Technical Information

See the Technical Information - Release Pack Campus.2323 (https://kb.infinitecampus.com/help/technical-information-release-pack-campus2323) article for a list of schema changes in this release.

Academic Programs

Academic Planning: Course Plan Bug Fix (SIS-169263)

A bug was causing Course Plans to display a credit range and not the credits earned for the course. This has been fixed.

Path: Student Information > Academic Planning > Course Plan

Activity Registration

Activity Registration Form Enhancement (SIS-165540) **[Enhancement]**

Custom Forms used in Activity Registration can now be populated with Ad hoc data. Using the new Quick Form Fill feature, districts can populate data into form fields even when the Ad hoc returns multiple values.

Path: Activity Registration > Activity Monitor

Activity Registration Fix (SIS-168958)

An error could occur where parents were able to register for an activity without completing all required forms. This has been corrected.

Path: Parent Portal

Campus Instruction

Scoring Rubrics in DOCX Format (SIS-153520)

Previously, an error occurred when viewing a Scoring Rubric in DOCX format in Microsoft Word. This has been corrected

Path: Instruction > Reports > Scoring Rubric

Assignments in Reports (SIS-167823)

Various small fixes have been made to the process of selecting assignments in the following reports: Grade Book Export, Missing Assignments, Section Summary, and Student Summary.

Path: Instruction > Reports

Roster Report - Health Conditions (SIS-167891)

Previously, Health Conditions did not display in PDF versions of the Roster report. This has been corrected.

Path: Instruction > Roster > Report Options

Missing Assignments in Advisory (SIS-168581)

As a result of a recent release, teachers using the Advisory tool could only view Missing Assignments for sections that they teach.

Path: Instruction > Advisory

Sibling Enrollments (SIS-168904)

Following a recent release, sibling enrollments no longer displayed in the Households section of a student's Summary tab in classic view. This has been corrected.

Path: Student Information > General > Summary

Blank Spreadsheet Report - Dropped and Incoming Students (SIS-169417)

Previously, the Blank Spreadsheet report did not include dropped and incoming students, even when inactive students were included in the report. This has been corrected.

Path: Instruction > Reports > Spreadsheet

Campus Learning

Signing In to Google Drive (SIS-160385) **[Enhancement]**

The workflow for using Google Drive files in assignments has been updated to no longer require users to sign in as often to continue to use Google Drive.

Path: for example: Instruction > Grade Book > Assignment > Submissions > Google Drive

LTI 1.3 - Launching Outside the US (SIS-169058)

Previously, an error occurred when attempting to launch a tool using LTI 1.3 outside of the US due to variation in international date formats. This has been corrected.

Path: No specific path

Campus Student & Campus Parent

Campus Student & Campus Parent Updates (SIS-169381)

The following updates have been made to Campus Student and Campus Parent:

- Improved notification performance.
- The Schedule report no longer displays twice if the calendar has a Start Date in the future.
- Addressed an issue where Android users could not view Scoring Rubrics in PDF format.

Path: Campus Student, Campus Parent

Census

Census (SIS-167050)

Birthdates in New Look have been corrected to include four digits for year instead of two.

Path: Search > All People

Census (SIS-168197)

Pronoun information that displays on the Campus Parent and Student Portal has been updated to match settings in the Attribute/Dictionary.

Path: System Administration > Custom > Attribute/Dictionary

Data Integrity Tools

Validation Rules Enhancement (SIS-159647)

Over 1,000 characters can now be added in the Description field of a Validation Rule.

Path: Data Integrity > Data Validation > Validation Rules

Data Validation Functionality Updated to Support Complex Select Statements and Store Procedures (SIS-166726) **[Enhancement]**

Data Validation functionality has been updated to support the use of complex select statements and stored procedures in validation rules and ensures these rules can be used throughout the validation and certification process without issue.

Path: Data Integrity Tools

Data Utilities

Updated SFTP Delivery Mode Added to Extract Tooling (SIS-159036) **[Enhancement]**

An updated SFTP Delivery Mode has been added to the following tools:

- Data Extract Utility
- FRAM Scheduled Import/Extract
- SLDS Submission Scheduling (Vermont Only)
- Data Import Wizard

This update ensures modern key exchange algorithms are supported which is especially useful for customers using servers which only support these newer algorithms.

> The old SFTP Delivery Mode still exists in the tool but has been renamed to SFTP Legacy (being deprecated). Existing configurations using this old delivery mode will continue to work but users should transition over to the new SFTP Delivery Mode option as soon as possible as the old mode will be deprecated in the future.

