

CALPADS Student Course Section (SCSE) [.2231 - .2319]

Last Modified on 06/02/2023 11:43 am CDT

You are viewing a previous version of this article. See [CALPADS Student Course Section \(SCSE\)](#) for the most current information.

[Report Logic](#) | [Non-Binary Gender Reporting](#) | [Validate SCSE Data](#) | [Report Editor](#) | [Generate the Student Course Section File](#) | [Student Course Section File](#)

Classic View: CA State Reporting > CALPADS Student Course Section

Search Terms: CALPADS Student Course Section

The Student Course Section extract reports students and the courses in which the students are actively enrolled in (Fall) or that the students have completed (EOY). Additional course and teacher data is reported in the [Course Section](#) extract.

The screenshot shows the Infinite Campus interface for the CALPADS Student Course Section tool. At the top, there is a search bar and the Infinite Campus logo. Below the search bar, the page title is "CALPADS Student Course Section" with a star icon. A breadcrumb trail reads "Reporting > CA State Reporting > CALPADS Student Course Section".

The main content area contains a blue header "CALPADS Student Course Section" and a text box with instructions:

- This file format is used to submit data on students and their courses. The extract purpose differs based on the Collection selected, so the same courses do not always report in both versions.
- To submit for Fall 2, which reports Course Enrollment for grades K-12: Enter a Reporting Date (usually info Day) and Collection=Fall. Data will report for all courses in which the student was actively enrolled as of the term that contains the Reporting Date. Courses must have a State Code other than blank, 6012, or 6017.
- To submit for EOY 1, which reports Course Completion for grades 7-12: Enter Collection=EOY. Data will report for all courses the student has completed. Course completion is indicated by a grade posted to the transcript. Courses must have a State Code other than blank, 1000, 6012, or 6017, and can have been scheduled at any time during the Reporting Year.
- WARNING!** The processing method for this file is Full Replacement by School of Course Delivery, Academic Year, and Academic Term. All of the data for an academic year, term, and school is replaced when a new file is submitted. Existing data can be deleted if the Delete transaction type is requested.

Below the text box are two sections:

- Extract Options:** Includes fields for Reporting Date, Collection (dropdown), Transaction Type (dropdown set to "Replace"), Format (dropdown set to "State Format(Caret Delimited)"), and Ad Hoc Filter.
- Select Calendars:** Includes the question "Which calendar(s) would you like to include in the report?" with radio buttons for "active year", "list by school", and "list by year". Below this is a scrollable list of schools for the 19-20 school year: 19-20 Abbott Elementary, 19-20 Bryant Elementary, 19-20 Colfax Middle, 19-20 Dupont Middle, 19-20 Emerson High, and 19-20 Franklin High.

At the bottom of the form are two buttons: "Generate Extract" and "Submit to Batch".

CALPADS Student Course Section

Report Logic

See the [California Course and Section](#) article for additional information on necessary course setup for reporting.

For the **Fall submission**, students report all course sections into which the student is actively scheduled as of the Reporting Date. The student must have an active enrollment on the Reporting Date. The enrollment active on the Reporting Day selected in the editor is the only one that counts for reporting.

- The student must have an active enrollment with a Service Type of P or S.
- If the Reporting Date is not an Instructional Day, the first day after the Reporting Date that is an instructional day is used as the Reporting Date.
- If the student has a multi-day schedule (such as A/B or MTWThF), all courses that occur in the term that contains the Reporting Date are reported.
- Courses in future terms do not report.
- Courses without a state code do not report.
- Courses with a state code of 6012 or 6017 do not report.
- No grade level constraint exists for the Fall Submission.

For the **EOY submission**, data is submitted for all course sections completed during the year for students in grades 7-12. A completed course is defined as any course from the current school year that has been posted to the transcript.

- Most data for this submission comes from the Transcript Course Record, except the Course Section ID and the Academic Term Code, which come from the actual Course Section.
- Courses without a state code do not report.
- Courses with a state code of 1000, 6012 or 6017 do not report.
- Courses taken in another district are not reported. The district number on the transcript course record must be the state district number.
- Records are only reported for course sections if the Transcript Course Record shows Grades 7-12 or NCES Grades 7-12. Note that grade levels include 7, 8 and 9 along with 07, 08 and 09.

For **both submissions**:

- Students marked as State Exclude on their enrollment record are not reported.
- Students enrolled in a grade level marked as State Exclude are not reported.
- Students attending a school marked as State Exclude are not reported.

Operational Keys

- School of Course Delivery
- Academic Year ID
- Academic Term Code
- Marking Period Code

Records sort first by **School Number**, then by **State ID**, then by **Course Section ID**.

Credits Earned and Credits Attempted fields are not required for students in grades 7 and 8.

However, courses only report from the transcript course record. Since posting to transcripts requires a value to be in the Credits for the grading task, 7th and 8th grade courses may post with a zero in the credits field.

