# Technical Information

See the Technical Information - Release Pack Campus.2319 (https://kb.infinitecampus.com/help/technical-information-release-pack-campus2319) article for a list of schema changes in this release.

# Activity Registration

Activity Registration Maintenance (SIS-168715)

The following updates have been made to the Activity Registration tool:

- Added a future enrollment option to Build Roster preview.
- Added future dated enrollments to the Field Trips roster when future dated checkbox is enabled.
- The Primary Enrollment modal was missing buttons after a recent update. This was corrected.
- Removing an activity with e-signature from the cart and re-adding the activity caused a connection error on checkout. This was corrected.

Path: Activity Registration

# Assessments

Missing User Groups on Copied Assessments (SIS-166949)

User groups did not display as expected on copied assessments in the Assessment Center. This issue has been resolved.

Path: Assessment > Assessment Center > Test Detail > Copy

Test Detail Updates (SIS-168602) **[Enhancement]**

The layout design and functionality of the Test Detail section of the Assessment Center have been updated to enhance user experience:

- Name of the 'Children' header changed to 'Child Tests'.
- New banner added under 'Child Tests' that reads 'Child tests can be re-ordered by dragging and dropping'.
- When the cursor is over a child test:
  - Icon displays as hand.
  - Child test is highlighted.
- 'Save' button options updated to include
  - 'Save' (default)
  - 'Save & New'

Path: Assessment > Assessment Center > Test Detail

# Campus Instruction

Grades Tool - Assignment Multiplier (SIS-111012)

The Grades tool has been updated so that the Weight field in the Detailed Grade Information section now is now called Multiplier, to match what the field is called in the Assignment editor.

Path: Student Information > General > Grades

Expanding Student Column in the Grade Book (SIS-140553)

Previously, clicking the chevron to expand the student column in the Grade Book caused an error if the Score Group aligned to the Task had 200+ scores. This has been corrected.

Path: Instruction > Grade Book

Updates to Message Center for Teachers (SIS-155614) **[Enhancement]**

The Missing Assignment Messages and Grades Messages have been updated so that teachers can send these messages to students, as well as their guardians. In Step 2 of creating a message, Teachers can now select which type of Recipients to include in the message: Messenger Contacts (individuals whose Relationship to a student is marked as Messenger) and Students themselves.

- When sending the message to all recipients from the section, mark Messenger Contacts or Students, or both.
- When selecting specific recipients, toggle between the two types to create a Recipient List that includes both students and guardians.

In support of this update, the Sent Message Log has also been updated to indicate whether students were included in the message in the Delivery Summary and which Recipient Types were selected in the Filter Criteria Detail. The

Recipient Log has also been updated to reflect inclusion of students in Grades and Missing Assignment messages.

Path: Instruction > Message Center > New; System Administration > Messenger > Sent Message Log; Messenger > Recipient Log

Custom Links and Reports Tool (SIS-158000) **[Enhancement]**

The Custom Links and Reports tool has been removed when the New Look is enabled. The Custom Tool Placement Editor should be used to add custom tools to Instruction. The tool is still available when the New Look is not enabled.

Path: Instruction > Custom Links and Reports

Student Assessment Summary Report Update (SIS-167138)

The Student Assessment Summary report has been updated so that the Code and Subject Type columns no longer overlap in the PDF report.

Path: Instruction > Reports > Student Assessment Summary

Expanding a Student in the Grade Book (SIS-167824)

Previously, some teachers received an error if they clicked the blue arrow in the Grade Book to expand the student and view a graph of student scores. This error occurred if the Standard selected as the Grade Book's context had a rubric with more than 400 options. This has been corrected so that the graph of student scores does not display if the rubric has more than 20 options, which accounts for the vast majority of rubrics.

Path: Instruction > Grade Book > click blue arrow to expand student

Curriculum Date and Time Fields (SIS-168386) **[Enhancement]**

The Start Date and End Date fields in curriculum items have been updated to improve consistency and accessibility.

