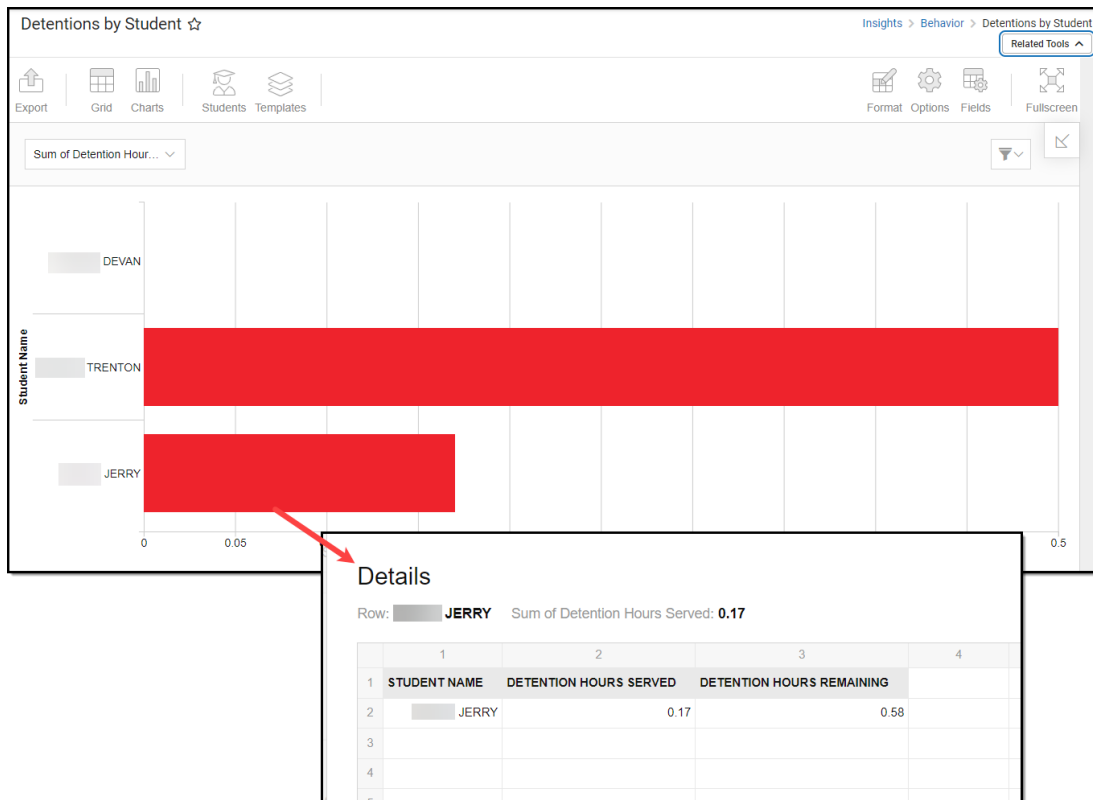

You must have at least **Read** tool rights for **Detentions by Student** to view the chart. You must also have calendar rights assigned for any calendar(s) reporting data.

NOTE: Insights visualizations may contain PII and include data for tools a user may not have rights to access.

Understanding the Chart

The Detentions by Student displays detention time assigned, served, and remaining for students (with an Early Warning Behavior GRAD score between 50 and 100) in the calendar selected in the Campus toolbar. Double-clicking a section of a bar will show you a table detailing all the data that makes up that colored section of the bar.

Use the table below for help in understanding each sub-report column:

Column	Description
Student Name	Name of the student who is assigned detention hours.
Detention Hours Served	The number of detention hours the student has served.
Detention Hours Remaining	The number of detention hours the student has yet to serve.

Click the Grid button to access a grid of all detention hours served, detention hours remaining, and the total sum of detention hours for reporting students.

The screenshot shows the 'Grid' view of the report. The top navigation bar includes 'Insights > Behavior > Detentions by Student' and a 'Related Tools' dropdown. The main toolbar has 'Export', 'Grid' (highlighted with a red box), 'Charts', 'Students', and 'Templates'. A dropdown menu shows 'Sum of Detention Hour...'. The table displays detention hours for students Eve, Vica, Annabelle, Maxine, Arden, and a Grand Total.

	1	2	3	4	5	6	7
1	STUDENT NAME	Total Sum of Detention Hours Served	Total Sum of Detention Hours Remaining	Total Sum of Detention Hours			
2	Eve	0.25	0.25	0.5			
3	Vica	0.25	2.75	3			
4	Annabelle	0	1.5	1.5			
5	Maxine	0.25	0.25	0.5			
6	Arden	0.25	2.75	3			
7	Grand Total	1	7.5	8.5			

Using the dropdown list in the image below, you can filter data to display the sum of detention

hours served, the sum of detention hours remaining, and the sum of detention hours assigned to each reporting student.

Chart Option	Description
Sum of Detention Hours Served	Displays the sum of detention hours served per student.
Sum of Detention Hours Remaining	Displays the sum of detention hours remaining to be served per student.
Sum of Detention Hours	Displays the sum of detention hours assigned to each student.