Path: System Administration > Data Utilities > Data Extract Utility; FRAM > Eligibility Import Wizard > Scheduled Imports; VT State Reporting > SLDS Submission Scheduling; System Administration > Data Utilities > Data Import

Data Extract Utility Updated to Provide User-Friendly Error Messages (SIS-166778) **[Enhancement]**

Error messages in the Data Extract Utility have been updated to be more informative and user-friendly.

Path: System Administration > Data Utilities > Data Extract Utility

A warning message that was being logged when the StudentSectionMarks object was sent has been removed.

Path: Path: System Administration > Data Interchange > Agents

Ed-Fi

Ed-Fi Student Discipline Incident Behavior Associations Resource (SIS-157042)

The Student Discipline Incident Behavior Associations resource has been enabled for Core Ed-Fi reporting.

Path: System Administration > Ed-Fi

Ed-Fi Student Discipline Incident Behavior Associations Object Key Update (SIS-168637)

The object key for the Student Discipline Incident Behavior Associations resource was changed from incidentID-personID to incidentID-eventID-personID. All code that uses the object key was updated to use the correct key.

Path: System Administration > Ed-Fi

Forms

Custom Forms (SIS-169486)

An issue with selection of checkboxes in a custom form has been corrected.

Path: System Administration > Custom Forms

FRAM

FRAM Online Application Enhancements (SIS-143933) **[Enhancement]**

The Meal Benefits application in the Parent Portal now has an updated user interface and bugs fixed. A new e-signature feature has replaced the previous PIN. Review the FRAM Online Application Checklist for the 23-24 School Year for tasks that must be completed to fully utilized the improved features.

Path: Parent Portal > Meal Benefits

FRAM Preferences Interface Enhancement (SIS-163769) **[Enhancement]**

The Preferences tools of FRAM have received a new user interface. These Preference tools can now all be found under FRAM Preferences. The following tabs will now be available:

- Year Preferences tab - This is the renamed Permission Preferences tab. All fields that are tied to a specific school year will now be available in this tab. This includes the Default Expiration Date as well as the Permissions.
- Application Preferences tab - This includes the general Application Preferences that relate to default values for letter configuration and settings for Meal Benefits and Educational Benefits application processing.
- Verification Preferences tab - This includes Verification Preferences used to set default letter configurations for the verification process.

Path: FRAM > Setup > FRAM Preferences

Grading Setup

Composite Grading Changes in the Grading Changes Not Pushed Report (SIS-168470)

Previously, if a parent task was removed from composite grading setup, this change did not display in the Grading Changes Not Pushed report. This has been corrected.

Path: Grading & Standards > Reports > Grading Setup > Grading Changes Not Pushed

Course Master Push Timestamps (SIS-169006)

A script has been run to add CompositePushTimeStamp and gradeCalcPushTimeStamp values to Course Master records that are missing these values due to an earlier issue that has been fixed.

Path: No specific path

Grading Setup Reports Update (SIS-169072)

Previously, if a Course Master had a quotation mark in the number field, the Course Master List would not load in Grading Setup report editors. This has been corrected.

Path: Grading & Standards > Reports > Grading Setup

Pushing Course Data - Calendar (SIS-169558)

Previously, when pushing course data from the Course Master to the Course, the push did not respect the calendar limitation selected. This has been corrected.

Path: Grading & Standards > Course Master Info > Push to Courses

Infrastructure

SAML Authentication Tools Updated to Use Correct Configuration Field (SIS-166683)

Numerous SAML-related tools were causing some user accounts to have a broken authentication state due to them utilizing an incorrect configuration ID field. To correct this issue, the following tools were updated to reference the correct field:

- User Account Batch Import Tool
- Authentication Type Droplist Default preference within System Preferences
- User Account Type Wizard
- User Account
- Usage.ssoAccount field within Ad Hoc

Path: N/A

Locator

Student Locator Updates in the New Look of Campus (SIS-165711)

The Student Locator did not auto-populate when creating an enrollment for a student with an existing census record in the New Look of Campus. This issue has been corrected. The student data displays as expected allowing for the generation of a local student number and creation of a new enrollment record.

Path: Student Information > Student Locator

Medicaid

Medicaid Enhancements and New Health Referring Provider Tool (SIS-167295) **[Enhancement]**

Several updates have been made to the Medicaid toolset. The Relationship and Insurance Start Date fields on the Medicaid Insurance tool have been updated to attributes. Several new fields have been added to the Service Providers tool; NPI Enum Date, Primary Taxonomy, Medicaid Provider #, Service Provider License Type, and License Revocation Date. These fields are also available in Ad hoc.

A new tool, Referring Provider, has been added to track the provider who referred the student. A new Referring Provider section has been added to the Health Conditions tool as well. These fields are also available in Ad hoc.

