

# Core SIF - AssessmentForm

Last Modified on 12/14/2025 8:45 pm CST

Tool Search: SIF

The current version of SIF is v2.7.

Represents the unique set of questions or stimuli given to a set of test takers. A physical correlate of the assessment form is the test booklet given to students during an assessment. However, this object does not contain the questions, it only contains elements that describe the form for use in scoring the questions.

SIF\_Events are **NOT** reported for this object.

## Batch SIF\_Condition elements:

1. @RefId
2. @AssessmentRefId

## Object Triggering

SIF Events are NOT reported for this object.

## Object Population and Business Rules

Requirement
Report 1 object per parent assessment.
The SIF Agent and Zone must have access rights assigned to AssessmentForm.