Path: for example Instruction > Grade Book > New > Section Settings > Start Date, End Date

# Campus Learning

Progress Monitor - Hide Others (SIS-160994)

Previously the Hide Others option (eye icon) in the Progress Monitor hid all student data, including the student you selected, for larger sections. This has been corrected.

Path: Instruction > Progress Monitor > Hide Others

Posted Grades in the Progress Monitor (SIS-163696) **[Enhancement]**

The Progress Monitor has been updated to allow teachers to show either the students' In-Progress or Posted Grades at the center of each cell in the grid. Use the Displayed Grade toggle at the top of the Progress Monitor to select which type of grade should be shown.

Path: Instruction > Progress Monitor

Google Drive Login Screen (SIS-168224)

Previously, if a teacher began the process of attaching a Google Drive file to an assignment but closed the Sign-In window without signing in, a perpetual loading screen displayed. This has been corrected.

Path: Instruction > Grade Book > Assignment > Google Drive

Progress Monitor Student Search (SIS-168742) **[Enhancement]**

The Progress Monitor has been updated so that if a teacher has a student search filter or eye icon selected and switches to view a different section, the filter will still be applied, if it is applicable to the new section.

Path: Instruction > Progress Monitor > Student Search, Eye icon

Progress Monitor Assignments Button (SIS-168752)

Previously, clicking the Assignments button below a student's name in the Progress Monitor did not load the assignment list if the view was filtered to show students in a Student Group. This has been corrected.

Path: Instruction > Progress Monitor

# Campus Student & Parent

Campus Student & Parent Fixes (SIS-168762)

The following updates have been made to Campus Student and Campus Parent:

- Previously, if an attendance event spanned multiple periods, a push notification was sent for each period. Logic has been updated to send one push notification.
- The mobile apps now correctly set cookies.
- Previously, the wrong login page sometimes displayed in the mobile apps if the user's session was interrupted and cookies were not stored properly.

Path: Campus Student, Campus Parent

# Combine Person

Numerous Combine Person Error Messages Not Displaying (SIS-167140)

A bug was preventing numerous error messages from displaying in the Combine Person tool. This was causing person merges to silently fail, leaving users with no information as to why the merge failed. This issue was corrected and all messages within in the tool now display properly.

Path: System Administration > Data Utilities > Combine Person

# Contact Log

Contact Log (SIS-167934) **[Enhancement]**

The ability to merge and delete Custom Module Contact Logs has been added to Custom Module Setup. These tools can be used to re-create Contact logs experiencing issues by moving records and removing the now empty

Contact Logs.

Path: Student Information > General Student Administration > Custom Module Setup

# Data Validation

Five Rules Added to Baseline Validation Rules (SIS-167799) **[Enhancement]**

Five rules have been added to the base/non-paid version of Validation Rules:

- Active students not in a household
- Households with more than 1 primary mailing address
- Students who have no birth date
- Students who have the same student number
- Transcripts with no GPA value

Path: Data Integrity > Data Validation > Validation Rules

# Ed-Fi

Ed-Fi Updates (SIS-167671) **[Enhancement]**

The following Ed-Fi updates have been made:

- The Event Queue has been updated to stop processing records when there are issues with the ODS connection.
- The Student Section Associations resource has been updated to prevent orphaned records.
- Unnecessary Ed-Fi Quartz errors have been suppressed from the Error Log.
- The error message for when a client key cannot be found has been updated to be more informative.

Path: System Administration > Ed-Fi

Ed-Fi Bug Fixes (SIS-168750)

For Arizona and Minnesota, triggers in the Student Special Education Program Associations, Student Language Instruction Program Associations, and Student 21st Century Learning Center Grant Program Associations resources have been updated to no longer delete records if there are multiple Ed-Fi configurations set up for different years.