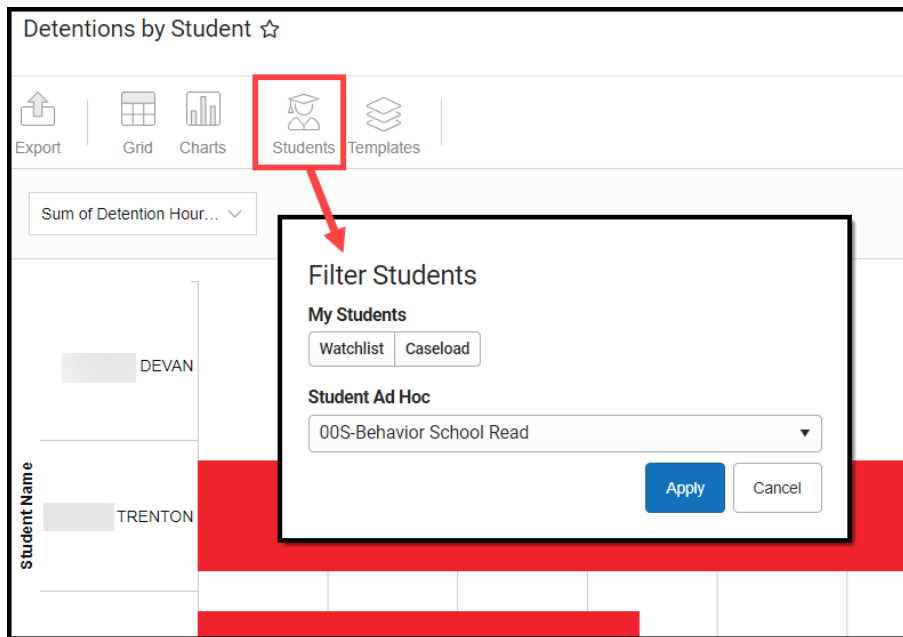

You can also remove and filter any data that makes up the pie chart by clicking the  button, selecting the type of data you wish to filter, and unchecking the data you wish to remove from the chart.

Filtering Chart Data

You can filter chart data to only students in your [Early Warning Watchlist](#), Counseling Caseload, and/or a specific [Student Ad Hoc](#) filter by clicking the **Students** button and selecting any combination of these options.

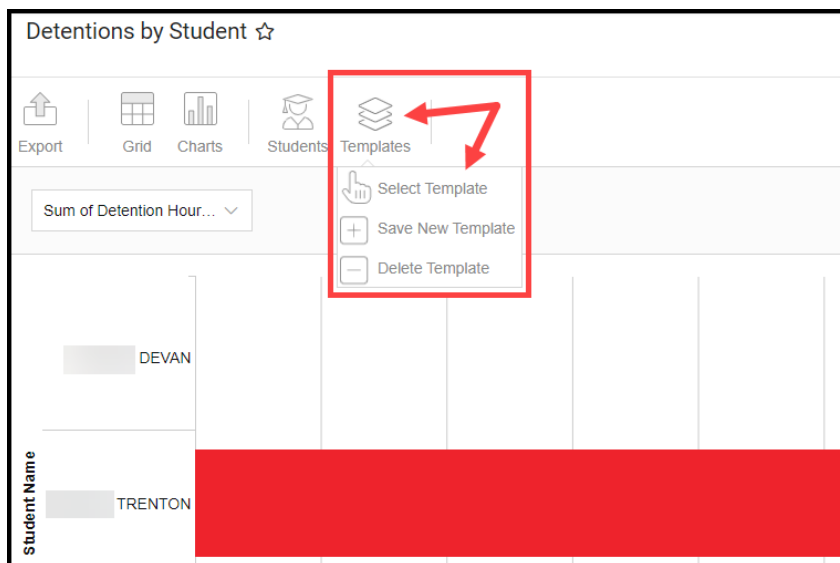

[Ad Hoc Queries](#) and [Selection Editors](#) are supported in Insights by filtering from the Student panel.

[Pass-through SQL Queries](#) are not supported in Insights.

