Rx Pack - Campus.2327

Last Modified on 12/23/2025 2:02 pm CST

The following corrections are included in Rx Packs for July 2023. Rx Packs contain a small number of critical cases to fix urgent issues, with delivery in an immediate time frame (e.g., the fix cannot wait for the next four week Release Pack).

It is recommended that customers apply all subsequent Release Packs immediately following Rx Packs. Doing so will benefit both customers and Infinite Campus when it comes to supporting the patch.

Rx Packs are cumulative; each Rx pack will automatically include all previous Rx packs within that release. These cases will also be included in the Campus.2331 pack unless otherwise noted.

Below is a list of all Rx Packs for Campus.2327 and the date of availability:

- Rx Pack Campus.2327.10 - Monday August 21, 2023
- Rx Pack Campus.2327.9 - Wednesday August 16, 2023
- Rx Pack Campus.2327.8 - Thursday August 10, 2023
- Rx Pack Campus.2327.7 - Friday July 27, 2023
- Rx Pack Campus.2327.6 - Wednesday July 26, 2023
- Rx Pack Campus.2327.4 - Friday July 21, 2023
- Rx Pack Campus.2327.3 - Friday July 14, 2023
- Rx Pack Campus.2327.2 - Friday July 7, 2023
- Rx Pack Campus.2327.1 - Monday July 3, 2023

See the Release Pack Campus.2327 - July 2023 article for a full list of cases included in the Campus.2327 release.

Special Ed Documents Timeout and Editor Release Fix (SIS-171285)

An issue where the configured timeout set in Campus was not being honored by Special Ed Document editors has been resolved. Also to fix a separate issue with editors being locked for editing when they shouldn't be, a fix has been added so that when a user exits a document by closing it, the editor they were previously working on is automatically opened and allows other users to edit it immediately. These fixes only apply to Special Ed Documents rewritten with the New Look of Campus.

Localization - Nevada

Nevada Special Ed Updates (SIS-170850)

Logic has been added to the Nevada IEP that in the instance of multiple placements entered on the Placement editor, the Enrollment editor automatically updates with the Placement value that is active based on today's date and the dates entered for the placement. This value is automatically updated on the Enrollment editor as well. When a second and third placement is entered, the Start Date of the placement auto-populates to one day after the previous placement record's End Date. When the previous record's End Date is equal to the Plan's End Date, the Start Date of the new record does NOT auto-populate.

In addition, an issue where there were verbiage inconsistencies between the Special Ed Custom Form, "Consent - Release for Medicaid," and the printed IEP, Data Plan, and ISP has been fixed.
