Technical Information

See the Technical Information - Release Pack Campus.2331 (https://kb.infinitecampus.com/help/technical-information-release-pack-campus2331) article for a list of schema changes in this release.

Activity Registration

Activity Registration Maintenance (SIS-170777)

The following updates have been made to the Activity Registration tool:

- The date picker associated with “Include Future Enrollment” wasn't working in certain scenarios. This has been corrected.
- Adjusted field placement on Preapproval Configuration screen.
- Fixed visual error occurring in Form Detail menu.
- Enhanced the filters in Activity Registration Roll Forward.
- Changed Prior Year Only checkbox into a switch toggle in Activity Monitor and Activity Dashboard.

Path: Activity Registration

Ad hoc Reporting

New Look of Infinite Campus - Ad Hoc Query Wizard Updated to Recognize Context Change (SIS-159426) **[Enhancement]**

When using the Query Wizard in the New Look of Infinite Campus (whether to create a new filter or modify an existing filter), if at any point the calendar or year is changed in the Campus Toolbar, users were being forced to reopen the filter before running it. This issue was corrected and users can now change the year or calendar and rerun a filter without the need to reopen it.

Also, a Return to List button was added to Filter Designer to allow users at any point to return to the list of available ad hoc filters without the need to refresh or exit the tool.

Path: Ad Hoc Reporting > Filter Designer

Ad hoc Behavior Response Times Update (SIS-168372) **[Enhancement]**

Two Ad hoc fields, behaviorDetail.responseStartTime and behaviorDetail.responseEndTime, have been updated to display in standard time instead of military time when reporting.

Path: Ad hoc Reporting > Data Export > Behavior

Assessment

Test Type Updates (SIS-170140) **[Enhancement]**

A corresponding State Code or National Code is required for the user to proceed when Test Type is set to State Test or National Test. If the fields are blank when the Save and Next option is selected, the error message "Form contains invalid fields" displays and the State Test or National Test drop list is highlighted with the message 'State Code is required' or 'National Code is required'.

Path: Assessment > Assessment Center > Test Type

Result Statuses Updates (SIS-170807)

In previous versions, multiple rows were removed when attempting to delete a single row from the Result Statuses section of the Test Detail in the Assessment Center. This issue has been corrected and users can now delete an individual row.

Path: Assessment > Assessment Center > Test Detail > Result Statuses

Incorrect Icons When Copying Assessments in State Editions (SIS-170842)

Folder icons did not display correctly when copying an assessment in a State Edition. This issue has been resolved. The blue and white folder icons display correctly to reflect assessment hierarchy.

Path: Assessment > Assessment Center

User Group Updates (SIS-171101)

User group section fields:

- Did not save.
- Were not prepopulating from the parent assessment when creating new child assessments.
- Did not clear when 'Mark as Restricted' was selected.

These issues have been corrected.

The Number of Items field value under Test Information has also been updated as part of this case to correctly populate with the value from the parent assessment when creating new child assessments.

Path: Assessment > Assessment Center > Test Detail > Display Settings, Test Information

Publishing Test Scores Update (SIS-171292)

Test scores within the active zone year were not published from the State Edition to the District Edition. This issue has been corrected. Test structures and test scores are published as expected when using the Publish Test tool in the Assessment Center.

Path: Assessment > Assessment Center > Publish

Calendar

Calendar Roll Forward - Calendar ID Display (SIS-166920) **[Enhancement]**

The Calendar Information editor now shows the Calendar ID value and a Parent Calendar ID value. Both of these are read-only fields

- The Calendar ID is for informational purposes only.
- The Parent Calendar ID displays the identification number of the calendar from which the calendar was rolled forward. This only displays when the enrollment was created using the Calendar Wizard to roll calendars forward.

Path: Scheduling & Courses > Calendar Setup > Calendar Information

Campus Instruction

Instruction Tool Rights in the New Look (SIS-144718)

The following updates have been made to Instruction tool rights when using the new look of Campus:

- These tool rights in Instruction > Settings have been updated to allow RWAD rights, rather than just on/off: Google Drive Configuration, Google Drive Preferences, Roster Verification Event Log, and Roster Verification Event Wizard
- The Data Access Rights section at the bottom of the tool rights page has been renamed ""Additional Access Rights"" and the Instruction rights have been reorganized. A new Instruction Tools group has been added, which includes the Enhanced Curriculum rights, the Grading Tools right, and an Engagement Check-In tool right that was added in the new look.
- Addressed an issue with rights in the new look that previously caused some rights to not be assigned corrected in User Groups.

Path: System Administration > User Security > Users > Tool Rights

Section Summary Report Update (SIS-160573)

Previously, if a user attempted to generate the Section Summary Report for multiple sections and at least one of those sections did not have any grading tasks aligned, the report generated as blank. This has been corrected.

Path: Instruction > Reports > Section Summary

Advisory Accessibility (SIS-166666)

The Advisory tool has been updated so that users can now navigate in the Missing Assignments side panel using the tab key.

