## Schoolwide (Aggregate) Report Logic

The Schoolwide (Aggregate) report generates an aggregated list of information for the school and selects records from the Detail report where:

- State ID is NOT NULL
- Report at the school level so students may have enrollments in multiple calendars or schedule structures
- If the report has more than one Enrollment ID for a student within the same school:
  - If multiple enrollments exist with the same Service Type, report the one where the Enrollment End Date is NULL or is the last day of instruction
  - Report the enrollment with Service Type = P
  - If no primary enrollments, report the enrollment with Service Type = S
  - If no partial day enrollments, report the enrollment with Service Type = N.

This report groups by: End Year, District Number, District Name, School Number, School Name, State Classification. It sorts by the following in ascending order: EndYear, DistrictName, SchoolName.
