Classic View: CA State Reporting > CALPADS Student English Language Acquisition

Search Terms: CALPADS Student English Language Acquisition

The CALPADS Student English Language Acquisition Extract is used to submit ELAS information about a student. This should be submitted when obtaining a new SSID; after that, only submit this when the student's ELAS changes (from EL to RFEP or from TBD to EL).

Only active EL records report.

CALPADS Student English Language Acquisition ☆

CALPADS Student English Language Acquisition Status

This extract is used to submit English Language Acquisition Status (ELAS) to CALPADS.

BEST PRACTICE is to run the SELA when obtaining a new SSID for a student or when a student's ELAS changes (e.g., a student's status changes from English Learner (EL) to Reclassified Fluent English Proficient (RFEP), or from To Be Determined (TBD) to EL).

Extract Options

- 21-22 Colfax Middle
- 21-22 Drew Middle
- 21-22 Ewing High
- 21-22 Fremont High

CALPADS SELA Extract

Report Logic

All actively enrolled students in the selected calendar(s) report as of the entered Reporting Date, when their Identified Date on the EL record is on or after the Calendar Start Date. Only those students who have the selected EL statuses from the Program Status field on the report editor are included.

When the **Exclude Previously Identified Students** checkbox is marked on the report editor, students who were identified as EL prior to their enrollment start date in the selected calendar are NOT included in the extract.

Only one record reports for any one student, regardless of the number of enrollments the student has.

Students do not report when:

- The enrollment record has a Service Type of N: Special Education.
- Their enrollment record is marked as State Exclude or No Show.
- The grade level of enrollment is marked as State Exclude.
- The calendar of enrollment is marked as State Exclude.
- The grade level of enrollment is PS, IN, TD, or AD.
- **The student is not enrolled in the reporting school on the Reporting Date. All enrollment-related data should report from the enrollment that is active on the REPORTING DATE**

Blank or Add Logic

Students with an EL Status of Pending report a TBD record (ELAS Status) with the entered TBD Date. If the TBD Date field is blank, the Enrollment Start Date is used.

An EO record reports when a student has an EO EL Record and the Identified Date is between the Previous Report Date and the Report Date. The ELA Status reports as EO and the ELA Start Date reports the Identified Date when populated; if not populated, the Enrollment Date reports.

Replace Logic

All students who have changed EL status between the Previous Report Date and the Reporting Date report.

- If the EL Status is Exited EL, and the Program Exit Date entered is between the Previous Report Date and the Reporting Date, the student reports:
 - ELA Status reports as RFEP
 - ELA Start Date reports the student's Program Exit Date
- If the EL Status is Exited EL, and the Program Exit Date entered is not between the Previous Report Date and the Reporting Date, the student does not report.
- If the EL Status is Exited EL, and the Program Exit Date is null, the student reports if the Identified Date is between the Previous Report Date and the Reporting Date.
 - ELA Status reports as RFEP

- ELA Start Date reports the student's Identified Date
- If the EL Status is EL, and the Identified Date is between the Previous Report Date and the Reporting Date, the student reports:
 - ELA Status reports as EL
 - ELA Start Date reports the student's Identified Date
- If the EL Status is EL, and the Identified Date is not between the Previous Report Date and the Reporting Date, the student does not report.
- If the EL Status is NOT EL, and the Identified Date is between the Previous Report Date and the Reporting Date, the student reports:
 - ELA Status reports as IFEP
 - ELA Start Date reports the student's Identified Date
- If the EL Status is NOT EL, and the Identified Date is not between the Previous Report Date and the Reporting Date, the student does not report.
- If the EL Status is Pending:
 - ELAS Status reports as TBD
 - ELAS Start Date reports the TBD Date; if it is NULL, the Enrollment Start Date reports.
- Student must report an EO record when they have an EO EL record and the Identified Date field is between the Previous Report Date and the Reporting Date.
 - ELA Status reports as EO
 - ELA Start Date reports as the Identified Date

Delete Logic

All students who are actively enrolled in the calendar on the report date are included. It is recommended that a filter be created to limit the amount of students included in this.

Reporting Dates

- Students who have a date entered in the **Identified Date** field (Student Information > Program Participation > English Learners (EL) > EL) that is **BEFORE July 1** of the start year **DO NOT REPORT**. It is assumed this information has already been reported to CALPADS.
- Students who have a date in the **Identified Date** field (Student Information > Program Participation > English Learners (EL)) **ON or AFTER July 1** of the start year **DO REPORT**. It is assumed this information has not been reported to CALPADs.

Transaction Types

Specific logic now exists for each Transaction Type on the Report Editor:

- **Blank/Add** - This option uses July 1 of the start year for reporting students.
- **Replace** - This option uses an additional field of **Previous Report Date** to find specific English Learners (EL) changes. Only those changes report.
- **Delete** - This option is to be used with an ad hoc filter, as all students report with this option.