This is a FULL REPLACEMENT file. This means that if a file is submitted/posted to CALPADS, and a later file with the same School of Assignment, Academic Year, and Academic Term is submitted/posted, the records from the second file will **replace**, rather than update or add to, the records from the first file.

Non-Binary Gender Reporting

Schools can assign students a gender of M: Male, F: Female or X: Non-binary. This is done on the [Identities](#) tool and/or the [Demographics](#) tool.

CALPADS Extracts use the Legal Gender field included in the Protected Identity Information to report student identity information.

To properly record a gender of X: Non-Binary, on the Identities tool:

1. Assign the **Gender of X: Non-Binary** in the standard identify fields.
2. Assign the **Protected Identity Information Legal Gender** field to either M: Male or F: Female.
3. Save the record when finished.

Identities Editor

Validate SCSE Data

Use the [Data Validation Report](#) to correct any student data prior to the submitting the CALPADS file to the state. Validation Groups and Validation Rules are provided by Infinite Campus for a specific CALPADS extract (listed below). These groups are used to return certain rules assigned to each group.

- [CALPADS SSID Enrollment](#)
- [CALPADS Student Information](#)
- [CALPADS Student Programs](#)
- [CALPADS Student English Language Acquisition](#)
- [CALPADS Student Discipline](#)
 - [Student Incident File](#)
 - [Student Incident Result File](#)
 - [Student Offense File](#)
- [CALPADS Staff Demographics](#)
- [CALPADS Staff Assignments](#)
- [CALPADS Course Section](#)
- [CALPADS Student Course Section](#)
- [CALPADS Work-Based Learning](#)
- [CALPADS Postsecondary Status Summary](#)

Modifications to the Validation Rules and Validation Groups can be made if your district has purchased the [Campus Analytics Suite](#); otherwise, they are read-only.

Users can select the **Missing or Incorrect Data** Validation Group, which returns any missing or incorrect data that is reported in the CALPADS Extract, like a missing enrollment exit reason or an incorrect date, for example.

Note that examples refer to CALPADS SENR.

Data Validation Report - Missing/Incorrect Data

The report first lists a Summary of the issues found and the total number of occurrences.

District: **SENR - Missing/Incorrect Data**

Time: Wed Sep 01 08:36:36 CDT 2021

Preview: Results limited to 100 records per Rule

Summary

Rule	Severity	Occurrences
SENR0013 (via Stored Proc)	Warning	1
SENR0013 - Enrollment Start Date before Birth Date (via Stored Proc)	Warning	1
SENR0014 (via Stored Proc)	Warning	0
SENR0014 - Enrollment Start Date Greater than Current Date plus 6 months (via Stored Proc)	Warning	0

Validate Report Results

Refer to the tables below, which includes the rule, rule logic and location, for correcting the data.

Missing or Incorrect Data

The Missing or Incorrect Data Report uses the following rules and logic (open the Click here to Expand section below to see each rule).

▶ [Click here to expand...](#)

Report Editor

The following fields are available on the Student Course Section Report Editor.

Field	Description
Reporting Date	Indicates the date of the report. This field displays the current date and include students enrolled on this date (Fall)
Transaction Type	Indicates the type of transaction that will occur - Replace or Delete.
Format	Determines how the report will generate. Select State Format (Caret Delimited) if submitting records to the state. Other formats available for testing and review purposes are CSV and HTML.
Ad hoc Filter	Select which students to include in the extract by choosing a filter that was created in the Filter Designer.
Calendar Selection	Select the calendar of enrollment from which to pull student data. Calendars can be chosen by the active year, by the school name or by the year.

Field	Description
Report Generation Options	Choose the Generate Extract to display the results of the chosen items immediately. Choose the Submit to Batch option to generate the report at a specified time. This option is helpful when generating large amounts of data.

Generate the Student Course Section File

1. Enter the **Reporting Date** in *mmdyy* format, or use the calendar icon to select a date. For the Fall collection, the Reporting Date entered should be Information Day. A Reporting Date should not be entered for the EOY collection as it includes all completed courses in the reporting year.
2. Select the **Collection** from the dropdown list - **Fall** or **EOY**.
3. Select the **Transaction Type** from the dropdown list - **Replace** (default selection) or **Delete**.
4. Select the **Format** of the file. The State Format (Caret Delimited) should be chosen when submitting records to the state. Other formats available for testing and review purposes are CSV and HTML.
5. Use the **Ad hoc Filter** to select students already included in a filter. This is not required. If not chosen, all students who have the appropriate enrollment start or end status during the entered date range are included.
6. Select the **Calendars** to include in the file.
7. Click the **Generate Extract** button. Or generate the extract at a specified time using the **Submit to Batch** button. The file appears in a new window in the selected format.