For Core Ed-Fi, the Staff Education Organization Assignment Association resource has been updated to re-post all Staff Section Associations for a staff person when a natural key change occurs.

Path: System Administration > Ed-Fi

Ed-Fi Resync Indicator (SIS-168840)

The resync indicator in the Event Queue tool has been updated to display until all resync records have finished processing through the Event Queue.

Path: System Administration > Ed-Fi

# Enrollments

Enrollment Overlap Report Update (SIS-158321)

The Enrollment Overlap Report was not loading in PDF format. This issue has been fixed.

Path: Student Information > Reports > Enrollment Overlap Report

# Forms

Custom Forms (SIS-154806)

An issue that was causing overflow text in custom form text boxes to print incorrectly has been resolved.

Article: Custom Forms

Path: System Administration > Custom Forms

# Grading Setup

Standards Bank - Moving Child Standards (SIS-145329)

Previously, when moving standards in the Standards Bank, users could still interact with the main screen even when the Move side panel was open. This has been corrected.

Path: Grading & Standards > Standards Bank

Standards Alignment Wizard (SIS-166142)

Previously, when the Select Course Masters side panel was open in the Standards Alignment Wizard, users could still interact with the main screen behind it. This has been corrected.

Path: Grading & Standards > Standards Alignment Wizard

Rollup Calculations in the Section Audit Report (SIS-168608)

Previously, if Rollup weights were entered as decimals in Grade Calc Options, the Section Audit report did not report those values correctly. This has been corrected.

Path: Grading & Standards > Reports > Section Audit

# Learner Planning

Team Members Enter New Team Member Validation Added (SIS-163672)

The First Name field when entering a new team member on the Team Members tool is now required. See the following articles for additional information: Special Ed Team Members, RTI Team Members, PLP Team Members, Counseling Team Members, (Kentucky Only) ILPA Team Members (Kentucky).

Path: Student Information > (Module) > General > Team Members

Special Ed Duplicate Evaluations Fix (SIS-168489)

An error where duplicate Evaluations displayed on the Documents tool has been resolved.

Path: Student Information > Special Ed > General > Documents

# Messenger

Recipient Side Panel Not Filtering Preferred Language (SIS-167790)

When a Preferred Language was selected on Step 1, the Recipient side panel was not properly filtering out the recipients who did not meet the Preferred Language criteria, although the recipients were properly being filtered when a message was sent. This has been corrected.

Path: Communication > Messenger > Messenger 2.0

Grade Levels Changing in Saved Templates (SIS-167956)

When Messenger 2.0 templates were saved, grade levels with a leading zero were losing this zero. We recommend reviewing any templates or scheduled messages that contain a grade level with a leading zero.

If the users have unmodified templates, and/or scheduled messages that contain grade levels with a leading zero, the issue is automatically fixed by this update. If the template/scheduled message has been edited after the initial save, then the grade level is incorrectly stored. The grade level must be deleted and the correct grade level must be added.

Path: Communication > Messenger > Messenger 2.0

Recipient Search Bar Fix (SIS-168318)

The Messenger 2.0 recipient search bar was omitting staff who only had a District Employment, even if the District Staff checkbox is checked. This has been corrected.

Path: Communication > Messenger > Messenger 2.0

Sender Display Names Not Applied to Emails (SIS-168735)

The Sender Display Name was not being applied when sending emails even though it was properly being applied when sending Test Emails. This has been corrected.

Path: Communication > Messenger > Messenger 2.0

# Navigation

New Look of Infinite Campus – Custom Tab Name Change Not Reflected in New Look (SIS-145431)

In the New Look, custom tabs which had their name changed were failing to display the updated name in the UI navigation. This issue was corrected.

Path: System Administration > Custom > Custom Tab

Accessibility Update (SIS-155991)

Updates were made to improve accessibility when using a screen reader and/or keyboard.

