RTI Participation (Insights)

Last Modified on 10/28/2026 8:24 am CDT

This report is available with Campus Analytics Suite.

Tool Search: RTI Participation

RTI Participation identifies all RTI program students (with an Early Warning GRAD Score between 50-100) who were or are still participating in. This report is not filtered by calendar or date, so any RTI plan the student(s) were previously or actively in is displayed.

To view the chart, you must have at least R(ead) tool rights for RTI Participation. You must also have calendar rights assigned for any calendar(s) reporting data.

NOTE: Insights visualizations may contain PII and include data for tools a user may not have rights to access.

Understanding the Chart

This report identifies all RTI programs students (with an Early Warning GRAD Score between 50 and 100) were or are still participating in. Using this information, you can quickly understand what has and has not been tried with this target group of students.

To view a chart of only active RTI participation data, see the Active RTI Plans report.

Double-clicking a bar will show you a table detailing all the data that makes up that bar.

Use the table below for help in understanding each sub-report column:

Column	Description
Student Name	The student's full name.
Student Grade	The student's grade level.
RTI Plan Name	The name of the student's RTI plan.
RTI Start Date	The day the student was assigned the RTI plan.
RTI End Date	The last day of the student's RTI plan.
RTI Content Area	The content area focus of the RTI plan (i.e., Math, Reading, Behavior, etc).
RTI Tier	The RTI tier of the RTI plan.
RTI Screener Name	The staff member who screened the student for RTI assignment.
RTI Screener Score	The student's RTI screening score.
Student Person ID	The personID for the student assigned the behavior resolution.

Using the drop list in the image below, you can filter data to display a count of Stability at-risk RTI participating students per RTI plan name.

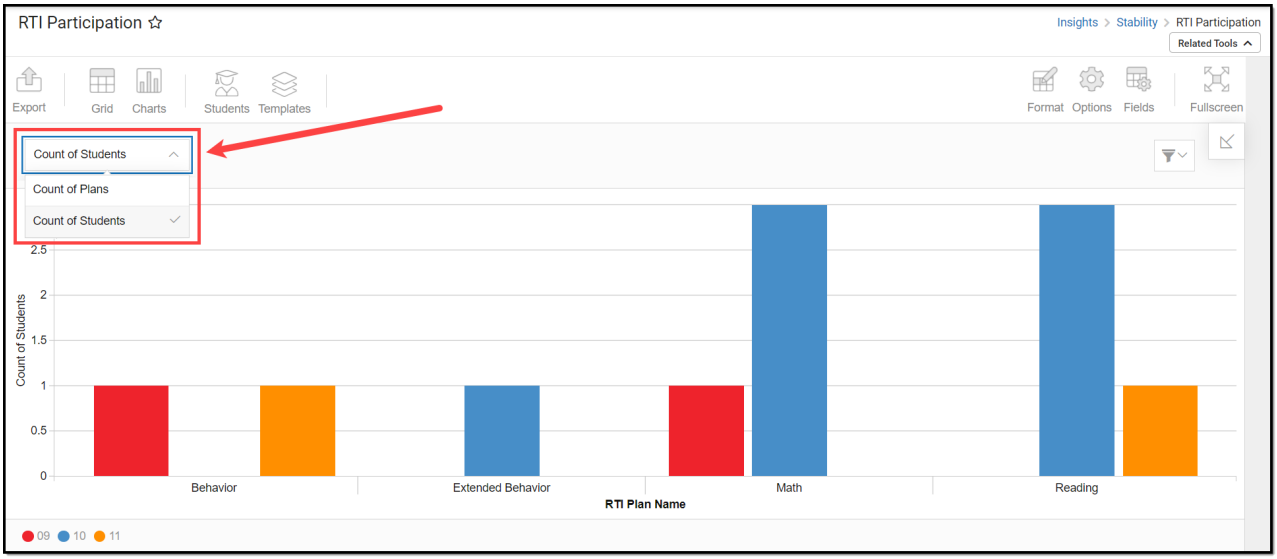

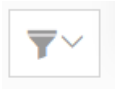

Chart Option	Description
Count of Plans	Displays a count of RTI participating students where Stability is a risk factor (has a Stability GRAD Score between 50 and100), broken out by RTI plan name.
Count of Students	Displays a count of stability-at-risk (Stability GRAD Score between 50 and100) RTI participating students per RTI plan name.

