Tool Search: Active RTI Plans

Active RTI Plans provides a count of active RTI plans, organized by RTI plan name. This report displays RTI plans that are currently in progress, with a start date on or before today's date and an end date on or after today's date.

Only students with an Early Warning GRAD score between 50 and 100 are included in the chart.

This report is only available for districts that have purchased the Campus Analytics Suite.

You must have at least **Read** tool rights for **Active RTI Plans** to view the chart. You must also have calendar rights assigned for any calendar(s) reporting data.

NOTE: Insights visualizations may contain PII and include data for tools a user may not have rights to access.

## Understanding the Chart

The Active RTI Plans chart allows you to see all active RTI students and identify potential student

engagement opportunities. It can be viewed by the number of active RTI plans or the number of students with active RTI plans.

To view a chart of all RTI programs a student has participated in, see the [RTI Participation Report](#).

Double-clicking a bar will show you a table detailing all the data that makes up that bar.

Use the table below for help in understanding each sub-report column:

Column	Description
<b>Student Full Name</b>	The student's full name.

Column	Description
<b>Student Grade</b>	The student's grade level.
<b>RTI Plan Name</b>	The name of the student's RTI plan.
<b>RTI Start Date</b>	The day the student was assigned the RTI plan.
<b>RTI End Date</b>	The last day of the student's RTI plan.
<b>RTI Content Area</b>	The content area focus of the RTI plan (i.e., Math, Reading, Behavior, etc).
<b>RTI Tier</b>	The RTI tier of the RTI plan.
<b>RTI Screener Name</b>	The staff member who screened the student for RTI assignment.
<b>RTI Screener Score</b>	The student's RTI screening score.
<b>Student Person ID</b>	The personID for the student assigned the RTI plan.

You can also remove and filter any data from the chart by clicking the  button, selecting the type of data you wish to filter, and unchecking the data you wish to remove from the chart.

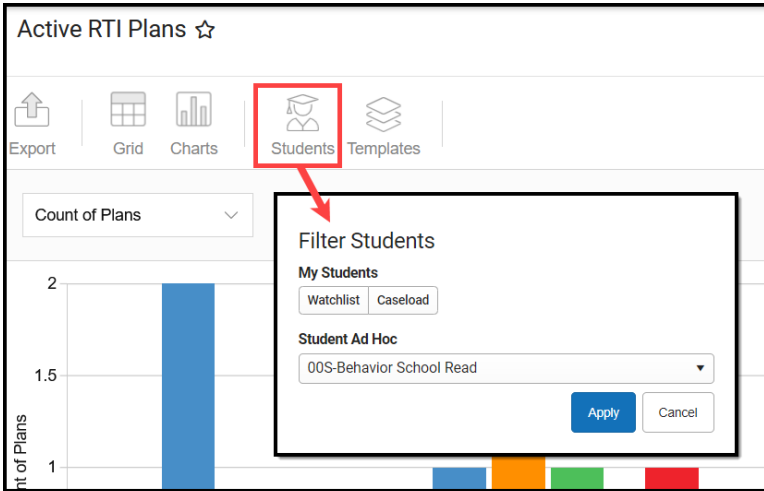

## Filtering Chart Data

You can filter chart data to only students in your [Early Warning Watchlist](#), [Counseling Caseload](#), and/or a specific [Student Ad Hoc](#) filter by clicking the **Students** button and selecting any combination of these options.

[Ad Hoc Queries](#) and [Selection Editors](#) are supported in Insights by filtering from the Student panel.

Pass-through SQL Queries are not supported in Insights.

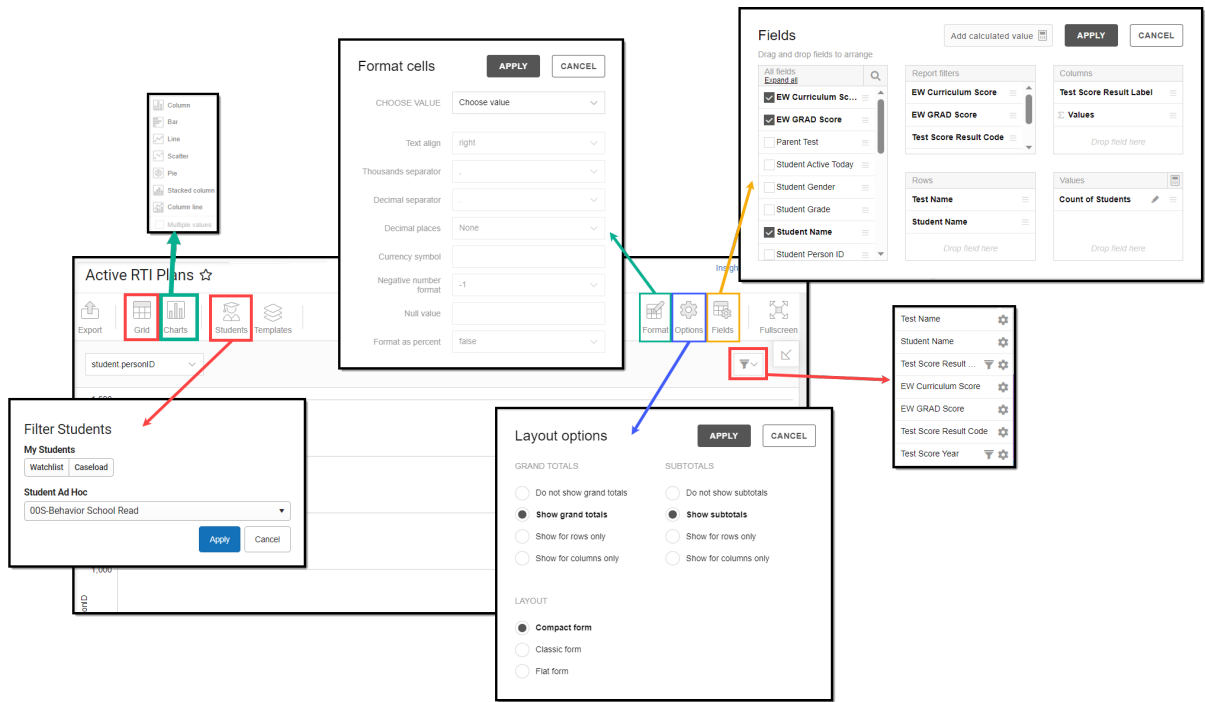

## Creating Templates

Templates allow you to save all filtering and formatting options you have set for a chart and have these options automatically applied each time you select a template. Templates are chart-specific, meaning they are only available and apply to the chart for which they were created.

For example, if you filter the chart data by Watchlist in the Student option (see section above) and modify any formatting and field options (any options shown below), you can save all your selections as a template by clicking **Templates** and selecting **Save New Template**.

Once saved, each time you return to this chart you can automatically apply these options by clicking **Select Template**, choosing the template, and selecting **Apply**.

## Additional Report Options

The table below directs you to additional information about the other on-screen options.

Option	Description
<p data-bbox="172 257 394 286"><b>Grid and Chart</b></p> <div data-bbox="209 315 347 398">   <p data-bbox="213 374 252 398">Grid</p> <p data-bbox="284 374 347 398">Charts</p> </div>	<p data-bbox="411 257 1251 286">Report data can be viewed in a grid or other visualization charts.</p> <p data-bbox="411 333 890 362"><a href="#">See this article for more information.</a></p>