Path: N/A

New Look of Infinite Campus – Default Calendar Incorrect when Changing Schools (SIS-156898)

In the New Look, when selecting a school within the Campus toolbar, the default calendar (the calendar with the lowest sequence number) was not populating the District field. This issue was corrected.

Path: N/A

# OneRoster

OneRoster Cache Refresh (SIS-158161) **[Enhancement]**

By default, the OneRoster cache has been updated to refresh between 10pm and midnight local time, initiated at 10:10pm. An option has been added to the Settings menu in Digital Learning Applications Configuration allowing users to set a custom OneRoster Daily Cache Refresh Time. Off-peak hours are recommended.

Path: System Administration > Learning Interoperability, Instruction > Settings > Digital Learning Applications Configuration

OneRoster 1.2 - Administrator Role (SIS-166410)

The user Role of 'administrator' has been updated to be 'districtAdministrator' to remain in compliance with the OneRoster 1.2 specification.

Path: No specific path

OneRoster 1.2 - User Types (SIS-168266) **[Enhancement]**

Previously, all userIDs were returned with a hard-coded Type of 'infiniteCampus.' This hard-coded value has been updated to indicate the type of user account being returned: infiniteCampusStudent, infiniteCampusTeacher, or infiniteCampusRelative. If none of these account types apply, a Type of InfiniteCampus is returned.

Path: No specific path

OneRoster - Student Grade Level (SIS-168486)

Previously, some connections using OAuth 2 in BIE districts received an error when returning the students endpoint because the student grade level could not be returned due to the BIE Grade Level Definitions tab. Logic has been updated to filter out regional state grade definitions when returning student grades in OneRoster.

Path: No specific path

OneRoster - Student Grade Levels (SIS-168630)

Previously, if a student had multiple enrollments in the current year with the same Grade Level selected, the grade was repeated in the student user data in OneRoster for connections using OAuth 2. This has been corrected.

Path: No specific path

OneRoster - Students with End Dates (SIS-168793)

The getStudentsForClass, getStudentsForClassInSchool, getTeachersForClass, and getTeachersForClassInSchool endpoints have been updated to no longer include students and teachers whose membership in the section has ended and whose enrollments are not considered 'active' in OneRoster.

Path: No specific path

OneRoster 1.1 - 'Contains' Logic (SIS-168989)

The implementation of OneRoster 1.1 has been updated to support the use of a tilde (~) to express a 'contains' filter in both OAuth 1.0 and OAuth 2.0.

Path: No specific path

# Online Payments

Mobile Payments Bug Fixes and Improvements (SIS-166524) **[Enhancement]**

The following updates have been made to the Campus Mobile Payments app:

- Previously, if a Category or General Product was added to an event and later was inactivated or updated to no longer display on Mobile Payments, there was no indication that they were no longer active or valid. Inactive and Invalid labels, as well as a "Show Invalid" toggle, have been added to the Event workflow to ensure a user is notified of any issues pertaining to those Categories, Products and Items.
- Previously, the Product and Item buttons within the Preview section of Step 2 did not match the button view within the Campus Mobile Payments App. This has been corrected to ensure the Preview buttons will match the Horizontal Tablet view with the app.
- There was an issue where a device would be connected and logged in, but still appear as Pending in Device Management. This has been corrected.
- The Generate QR Code button within Device Management was renamed Generate QR Code and Save.
- The grey background for items in the Preview section of Step 2 - Event Layout was misaligned. This has been corrected.
- Previously there were issues when modifying items within Step 2 of a new Event which sometimes caused unintentional changes. This has been corrected.

Fix to Process Deposits with Minimum Field Specified (SIS-168688)

Due to continuing errors related to deposits and the "penny" issue, we have adjusted the way deposit requests are calculated to allow successful processing.

Path: System Administration > Payments > Deposit Reporter

# Point of Sale

POS 2.0 Balance Fix (SIS-168776)

Transactions created from POS 2.0 with no items caused balances to incorrectly read as $0. This has been corrected.

