

# Custom Module Setup [.2311 - .2315]

Last Modified on 05/26/2023 1:34 pm CDT

Custom Module Setup Detail | Create New Custom Module | Assign Custom Module Tool Rights

#### **Classic Path:** System Administration > Custom > Custom Module

Search Terms: Custom Module Setup

The **Custom Module Setup** tool was previously named **Custom Module**. Any Custom Modules created prior to the functionality allowing for a Contact Log and/or Custom Forms can be modified by navigating to the Custom Module Setup tool and selecting from the checkboxes.

The Custom Module Setup tool is used to create and manage organizational modules that store Custom Forms and/or Contact Logs.

Custom Forms can be currently created for the following modules:

- Attendance
- Counseling
- Health
- PLP
- RTI
- Special Ed

When creating a new area to house custom forms using the Custom Module Setup tool, a form needs to be created using Custom Form Setup. The custom area that was created appears in the Module dropdown list for selection.

Custom Forms are uploaded using the Custom Form Setup tool and assigned to students using the Forms tool.

Custom Contact Logs can be created and are available in the Custom category of Student Information by default. The location can be edited using the dropdown lists for menu and category item when creating a Custom Contact Log. They can be moved to a different location in the index after they are created using the Custom Tool Placement Editor.

## **Custom Module Setup Detail**

Click **New** or click on an existing module to view the **Custom Module Detail**.

Custom Module Setup ☆	Student Information > General Student Administration > Custom Module Setu
Custom Module Setup can be used to create a space for custom forms and/or a contact log w	vith associated tool rights. Users must log out and log in to view the new module.
Carefully review the Module Name and associated tools as they cannot be changed once cre	ated.
Create Custom Module *	
When creating a custom contact log, the words 'Contact Log' are automatically appended to the name entered	d here. The Display Name is limited to 36 characters.
National Honor Society	
Ad Hoc Display Module Name *	
Module name displays in Ad hoc and cannot contain spaces. There is a limit of 15 characters.	
NHS	
Tools * (Selection cannot be changed)	
Contact Log	
Use the fields below to indicate where the Contact Log should appear in the Main Menu. After a Custom Contact Log should appear in the Main Menu.	ntact Log has been created it can only be moved using the Custom Tool Placement Editor.
Menu*

Category *	
Select category item	
Custom 🔻	
Z Forms	
Description	
Description is limited to 500 characters.	
This module stores National Honor Society information.	
Save Cancel	

Field Name	Description
Display Name	The name of the module that displays in Module dropdown for Custom Forms and in the list of modules in the Forms tools; and/or in the Custom Category of Student Information or a specified location in the index for Custom Contact Logs. The Display Name CANNOT be modified after saving. For Contact Logs, the words 'Contact Log' are automatically appended to the name entered here. There is a 36 character limit.
Ad Hoc Display Module Name	The unique database name of the module. This name CANNOT be modified after saving. There is a 15 character limit.
Description	Any information about the module. The Description CAN be modified after saving. There is a character limit of 500. The Description for historically created Custom Modules that do not meet the naming convention cannot be modified.

## **Create New Custom Module**

1. Enter a **Display Name**.

Infinite Campus

- 2. Enter an Ad Hoc Display Module Name.
- 3. Select the **Tools** this Custom Module should be created for.
  - 1. If Contact Log is selected indicate where it should appear in the Main Menu by using

the Menu and Category dropdown lists.

- 2. If **Forms** is selected the display name will be an option in the Module dropdown list when creating a new custom form in Custom Form Setup.
- 4. Optional: Enter a **Description.**

Click **Save** when finished or **Cancel** to go back. Users should log out of Campus and log back in to assign tool rights and view the Custom Module in the Module dropdown of the Custom Forms tool or in the selected area for Contact Logs.

Custom Modules cannot be deleted. If the module is no longer used, remove all user tool rights for the module.

# **Assign Custom Module Tool Rights**

#### **Custom Tool Rights for Custom Forms and Custom Module Setup**

Each Custom Module Custom Form creates separate tool rights in the Custom Forms and Forms tool rights folders. Users must assign individual module tool rights in order for forms to be uploaded in those modules. See the Tool Rights (Custom Forms) documentation for additional information. Also located directly below any Custom Forms are the tool rights for the **Custom Module Setup** tool.
