Tool Search: Section Student Detail

The Section Student Detail tool provides a location where districts can collect course-related state reporting data for individual students in a course section.

See the core [Section Student Detail](#) article for additional information.

The screenshot displays the 'Section Student Detail' tool interface. At the top, it shows the course '0103-110 SOCIAL STUDIES 1' and the teacher 'VERONICA'. Below this is a search bar for students and a 'Display Records' section with tabs for 'Previous', 'Active', and 'Future'. The main area contains a table of student records:

At the bottom of the interface, there are buttons for 'New' and 'Batch Fill'.
