Local Education Agencies (Texas v4.0)

Last Modified on 03/11/2024 8:47 am CDT

Tool Search: Ed-Fi

This entity represents an administrative unit at the local level, which exists primarily to operate schools or to contract for educational services. It includes school districts, charter schools, charter management organizations or other local administrative organizations.

Reports the District Information for a school.

Object Triggering Logic

Action	Trigger
Post	Post all Districts populated in the District table. • A resync must be completed for all Districts to post but a UI change will trigger the reporting District to post.
Put	When fields not part of the natural key are changed: District Name, Phone or Physical Address is changed.
Delete	Records are never deleted once they are sent.

Resource Preferences & Toggle/Resync Logic

Action	Business Rule
None	If a resource is toggled to 'OFF' after data has sent, all sent data remains in the ODS and no new data sends.
Resync	If an Ed-Fi Code mapping is changed to a new code or made NULL, a resync must be performed for the data to be updated in the ODS.

Natural Key Changes, Cascading Updates, and Deletes Logic

Action	Business Rule
Delete/Post	Natural Key changes • If the LEA ID changes all dependent resources will be deleted and only reposted if the new LEA ID has claim to the district to send data.
Delete	Cascading Deletes: If the Ed-Fi District Number or State District Number changes, all dependent resources will be deleted.
Dependent Resources	Student Education Organization Associations, Graduation Plans, Programs, Student Program Associations, Student CTE Program Associations, Student Special Education Program Associations, Student Title 1 Part A Program Associations, Student Homeless Program Associations, Student Language Instruction Program Associations, Student Migrant Program Associations, Student Neglected or Delinquent Program Associations, Student School Food Service Program Associations, Cohorts, Student Cohort Associations, Staff Cohort Associations

Scope Year Logic

Business Rules
Districts are not aligned to a year so all Districts send to each scoped year. • Data only send for the years that have a valid configuration. • A resync must be completed on the resource when a new scope year is connected in order for this data to send.

Object Data Elements

This table describes data elements sent within the Local Education Agencies resource. Required data elements are listed in **bold**.

Data Element Label	Business Requirement	Business Rules	M, C or O	Locat
id	The unique identifier of the resource		M	
addresses	An unordered collection of educationOrganizationAddresses. This entity represents an educational organization that includes staff and students who participate in classes and educational activity groups.	1. Reports the Physical Address. ◦ Does not report if blank. 2. See Array information below for field logic.	O