Path: N/A

Point of Sale 1.0 Transactions Fix (SIS-168861)

Transactions in POS 1.0 had not been posting since the most recent Campus update. This has been corrected.

Path: N/A

Point of Sale 1.0 Terminal No Longer Accessible (SIS-168867) **[Enhancement]**

Infinite Campus Point of Sale 1.0 is no longer available as of July 1, 2023. Please migrate to Infinite Campus Point of Sale 2.0. See the migration checklist or contact your Campus Administrator for details.

Path: N/A

# Scheduling

Scheduling Placement Tables Sync to State Edition (SIS-158767)

Deletion of a term tied to an existing course caused issues syncing room placements, teacher placement and course placement to State Edition. This has been corrected.

Path: N/A

Course/Section Setup Fix (SIS-167417)

An issue that wasn't allowing users to save the SCED Highest Grade on Course has been fixed.

Path: Scheduling > Courses > Course

Scheduling Center - Alternate Requests Display (SIS-168374)

The Total Over-Requested Students pie chart in the Student Requests section of the Scheduling Center no longer includes Alternate Requests in the calculation.

Path: Scheduling & Courses > Scheduling > Scheduling Center

Walk-In Scheduler - Loading Courses with an Effective Date (SIS-168888)

Entering an effective date when loading a student's courses in the Walk-In Scheduler wouldn't load the student's courses. This has been corrected; courses load with or without an effective date.

Path: Student Information > General > Schedule > Walk-In Scheduler

# School Store

No Category Display in General Product (SIS-168431)

When the list of products was being displayed in General Product, there was no indication which Category of Products was being displayed or edited. This has been corrected.

Path: School Store > Product Inventory > General Product

# Security

User Account Batch Import Tool Failing to Respect SAML/SSO Authentication Type (SIS-158118)

The User Account Batch Import Tool was failing to respect and set accounts to an Authentication Type of SAML/SSO if selected. This issue was corrected.

Path: System Administration > User Security > Batch and Import Wizards > User Account Batch Import Tool > User Account Batch Import Tool

Password Length Requirement Meter Incorrect and Causing Reset Password Error (SIS-166344)

When creating a new password, the password length indicator was showing green (indicating it meets requirements) even though the password was not of the required length. Users were able to save a password of an incorrect length, causing them to receive an error when attempting to reset their password because the incorrect length. This issue was corrected.

## Arizona

Arizona - Student Section Association (SIS-168185)

The Course Exit Descriptor in the Student Section Association Resource has been modified to report for EVIT/NAVIT courses. In addition to current logic, when a student's resident district is 090835000 or 070801000 AND the course number of the scheduled course matches a Transcript record in any school within the configuration year, the Course Exit Descriptor value reports.

A resync for the Student Section Association resource is needed as part of this update.

Path: System Administration > Ed-Fi

Arizona - Student School Attendance Event Resource and Excluded Enrollments (SIS-168333)

The Student School Attendance Events Resource no longer includes state excluded enrollments.

A resync for the Student School Attendance Events resource is needed as part of this update.

Path: System Administration > Ed-Fi

Arizona - Student Needs, SSEPA, SEORA Logic for ZZZ Enrollment Status (SIS-168439)

End Date logic for the following Ed-Fi resources has been modified to combine enrollments that have an enrollment status of ZZZ in calendars with different instructional days into one entry using the end date of the second enrollment's calendar.

- Student Needs
- Student Special Education Program Associations
- Student Education Organization Responsibility Associations

A resync is needed on the above resources as part of this update.

Path: System Administration > Ed-Fi

Arizona - Ed-Fi Logic for Reporting Multiple Enrollments (SIS-168689)

The Student School Attendance Event Resource now sends attendance information for all schools in which a student is enrolled.

