Tool Search: GSSP Batch Print Report

The GSSP Batch Print Report allows for printing the Gifted Student Service Plan forms for multiple students in a given year rather than one student at a time.

The screenshot shows the 'GSSP Batch Print Report' tool interface. At the top, a header bar displays the title and the path 'Student Information > Reports > GSSP Batch Print Report'. The main content area is titled 'GSSP Batch Print Report'. It includes a descriptive message: 'This tool allows for the printing of the Gifted Student Service Plan forms for multiple students in a given year rather than one student at a time.' Below this are three main sections: 'Extract Options', 'Select Students', and 'Sort Options'. The 'Extract Options' section contains checkboxes for 'Include "Show in Portal" only' and 'Active Students Only'. The 'Select Students' section asks 'Which students would you like to include in the report?' and provides two options: 'Grade' (selected) and 'Ad Hoc Filter'. Under 'Grade', a dropdown menu shows 'All Students' and grade levels 14, 09, 10, and 11. The 'Sort Options' section allows choosing 'Student Name' or 'Grade', with 'Student Name' selected. At the bottom is a 'Generate Extract' button.

Generate the GSSP Batch Print Report

1. Mark the **Include "Show in Portal" only** checkbox if only records with that checkbox marked for a student on their Gifted & Talented Status record should be included in the report results.
2. Mark the **Active Students Only** checkbox if anyone without a currently active Enrollment record should be excluded.
3. Select the **Grade(s)** to include or an **Ad hoc Filter**.
4. Select from the **Sort Options** of Student Name or Grade.
5. Click **Generate Extract**.
