The Team Members tool lists the individuals who are part of a student's education team, including counselors, family and service providers. The Role assigned to team members indicates their involvement in the student's team. Members can be added through finding an existing person and linking them or by entering a person without consulting Census.

In order for a staff member's name to appear in the student header with the Counselor designation, the staff member must have at least an email address or phone number entered on their Demographics tab. See the [Demographics](#) tool document for information on entering personal contact information.

Only those individuals who need access to the student in a counseling context should be added.

For an explanation of the fields that appear for a team member, see the [Team Member Fields](#) table below.

## Team Member Information in Ad hoc Query Wizard

Use the Student Data Type in the Filter Designer to build reports that include Team Members information. These fields are available in the **Student > Learner Planning > Team Members** folder.

## Find and Link Team Members

The **Find and Link New Team Members** tool allows user to select new team members from a limited list based on likely candidates, such as those connected to the student in Census, the student's teachers, and staff members designated as Counselors. Existing individuals are then linked to the student and their information provided. See the following table for a description of

the fields in this editor.

One new team member can be added at a time. For example, if a selection is made in the Census dropdown, no other selections can be made.
