Assessment

Assessment Center Updates (SIS-169702) **[Enhancement]**

Updates have been made to the functionality of the Assessment Center including:

- When selecting 'Add Existing', the child assessment is not associated with the parent assessment until it is saved.
- The Academic Achievement Standards drop list is not available for selection if standards have not been established.

Path: Assessment > Assessment Center

Test Detail Instructions (SIS-169962) **[Enhancement]**

The Test Detail section of the Assessment Center has been updated to include instructions for the user.

Path: Assessment > Assessment Center

Behavior

Behavior Management Duration Calculation Fix (SIS-148330)

An issue where the Duration in School Days calculation on the Behavior Management tool was not calculating days correctly has been fixed.

Path: System Administration > Preferences > System Preferences, Behavior > Behavior Management

Campus Instruction

Districts in session should be aware of the following cases that relate to grade calculations; there is potential for In-Progress grades to be slightly affected depending on setup. Posted grades will not be affected.

- SIS-151032
- SIS-151252
- SIS-167552

Grade Book Grid Lines (SIS-115429)

Previously, the grid lines in the Grade Book displayed out of alignment the further a teacher scrolled through assignments. This has been corrected.

Path: Instruction > Grade Book

Calculating Exempted Assignments (SIS-138246)

Previously, assignments with scores that exceeded the maximum score allowed were causing an error when calculating In-Progress grades, even if the assignment was marked as exempt. This has been corrected.

Path: Instruction > Grade Book

Drop Lowest Score Logic Update (SIS-151032) **[Enhancement]**

The Drop Lowest Score calculation has been updated so that if two scores are tied for the lowest percentage, the score with the highest Points Possible is flagged as dropped. Previously, the score with the earliest Due Date was dropped.

Path: Instruction > Grade Book > Categories > Drop Lowest Score

Proficiency Estimate Calculation - Most Recent (SIS-151252) **[Enhancement]**

Previously, when using a calculation of Most Recent for proficiency estimates, if the two most recent assignments were due on the same day, a score of N/A was displayed. Logic has been updated to determine the most recent assignment based on both the date and time it is due.

Path: Instruction > Grade Book

Drop Lowest Score Logic (SIS-157017)

Previously, if a teacher had Drop Lowest Score marked for a Category and then manually excluded the assignment with the lowest score from calculation, the excluded assignment was still flagged as Dropped, even though the calculation had already flagged a new lowest score as dropped. Logic has been updated to remove the dropped flag from the excluded assignment.

Path: Instruction > Grade Book > Settings > Categories > Drop Lowest Score

Dropped Students in Submission Scoring Screen (SIS-159507)

Previously, students who had dropped a course were still visible in the submission scoring screen. This has been corrected.

Path: Instruction > Grade Book > expand assignment > Evaluate Work

Active Students in the Teaching Center Assignment List (SIS-167440)

Previously, the Show Active Students Only account setting did not apply when viewing a list of missing assignments via the Teaching Center. This has been corrected.

Path: Instruction > Teaching Center > assignment icon > Missing

Rollup Grade Calculations (SIS-167552)

The precision of the Rollup calculation has been improved to be consistent with the logic for composite grading and other grade calculations.

Path: Instruction > Grade Book

Score Dates in Campus Student (SIS-168043)

Previously, if a teacher had set a release date for scores, scored an assignment, and then later updated the assignment to release scores on save, the date the assignment was scored displayed differently between the score notification (date score was released) and the Grade Book Updates tool (date score was entered). This has been corrected so that the date the score was released is shown in both locations.

Path: Campus Student > Grade Book Updates, Notifications

Grid Lines in the Grade Book (SIS-168877)

Previously, grid lines in the Grade Book were sometimes misaligned if the user had increased the resolution to over 100% while using Google Chrome. This has been corrected.

Path: Instruction > Grade Book

Adding Multiple Sections to an Assignment (SIS-170755)

Previously, opening the Add Sections side panel caused interruptions to the assignment save process. This has been corrected.