EO Status

- Kindergarten students who have **NOT** been reported and are EO or TBD (have not taken CELDT to determine EL status) **NEED A DATE** in the Enrollment Start Date field (Student Information > General > Enrollments).
- EO students who have been previously reported by other districts as EO do not report in the extract.

Non-Binary Gender Reporting

Schools can assign students a gender of M: Male, F: Female or X: Non-binary. This is done on the [Identities](#) tool and/or the [Demographics](#) tool.

CALPADS Extracts use the Legal Gender field included in the Protected Identity Information to report student identity information.

To properly record a gender of X: Non-Binary, on the Identities tool:

1. Assign the **Gender of X: Non-Binary** in the standard identify fields.
2. Assign the **Protected Identity Information Legal Gender** field to either M: Male or F: Female.
3. Save the record when finished.

Validate SELA Data

Use the [Data Validation Report](#) to correct any student data prior to the submitting the CALPADS file to the state. Validation Groups and Validation Rules are provided by Infinite Campus for a specific CALPADS extract (listed below). These groups are used to return certain rules assigned to each group.

- CALPADS SSID Enrollment
- CALPADS Student Information
- CALPADS Student Programs
- CALPADS Student English Language Acquisition
- CALPADS Student Discipline
 - Student Incident File
 - Student Incident Result File
 - Student Offense File
- CALPADS Staff Demographics
- CALPADS Staff Assignments
- CALPADS Course Section
- CALPADS Student Course Section
- CALPADS Work-Based Learning
- CALPADS Postsecondary Status Summary

Modifications to the Validation Rules and Validation Groups can be made if your district has purchased the [Campus Analytics Suite](#); otherwise, they are read-only.

Users can select the **Missing or Incorrect Data** Validation Group, which returns any missing or incorrect data that is reported in the CALPADS Extract, like a missing enrollment exit reason or an incorrect date, for example.

Note that examples refer to CALPADS SENR.

Data Validation Report ☆

Reporting > Data Validation > Data Validation Report

Instructions

The Data Validation Report returns results from the Data Validation Group selected. The Summary section includes the number of occurrences for each Data Validation Rule; if a Baseline Rule is used its Total population will be returned along with the Rate of the primary Rule compared against the Baseline Rule. State Owned Data Validation Groups can be run against the State Dataset via DIS.

Validate Report Results

Refer to the tables below, which includes the rule, rule logic and location, for correcting the data.

Missing or Incorrect Data

The Missing or Incorrect Data Report uses the following rules and logic (open the Click here to Expand section below to see each rule).

▶ [Click here to expand...](#)

Report Editor

Field	Description
Reporting Date	Indicates the date of the report. This field displays the current date and includes all students enrolled on this date unless a previous submission date is entered.
Previous Report Date	When a date is entered in this field, only those students who meet the following criteria are included: <ul style="list-style-type: none"> • The Enrollment Start Date is AFTER the Previous Report Date. • The TBD Date on the English Learners record is AFTER the Previous Report Date. • The Identified Date on the English Learners record is AFTER the Previous Report Date.
Transaction Type	Indicates the type of transaction that will occur - Add, Replace or Delete. See the Report Logic for details on these types.

Field	Description
Program Status	Indicates which program statuses are included in the extract. All EL statuses are listed, and all statuses except for EL and Not EL are automatically selected. Change the default selections by clicking on the name of the Program Status.
Pre-Enrollment	When marked, students in the selected calendars who have an EL Status of Pending and an enrollment in the selected calendar are included.
Exclude Previously Identified Students	When marked, students whose ELA identified date is before their enrollment start date are not included in the extract.
Ended Enrollment	When marked, students whose enrollments are ended in the selected calendar are included in the extract.
Format	Determines how the report will generate. Select State Format (Caret Delimited) if submitting records to the state. Other formats available for testing and review purposes are CSV and HTML.
Ad hoc Filter	Select which students to include in the extract by choosing a filter that was created in the Filter Designer.
Calendar Selection	Select the calendar of enrollment from which to pull student data. Calendars can be chosen by the active year, by the school name or by the year.
Report Generation	Choose the Generate Extract to display the results of the chosen items immediately. Choose the Submit to Batch option to generate the report at a specified time. This option is helpful when generating large amounts of data.

Generate the Report

1. Enter the **Reporting Date** in *mmdyy* format, or use the calendar icon to select a date.
2. Select the **Transaction Type** from the dropdown list - Add/Update, Delete or Replace.
3. Select which **Program Statuses** to include in the extract.
4. Mark the **Exclude Previously Identified Students** checkbox, if desired.
5. Mark the **Ended Enrollment** checkbox, if desired.
6. If desired, enter the **Previous Report Date**. See the Report Editor table for reporting requirements when a date is entered in this field.
7. Select the **Format** of the file.
8. Use the **Ad hoc Filter** to select students already included in a filter. This is not required. If not chosen, all students who have the appropriate enrollment start or end status during the entered date range are included.
9. Select the **Calendars** to include in the file.
10. Click the **Generate Extract** button. Or generate the extract at a specified time using the **Submit to Batch** button. The file appears in a new window in the selected format.
