Technical Information - Release Pack Campus.2323

Last Modified on 08/04/2026 3:57 pm CDT

This article collects the changes made to the database schema as part of the Campus.2323 release pack. Campus provides this information to enable users to update queries and scripts that may be affected by these changes.

Infinite Campus will be removing all NOLOCK (and its equivalent, READUNCOMMITTED) query hints and READ UNCOMMITTED settings from the Infinite Campus code base with Campus.2331.

To mitigate the risk of query result inconsistencies, please be prepared to remove any NOLOCK (and READUNCOMMITTED) query hints from your own custom SQL code **when you take Release Pack .2331 (July 2023)**. Removing them before or after taking this release could cause inconsistencies in your query results.