Path: Instruction > Grade Book > Add > Add Sections

Campus Learning

Submission Database Improvements (SIS-122659)

Updates have been made to how submissions are stored to improve performance.

Path: No specific path

Student Group Side Panels in Score Analysis & Quizzes (SIS-166150)

Previously, when a user accessing the Grade Book as a guest opened the Student Group side panel for Score Analysis or Quiz responses and attempted to close the side panel, an error occurred. This has been corrected.

Path: Scheduling > Courses > Section > Grade Book > Settings > Score Analysis

Resubmitting Assignments (SIS-168500) **[Enhancement]**

Two improvements have been made to the submissions workflow. Both enhancements make it simpler to allow students to resubmit an assignment as needed.

- Reattempts: When a teacher enables submissions for an assignment, they allow students to make multiple attempts on the assignment. If desired, limit the number of reattempts allowed.
- Reassign: When viewing a submission in the scoring screen, teachers can click Reassign to allow just that student to resubmit the assignment.

Teachers must have the Enhanced Curriculum tool right to enable submissions in assignments.

Path: Instruction > Grade Book > Assignment > Task > Student Submission > Allow multiple attempts; Instruction > Grade Book > Score > Reassign

Adding LTI Items to Assignments (SIS-170209)

As a result of recent changes, teachers were unable to align learning tools to assignments via an LTI connection. This has been corrected.

Path: Instruction > Grade Book > Add

Census

Household Mailing Fix (SIS-170183)

Users were encountering an error where they were unable to check or uncheck the Mailing checkbox on Addresses from within a Household. This has been corrected.

Path: Census > Households > Address

Fees

Fee Audit Report PDF Fix (SIS-102861)

The Fee Type and Fee Name columns were overlapping within the Fee Audit Report PDF if there were too many characters in the Fee Type column. This has been corrected.

Path: Fees > Reports > Fee Audit Report

Fee Audit Report Fix (SIS-119610)

If a calendar was selected in the report options of the Fee Audit Report that a student did not have

an enrollment for, the student's payments would not show for other calendars selected. This has been corrected.

Path: Fees > Reports > Fee Audit Report

Fee Billing Batch Fix (SIS-125139)

When typing an ampersand (&) into the Notes field of the Fee Billing Batch Report and submitting the report to batch, the text in the Notes field will cut off beginning with the &. This has been corrected.

Path: Fees > Reports > Fee Billing Batch

Exempted Fee Assignments Fix (SIS-159968)

When a Fee Audit Report with Exempted Fee Assignments is exported to CSV file, the comments show #NAME? instead of the actual comments. This has been corrected.

Path: Fees > Reports > Fee Audit

Fee Assignment Fix (SIS-160836)

If the Calendar was changed while using New Fee Assignment, the Fees list was not refreshed to reflect only the fees available to the school associated with the selected Calendar. This has been corrected.

Path: Student Information > General > Fees

Fee Audit Report Fee Assignment (SIS-46840)

The Fee Audit Report was not pulling fees for students unless they were actively enrolled in the selected calendar. This has been corrected.

Path: Fees > Reports > Fee Audit Report

FRAM

FRAM Approval/Denial Letter Fix (SIS-167575)

If a household did not have an active address and a user chose to print the Approval/Denial letter from the FRAM Application processing, the letter was not generating. This has been corrected.

Path: Parent Portal > More > Meal Benefits

E-Signature Fix (SIS-169879)

An error was occurring where the E-Signature tool would not load if no preference was saved for the E-Signature and Password reset was not turned on. This has been corrected.

Path: System Administration > User Security > E-Signature

FRAM Preferences Fix (SIS-170177)

An error was occurring where Application Preferences and Verification Preferences could only save if if there was existing data. This has been corrected.

Path: FRAM > FRAM Preferences

Grading Setup

Import Standards - Description Character Limit (SIS-158123)

When importing standards, the character limit for the Description field has been increased to 2000 characters.

