## Tool Search: English Learners

The English Learners (EL) tools allow schools and districts to manage student EL programs, assessments, services, and accommodations. The EL tool provides a central location for managing EL information such as the date the student was identified as EL, when the student entered/exited an EL program, when the student is expected to leave an EL program and First Year/Second Year Monitoring data.

For students who exited and/or re-entered an EL program, an historical record is kept and displayed and can be viewed in both State and District Editions of Infinite Campus.

See the core [English Learners \(EL\)](#) article for information on necessary tool rights, available Ad hoc fields, and guidance on adding and printing Early Learning records.

Data entered into the English Learners (EL) tools reports in the [English Learner Extract](#) and the [Recent Arriver Extract](#).