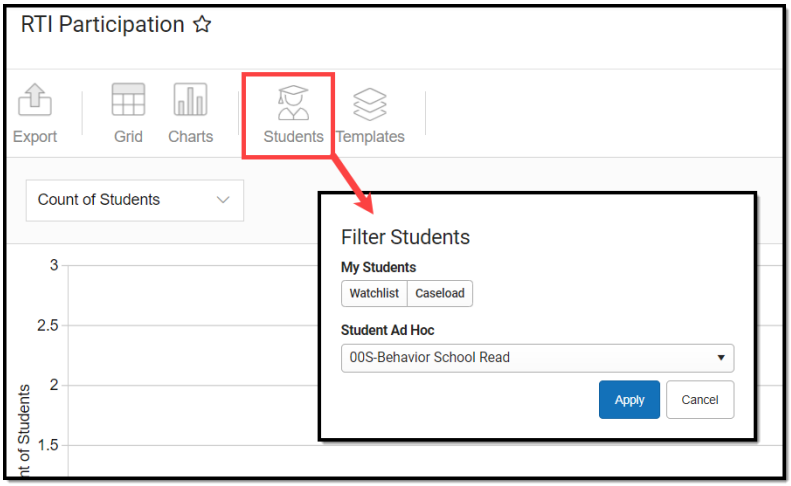

You can also remove and filter any data that makes up the chart by clicking the  button, selecting the data type you wish to filter, and unchecking data you wish to remove from the chart.

Filtering Chart Data

You can filter chart data to only students in your Early Warning Watchlist, Counseling Caseload, and/or a specific Student Ad Hoc filter by clicking the **Students** button and selecting any combination of these options.

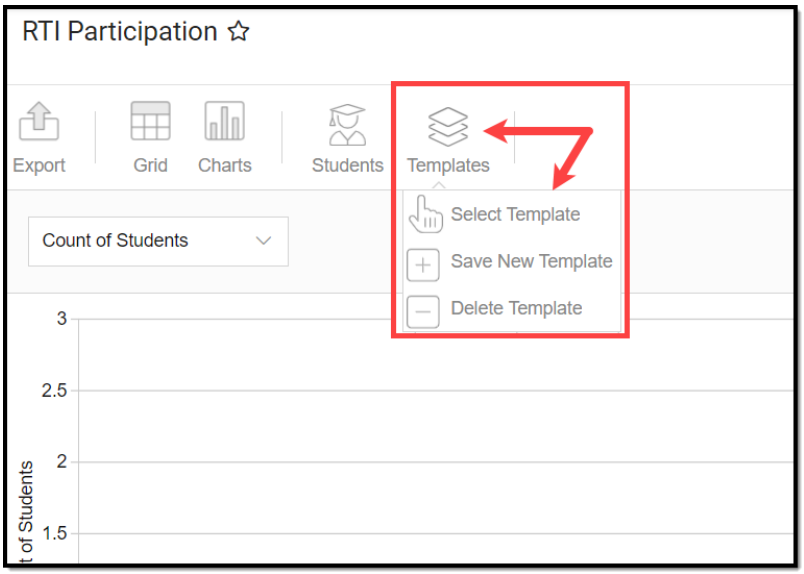

Ad Hoc Queries and Selection Editors are supported in Insights by filtering from the Student panel.

Pass-through SQL Queries are not supported in Insights.