Path: Grading & Standards > Standards Bank > Import Standards

Standards Bank Side Panels (SIS-169643)

Previously, if a user was moving standards to another parent, they could still interact with the screen behind the Move side panel. This has been corrected.

Path: Grading & Standards > Standards Bank

Messenger

Messenger 2.0 Enhancements (SIS-169042) **[Enhancement]**

We have removed the Contacts Message Limit field (One Message Total vs. Message for Each Student) on Step 1 of the Messenger 2.0 Workflow.

If a Student Field and/or Student Sub-Report is added into any Message Body on Step 2, the campaign will treat the message delivery as though 'Message For Each Student' was selected. If no Student Fields/Sub-Reports are present, the campaign will send as One Message Total.

The 'Allow Multiple Messages in a Single Call' setting will be hidden from Communication > Messenger Settings > Voice Settings > Global Voice Settings. The setting will be set to 'Yes' for each district. This will reduce unnecessary calls and texts within campaigns and provide a

consistent experience

Test Messages (Email, Voice, and Text) priority will be increased to the highest priority setting to reduce delays if an active campaign is going on. Increased priority of test messages will immediately insert the test message into the queue.

OneRoster

Campus-Created Assignments with Multiple Alignments (SIS-168570)

Previously, when Campus-created assignments with multiple alignments were returned via the OneRoster API, multiple records returned with matching data. Logic has been updated to correctly return multiple records with different alignment data.

Path: No specific path

Secondary Email for OneRoster 1.2 Connections (SIS-168792) **[Enhancement]**

The option that is available for 1.1 OneRoster connections to return users' Secondary Email address instead of their Primary one has been added for 1.2 connections as well.

Path: System Administration > Learning Interoperability

Support for OneRoster Connections Using OAuth 1.0 (SIS-169893) **[Enhancement]**

The popup and instructions that display for users with OneRoster connections using OAuth 1.0 has been updated to include the new date at which those connections will not be supported: December 18, 2023.

Path: System Administration > Learning Interoperability > OneRoster connections

Online Payments

Improved Date Logic for Online Payments (SIS-139535)

Updated logic to allow payments to be made in between Calendar Start/End dates for Food Service, Optional Fees, and Recurring Payments.

Path: N/A

Point of Sale

POS Search Screen Queue Enhancement (SIS-159554) **[Enhancement]**

If a cashier was in the Search screen on the terminal and another patron entered their PIN number, once the cashier selected a patron on the search, the student that entered their PIN disappears. With this enhancement, patrons are put in a queue rather than removing them when another patron is selected.

Path: POS Terminal

Point of Sale Maintenance (SIS-169955) **[Enhancement]**

The following updates have been made to the Point of Sale tool:

- Added feature to add patrons back in queue when new patron selected through search side panel.
- Added option to hide filters in the search side panel to display more patrons on screen.

Path: N/A

Application Manager Fix (SIS-170188)

The Application Manager was displaying "Service" instead of the school with the 2323 update. This has been corrected.

Scheduling

Course Planner Batch Edit Courses and Constraints (SIS-167139) **[Enhancement]**

As part of the ongoing enhancements to scheduling tools and the dependency on JAVA, the Course Planner now includes the ability to add rules and constraints to multiple courses at one time.

There are two Batch Edit options available:

- Batch Edit Courses updates the general course fields that are visible on the main view of the Course Planner - Sections to Build, Max Seats, Terms, etc., that are used to when planning the schedule for the next year.
- Batch Edit Constraints adds, replaces and removes assigned teachers, assigned rooms and

assigned placement restrictions for the filtered courses.

Walk-In Scheduler - Teams Loading Incorrectly (SIS-169479)

Students assigned to a team were not scheduled into course sections assigned to that same team when using the Walk-In Scheduler to schedule students. This has been corrected.

