New Scheduling Tools Overview - Video

Last Modified on 03/11/2024 8:47 am CDT

We're currently working to enhance Campus's scheduling tools. In May 2022, we launched the Scheduling Center, along with new Course Planner and Staff Planner tools. We've also introduced a Scheduling Board that includes Trials and eliminates the need for JAVA or a separate login. The old tools are still accessible as we develop the new ones. To get acquainted with these updates, watch the overview video introducing the Scheduling Center, Course Planner, Staff Planner, and Scheduling Board.