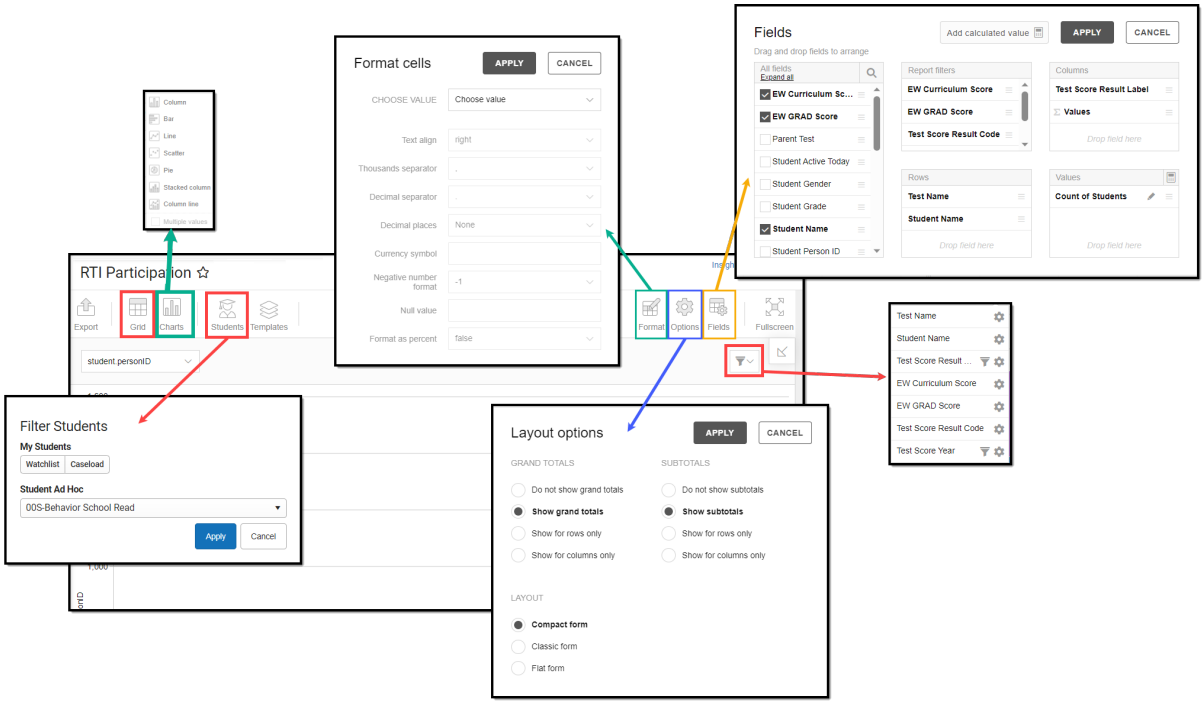

Creating Templates

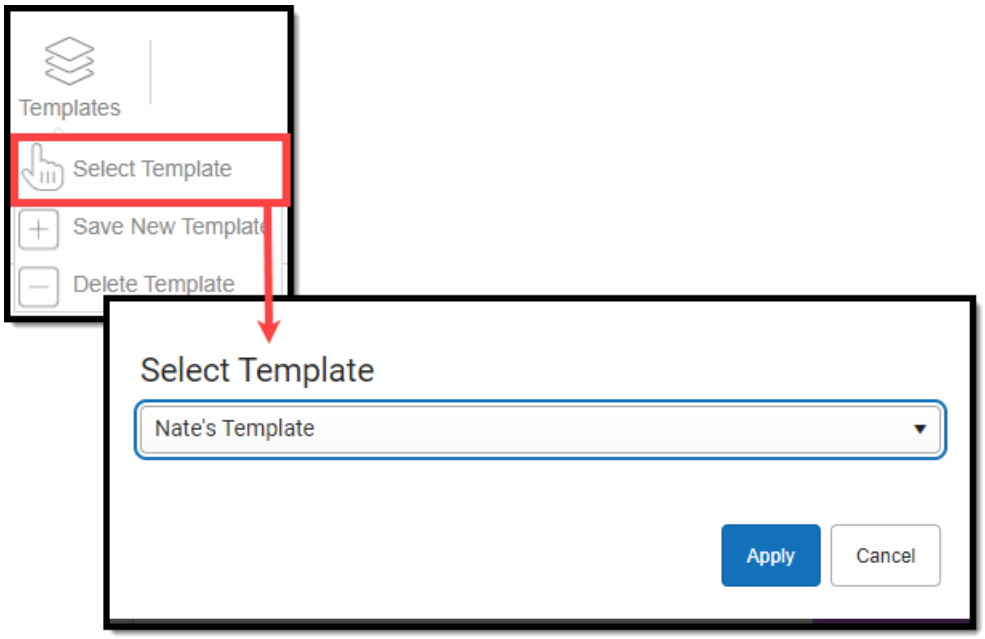

Templates allow you to save all filtering and formatting options you have set for a chart and have these options automatically applied each time you select a template. Templates are chart-specific, meaning they are only available and apply to the chart for which they were created.

For example, if you filter the chart data by Watchlist in the Student option (see section above) and modify any formatting and field options (any options shown below), all your selections can be saved as a template by clicking **Templates** and selecting **Save New Template**.

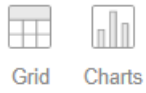

Once saved, each time you return to this chart you can automatically apply these options by clicking **Select Template**, choosing the template, and selecting **Apply**.

Additional Report Options

The table below directs you to additional information about the other on-screen options.

Option	Description
Grid and Chart  	Report data can be viewed in a grid or other visualization charts. See this article for more information.
Format  	Format options allow you to modify how cells represent data within the report. See this article for more information.
Options  	The Options menu gives you layout options for how you would like the table to be displayed (Layout), how grand totals are displayed in the table (Grade Totals), and how subtotals should be displayed (Subtotals). See this article for more information.
Export  	The report can be exported to a number of different formats by clicking the Export icon and selecting an option. See this article for more information.
Fields  	The Fields icon allows you to modify the order of the fields in the report, add or remove fields from the report table, and modify which fields are used in rows or columns. See this article for more information.