Path: Student Information > Medicaid > Insurance, System Administration > Medicaid > Service Providers, Student Information > Health > General > Conditions, System Administration > Health > Referring Providers

Messenger

Sent Message Log Updated to Include Security-Related Messages (SIS-155051) **[Enhancement]**

The Sent Message Log and Admin Mailgun Message Log tools were updated to include message status information about Password Reset, Username reminder, and Email Confirmation messages.

Path: Messenger > Sent Message Log; System Administration > Messenger > Mailgun Message Log

In-Progress Message Enhancement for Messenger 2.0 (SIS-167791) **[Enhancement]**

An In-Progress tab has been added to the Upcoming Messages in the Messenger 2.0 tool to view In-Progress messages when the process of sending the messages has started, with the ability to Cancel those messages as well. See the In-Progress Messages Release Notification for more information.

Path: Communication > Messenger > Messenger 2.0

Walk-In Scheduler - Skinnied Courses without Skinny Rule (SIS-137985)

The Walk-In Scheduler was incorrectly skinnying courses without a skinny rule being associated with the courses. This has been corrected.

Path: Student Information > General > Schedule > Walk-In Scheduler

Staff Planner and Course Planner Updates (SIS-166719) **[Enhancement]**

Additional updates are now available for Staff Planner and Course Planner.

- Teams (Scheduling Groups) can now be assigned to teachers on the Staff Planner side panel. This requires Scheduling Teams to be created in the selected school/calendar. When no teams exist for a calendar, this field and the Scheduling Teams field on the Section Side Panel in the Scheduling Board does not display. The Team is visible in Course Planner within the Teachers & Room section. The Teacher's Team is pushed to the Section when the Section does not already have a Team assigned.
- A Filter Show/Hide option has been added to the Staff Planner and Course Planner. The Filter by Name, Filter by Department and Filter by Ad hoc (new) are available within that show/hide option. The Filter by Ad hoc field has been added to both Staff Planner and Course Planner. Any previously saved Census/Staff

filter can be selected to narrow the list of teachers for easier Staff Planner and Course Planner updates.
- When viewing the last staff person in the list, the default Save option is now Save & Close.
- When a trial is locked, either through the Schedule Wizard or the Scheduling Board), the Course Planner and Staff Planner display a message indicating constraints cannot be modified due to the locked trial, which means editing cannot happen until the active trial is closed to prevent data loss.
- The CSV Export in the Course Planner has been updated to reflect the order in which fields display in the Course Planner.
- Accessibility issues found when using a screen reader have been addressed.
- The counts of Requests Last Year and Current Requests are now the same values in Course Planner as they are in Scheduling Board.
- The default value for Max Periods, Max Courses and Max Consecutive Periods in the Schedule Board Build Settings has been modified to be the actual count of Instructional Periods in a day.
- In Course Planner, the Section Template field is now Section Template Group.
- The Rules card for Course Planner now includes the Course Number as well as the Course Name.
- A script to modify Course Planner tool rights was also included. Users assigned tool rights to the new Course Planner as of the release of Campus.2315 and prior to the release of Campus.2323 were not modified when they were also assigned rights to Schedule Wizard. Users who were not assigned any tool rights to Course Planner but did have tool rights to Schedule Wizard are now assigned full tool rights (RW) to Course Planner.

Course/Section Setup Staff Tracking Update (SIS-166980) **[Enhancement]**

Users may now track the amount of instruction time for all staff types in a section. Time may be tracked in minutes or a percentage of time through the Staff History tab.

Note for New York and Pennsylvania users: The State Reporting Header on the Staff History tab has been removed. The Percent field is now part of the core product for Staff History. State Reporting logic has not changed and is not affected by this change.

Path: Scheduling > Courses > Sections > Staff History

Scheduling Board and Scheduling Trials Updates (SIS-167131) **[Enhancement]**

Additional updates are now available for Scheduling Board and Scheduling Board Trials:

- A new Print option is available that displays the Scheduling Board in PDF or XLSX format.
- The Scheduling Board can now be viewed in Full Screen.
- A View option has been added to the Courses Side Panel and the Sections Side Panel for Section Roster and Request Conflicts.
- A Completed Scheduled Statistic has been added to the Statistics Information area.
- Section Balance Configuration options are now available.
- Terms, Schedules and Periods information is now available in the Courses Side Panel.
- The Load Settings Side Panel save options now shows Save & Cancel instead of Save & Close.
- When a course has placement restrictions, manually placing a section in that restricted period now shows an icon indicating it cannot be placed there.
- On the Settings Side Panel, Courses can be searched in the dropdown list by Course Number OR Course Name.
- On the Section Side Panel, fields for Assign Team and Assign Lunch only display when Scheduling Teams and Lunches are available in the selected calendar.