In addition, the Negative Method 2 Event Duration Logic for Grades 9-12 has been modified to check whether a Section Student Detail record with a Career Readiness value of Yes exists for the same course number in a different calendar on the given attendance date for the student.

A resync is needed for any students who have multiple overlapping enrollments.

## Indiana

Indiana-Ed-Fi-Allow Manual Transcript Entries to Report (SIS-167289)
Manually posted transcript entries now report in the following resources:

- Course Transcripts
- Student Academic Records

An error message displays in the Error Log when any of the following fields are blank on manual transcript entries and a resync of the Course Transcripts resource is attempted:

- School Number
- District Number
- State Code
- Unweighted GPA
- Ed-Fi Term Type
    - Term type options updated in the Attribute / Dictionary as part of this release.

NOTE

- Districts need to map the new descriptor, ‘Ed-Fi Term Type’ in Student Academic Records *(Ed-Fi Connection > Resource Preferences).*
- You may receive errors in the Ed-Fi error log for past school years. Those errors can be ignored and archived. Only errors indicating the 2022-2023 school year need to be addressed.
- A resync of the Course Transcripts resource and the Student Academic Records resource is required as part of this update.

Path: System Administration > Ed-Fi

Indiana-Ed-Fi-Student Special Education Program Associations Resource Updates (SIS-167384)

The Student Special Education Program Associations resource has been updated to allow students with only a locked initial evaluation and no locked plans to report. All fields report under normal logic except the following fields for these students:

- ideaEligibility: Reports 'False'.
- programReference > programName: Reports as 'Undefined'.
- beginDate: Reports the value entered in 'Eval Date'

The following data elements have also been updated:

- iepReviewDate: Reports the value entered in 'Case Conference Date' on the most recent locked Initial evaluation. If this field is Blank, the value from 'Eval Date' is reported instead.
- circumstancesRelevantToTimelineDescriptor: Now reports from the most recent locked Initial evaluation.
- timelineComplianceDescriptor: Reports from the most recent locked Initial evaluation.
- ParentalConsentDate: Reports the value entered in 'Consent Date' on the most recent locked Initial evaluation. If this field is blank, the value from 'Eval Date' is reported instead.

## Nevada

Nevada-Chronic Absenteeism Report Updates (SIS-155783) **[Enhancement]**

The following changes have been made to support Nevada Chronic Absenteeism reporting:

- Added new fields to the AttDayAggregation table for Nevada's state attendance calculations
  - stateAbsentMinutes
  - customAbsentMinutes
- Set new attendance calculation, 'sp_NV_Summarize Attendance', as the default aggregation calculation under Attendance Aggregation Preferences.
- Updated the NV Chronic Absenteeism report to calculate chronic absenteeism for an Ed Facts and a NV State Reporting definition of Chronic Absenteeism.
- Truncated 'Ed Facts Percent Absent' and 'NV State Percent Absent' fields to the hundredths place.

Districts need to run the Attendance Aggregation Refresh tool for all calendars after taking this release to update attendance output for Chronic Absenteeism. Once this is done, the tool will automatically run each night.

## Pennsylvania

Pennsylvania Graduation and Transcript Report Updates (SIS-166938)

Several updates for Pennsylvania have been implemented on how student graduation award information reports on the student's Transcript. For the Graduation tool, the Award codes 00: World language proficiency certificate, 01: Gold bilingual or multilingual seal, and 02: Platinum bilingual or multilingual seal have been removed. Records with these codes still report on the student's Transcript, but are no longer available for selection when creating a new graduation award record.

Logic has been updated for which Graduation fields report on student Transcripts:

- for CTE awards, Industry Credential, Provider, and Transcript Date report. When the Provider is null, the Transcript does not print.
- for NCTE awards, Award Fact, Provider, and Transcript Date report. When the Provider is null, the Transcript does not print.
- for SEAL awards, Language and Transcript Date. The Provider field is greyed out on the report.
