Search Terms: Ed-Fi

This educational entity represents the organization of subject matter and related learning experiences provided for the instruction of students on a regular or systematic basis.

Object Triggering Logic

This table describes logic for triggering syncing of this object.

Action	Trigger
Post	When a new blended learning group is created and the status is set to Active and at least one student is assigned to the Blended Learning Group: • A separate record will be sent for each school where there is at least one student added to the group based on the school of the student's enrollment. • Do not send a record if the Blended Learning Group is only assigned to students with enrollments in a calendar that is marked exclude. • Do not send a record if the Blended Learning Group is only assigned to students with enrollments in a school that is marked exclude.
Put	Update modalityTypeDescriptor when a Blended Learning Group is either assigned to a calendar day or removed from all calendar days in a school.
Put	Recalculate modalityTime whenever a Blended Learning Group is either added or removed on the Calendar Days.
Delete	If the Blended Learning Group is marked as Archived. • When the enrollment is marked State Exclude or No Show. • When the enrollment determining the record is deleted. • When part of the records' Natural Key changes. • When a Program is deleted or when the record no longer overlaps the configured year.

Resource Toggle/Resync

Action	Business Rule
None	If a resource is toggled to 'OFF' after data has sent, all sent data will remain in the ODS but no new data will send.
Resync	If a record is in the Ed-Fi Identity Mapping table and not in the ODS, it will be deleted from the Ed-Fi Identity Mapping table
Resync	If a record is in the ODS and it does not have a matching record in Campus or the Ed-Fi Identity Mapping table, it will be deleted from the ODS.
Resync	If a mapping is changed in Resource Preferences, a resync will need to be done to reflect the changes.

Natural Key Changes/Cascading Updates, Deletes

Action	Business Rule
Post/Delete	Natural Key changes: LEA Reference - District Numbers cannot change after data has been sent. If a district number changes, we would expect an Ed-Fi error and this change would not be supported.

Action	Business Rule
	If an Ed-Fi ID changes, a delete/post will occur with the cascading deletes from the Ed-Fi ID Change triggers.
	If the Program Name or Program Type Descriptor mapping changes and a resync is completed.
	If the Flag Start Date or Flag Name changes, all Student Program Associations will be deleted and then reposted.
Delete	Cascading Deletes: N/A - no dependent resources

Scope Year

Business Rules
The record will send to the scope year for the school year the program association record is associated with.
Data will only send for the years that have valid configuration.

Object Data Elements

This table describes data elements sent within the Student Program Association resource.

Data Element Label	Business Requirement	Business Rules	M, C or O	Data Source GUI Path	Databas
id	The unique identifier of the resource		M		
educationOrganization Reference	A reference to the related Education Organization resource.	Report a unique record for each school where there is at least one student added to the Blended Learning Group based on the school where the student is enrolled. Report from th.e state school number	M		
programReference	A reference to the related Program.	Reports the reference for the Learning Modality program.	M		
programName	The formal name of the program of instruction, training, services or benefits available through federal, state, or local agencies.	Report the name of the Blended Learning Group.	M		
programTypeDescriptor	The formal name of the program of instruction, training, services or benefits available through federal, state or local agencies .	Always report 'Learning Modality' in this field for all Learning Modality Programs.	M		
studentReference	A reference to the related Student resource.	Reports the Student Reference.	M		

Data Element Label	Business Requirement	Business Rules	M, C or O	Data Source GUI Path	Databas
beginDate	The month, day, and year on which the Student first received services.	Reports the start date from the Blended Learning Group.	M	Scheduling > Blended Learning Groups	blendedle groupass startdate
endDate	The month, day, and year on which the Student exited the Program or stopped receiving services.	Reports the end date from the Blended Learning Group.	M	Scheduling > Blended Learning Groups	blendedle groupass enddate
modalityTypeDescriptor	Defines the Modality that is being reported as either 'In Person' or 'Remote'.	If group is assigned to at least 1 day in the calendar report 'Remote" else report 'In Person'.	M	System Administration > Calendar > Calendar > Days	
modalityTimeTypeDescriptor	Defines the unit(s) of time reporting the the Modality Time Descriptor.	Report 'Days'.	M		
modalityTime	The amount of time the student spends in that Modality.	Look across all calendars/schedule structures the group is assigned in a school and count a unique number of days beginning with the earliest calendar start date through the max calendar end date that the group is tied to.	M	System Administration > Calendar > Calendar > Days	
reasonExitedDescriptor	A unique identifier used as Primary Key, not derived from business logic, when acting as Foreign Key, references the parent table.	Optional, does not report.	O		
servedOutsideOf RegularSession	Indicates whether the student received services during the summer session or between sessions.	Optional, does not report.	O		
enrollmentStatus		Optional, does not report.	O		
services	An unordered collection of studentProgramAssociationServices. Indicates the services being provided to the student by the program.	Optional, does not report.	O