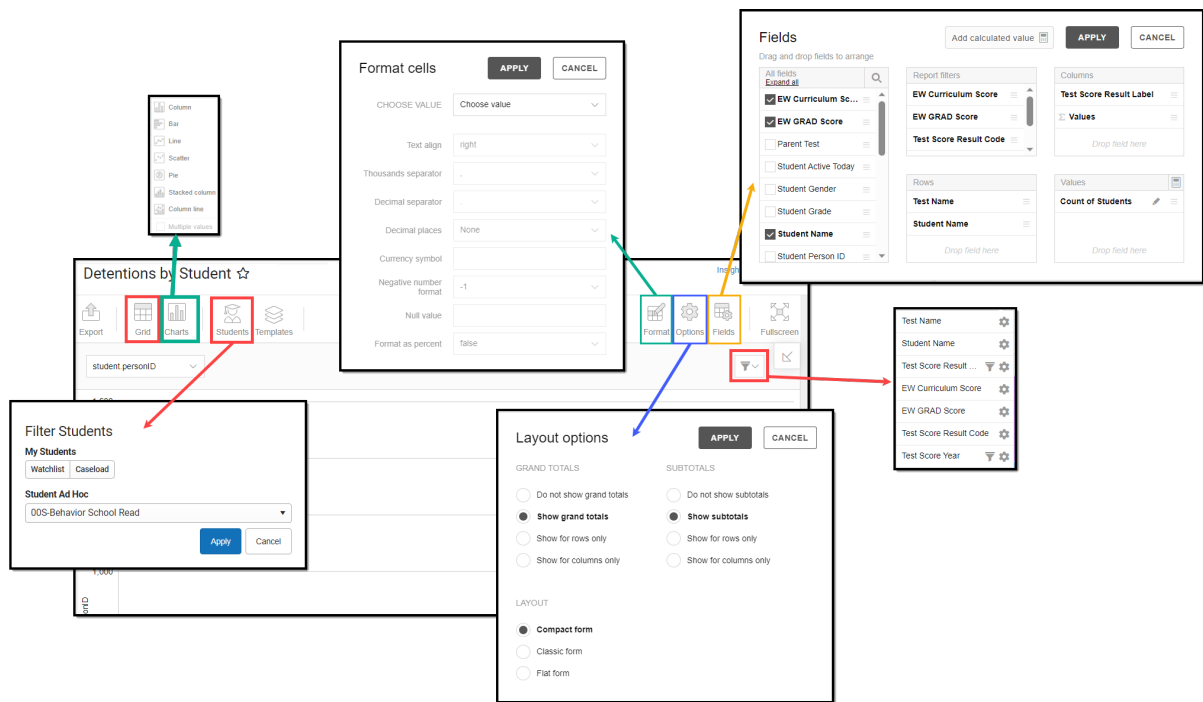

Creating Templates

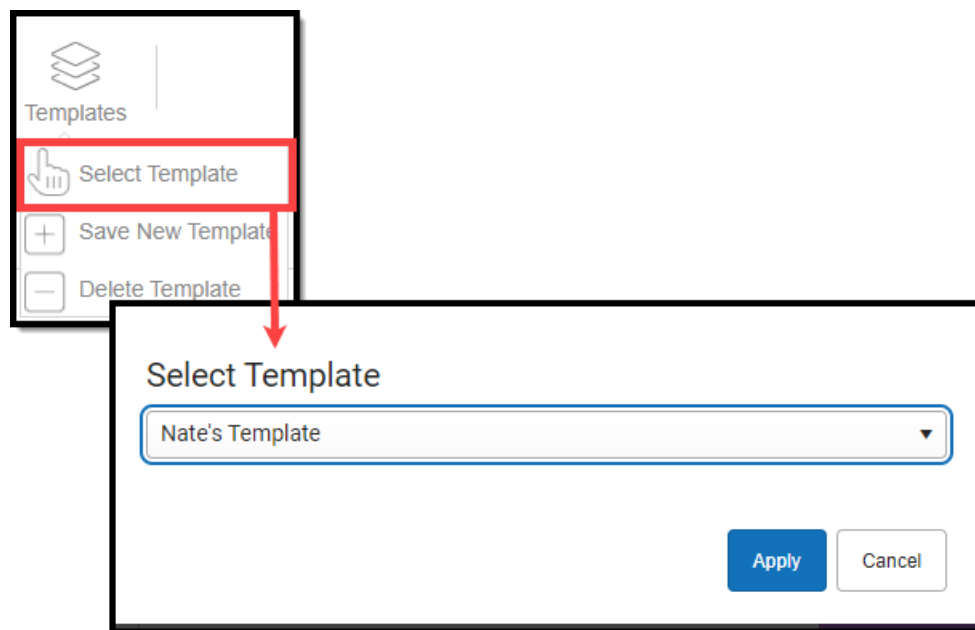

Templates allow you to save all filtering and formatting options you have set for a chart and have these options automatically applied each time you select a template. Templates are chart-specific, meaning they are only available and apply to the chart for which they were created.

For example, if you filter the chart data by Watchlist in the Student option (see section above) and modify any formatting and field options (any options shown below), all your selections can be saved as a template by clicking **Templates** and selecting **Save New Template**.

Once saved, each time you return to this chart you can automatically apply these options by clicking **Select Template**, choosing the template, and selecting **Apply**.

Additional Report Options

The table below provides information about the other on-screen options.

Option	Description
Grid and Chart   Grid Charts	Report data can be viewed in a grid or other visualization charts. See this article for more information.
Format  Format	Format options allow you to modify how cells represent data within the report. See this article for more information.
Options  Options	The Options menu gives you layout options for how you would like the table to be displayed (Layout), how grand totals are displayed in the table (Grade Totals), and how subtotals should be displayed (Subtotals). See this article for more information.
Export  Export	The report can be exported to a number of different formats by clicking the Export icon and selecting an option. See this article for more information.
Fields  Fields	The Fields icon allows you to modify the order of the fields in the report, add or remove fields from the report table, and modify which fields are used in rows or columns. See this article for more information.