Path: Student Information > General > Schedule > Walk-In Scheduler

Schedule Conflict Report (SIS-169544)

The Schedule Conflicts Report now generates with the correct conflict information when run from a trial that was copied from a previous trial, loaded and then made active.

Path: Scheduling > Reports > Schedule Conflict

Scheduling Board - Trial Deletion Issue (SIS-169589)

When attempting to delete an inactive, not locked trial in the Scheduling Board, an error message displayed indicating the selected trial could not be deleted because it was in use by another user. This has been corrected.

Path: Scheduling & Courses > Scheduling > Scheduling Board > Trial Selection

Walk-In Scheduler - Dual Credit (SIS-169591)

An error message displayed when attempting to remove the Dual Credit checkbox on the Walk-In Scheduler. This has been corrected.

Path: Student Information > General > Schedule > Walk-In Scheduler

Scheduling Center Loading Error with More than 2100 Courses (SIS-169741)

When a calendar had more than 2100 courses, the Scheduling Center and the Course Planner option in the Scheduling Center returned an error. This has been corrected.

Path: Scheduling & Courses > Scheduling > Scheduling Center

Scheduling Board - Build Settings for Teachers/Rooms (SIS-170073)

The Scheduling Board Build Settings for Drag & Drop: Engage Builder to Automatically Assign Teachers/Rooms was not assigning teachers when marked to do so. This has been corrected.

Path: Scheduling > Scheduling Board > Build > Settings

State-Specific Notes

Arizona

Arizona - Behavior Updates for Ed-Fi (SIS-167112)

The following changes were made to the behavior-related tools for upcoming Ed-Fi reporting changes:

- State Event Codes were updated for Behavior Event Types.
- State Resolution Codes were updated for Behavior Resolution Types.
- On the Resolution editor, two new fields were added to indicate whether the student received services during removal.
    - When the Services During Removal Declined checkbox is marked, the student's parents/guardians chose NOT to have services provided for the student.
    - When the Services Provided During Removal is marked, the student did continue to receive services during the removal.

Path: Behavior > Admin, Resolution Type Setup, Event Type Setup, Behavior > Behavior Management > Events and Participants > Add Resolution

Arizona - New Tribal Enrollment Field (SIS-167113)

A new Tribal Enrollment field has been added to the Race/Ethnicity fields on the Identities, Demographics and Add Person tools. The Tribal Enrollment field lists the tribes in which the student is enrolled. This is similar to the Tribal Affiliation field and includes the same values for selection; however, a person can affiliated with many tribes but only enrolled in one tribe.

The Tribal Enrollment field is needed for Ed-Fi Reporting.

Path: Census > Identities > Race/Ethnicity > Tribal Enrollment

Arizona Special Ed Updates (SIS-167896)

The Arizona Individual Education Plan and Evaluation have been update to meet compliancy for the 23-24 school year. Updates to the IEP include:

- a new print format, AZ IEP 2023, is now available.
- the following formats have been archived: AZ IEP 2016 Format(historical), AZ IEP 2015 Format(historical), AZ IEP 2013 Format(historical), AZ IEP 2012 Format(historical), AZ IEP 2011 Format(historical), AZ IEP 2010 Format(historical), AZ IEP Format(historical), and Campus Default IEP Format. See the Arizona Archived Special Ed Documents article for additional information.
- a validation error on the Education Plan editor has been fixed.
- on the Enrollment editor, the ED Emotional Disability and EDP Emotional (separate facility, private school) disabilities have been removed from the dropdown and a new value, ED/EDP Emotional Disability, has been added. The following Enrollment editor fields have been moved to the Placement and LRE editor: Special Ed Setting, SPED Concurrency Type, Primary SPED Services School. The Ancillary Disability 1 and Secondary SPED Services School fields have been removed.
- several Least Restrictive Environment (LRE) fields and a new field, Describe the extent to which the student will participate in their day with non-disabled peers, have been moved to the newly created Placement and LRE editor.