Path: Instruction > Advisory

Missing Assignment Report Updates (SIS-167217) **[Enhancement]**

The following updates have been made to the Missing Assignments report:

- Clarified the introduction text on the report editor.
- Updated the report to consider a student's roster Start Date - assignments due prior to the Start Date are not included in the report.
- Updated logic so that if an assignment's End Date is passed, the student does not have a score, and the assignment has not been flagged as Turned In, the assignment is included in the report even if it has not been flagged as Missing.
- Added an option to generate the report with page breaks between students to the report editor.
- Updated the header on the generated report.

Path: Instruction > Reports > Missing Assignments

Classroom Now Defaults to Enabled (SIS-171027) **[Enhancement]**

The Classroom tool has been updated to be enabled by default. Individual teachers can disable Classroom using the toggle on the Teaching Center. The Classroom Settings tool that controlled Classroom access at the district level has been removed. With this change, the Classroom view is now enabled for all Campus Parent and Campus Student users.

Path: Instruction > Classroom

Curriculum Copier Source Section (SIS-171058)

Previously, users were unable to select a Source section in the Curriculum Copier other than the default section. This has been corrected.

Path: Instruction > Grade Book > Settings > Curriculum Copier

Campus Learning

Discussions Integrated with Curriculum (SIS-171026) **[Enhancement]**

Discussions are now fully integrated with curriculum and the stand-alone Discussions tool has been removed for teachers and students. To create a discussion, first create an assignment (if scored) or a resource (if not scored) and then add a discussion. Students then respond to the discussion in Campus Student via the assignment/resource. The Discussions tool in System Administration is still available for administrators to view all discussions in a calendar.

Path: Instruction > Grade Book > Add > Discussion

Campus Student/Parent

Addressed Issue for Older iOS and Safari Versions (SIS-169765)

Campus Student and Parent have been updated so that they can be opened on devices using older iOS versions and older versions of Safari.

Path: Campus Student, Campus Parent

Contact Log

Contact Log (SIS-168095)

An issue where default selections were not appearing in the dropdown lists for Contact Log Menu and Category within Custom Module Setup has been resolved.

Path: Student Information > Custom Module Setup

Custom

Custom Tabs with External URLs Failing to Open in Workspace (SIS-168738)

Some web browsers were preventing custom tabs with external URLs from opening within the workspace. Updates were made to fix this issue and prevent it from occurring.

Path: N/A

SSRS Reporting (SIS-171254) **[Enhancement]**

The new dynamic SSRS Reporting tools allow districts the ability to set up a connection to an SSRS server from Infinite Campus that can run custom reports. The SSRS Dynamic Reports are ONLY intended for staff-run reports. Portal reports are not included at this time. For more information, please review SSRS Report Configuration, SSRS Server Configuration, and SSRS Dynamic Report Options Guide.

Data Utilities

Data Extract Utility - New SFTP Mode Giving Path/Permissions Error (SIS-170792)

A bug was causing some servers to report a path or permissions error when attempting to connect via the new SFTP mode in the Data Extract Utility. This issue was corrected.

Path: System Administration > Data Utilities > Data Extract Utility

Parameter Added to Data Extract Utility to Allow for Removal of Social Security Number Values (SIS-171242) **[Enhancement]**

A parameter (@includeSSN bit = 1) was added to the 3 default Data Extract Utility extracts to allow for the removal of Social Security Numbers from being reported.

Path: System Administration > Data Utilities > Data Extract Utility

Data Health Check Deprecation Banner (SIS-171370) **[Enhancement]**

A banner notifying users of the Data Health Check deprecation happening in Campus.2339 has been added to select pages.

Path: System Administration > Data Utilities > Data Health Check

Database

NOLOCK Query Hints Removed from Codebase (SIS-166815) **[Enhancement]**

In an effort to improve system performance and mitigate the risk of query result inconsistencies, all NOLOCK query hints have been removed from the Infinite Campus codebase.

Please see the NOLOCK FAQ article for more information.

Path: Student Information > Special Ed > General > Documents

Special Ed Evaluation Verbiage Update (SIS-171031) **[Enhancement]**

Verbiage when referring to Special Ed Evaluations within their editors have been updated to use a capital "E" for Evaluation. This verbiage updates applies to evaluations rewritten in the New Look of Campus.

Path: Student Information > Special Ed > General > Documents

Special Ed Documents Display Update (SIS-171136)

An issue where stapled Special Ed Documents were remaining highlighted after selecting a different document has been fixed.

Path: Student Information > Special Ed > General > Documents

Special Ed Documents Timeout and Editor Release Fix (SIS-171285)

An issue where the configured timeout set in Campus was not being honored by Special Ed Document editors has been resolved. Also to fix a separate issue with editors being locked for editing when they shouldn't be, a fix has been added so that when a user exits a document by closing it, the editor they were previously working on is automatically opened and allows other users to edit it immediately. These fixes only apply to Special Ed Documents rewritten with the New Look of Campus.

Path: Student Information > Special Ed > General > Documents

Messenger

Messenger 2.0 Preview/Test Message (SIS-167814) **[Enhancement]**

A new workflow has been added to allow users to select a messenger recipient and preview the message for inbox, email, and text messages. This enhancement will also offer the ability to send test emails and text messages in the context of the recipient. This will allow users to see how the message will look both in Infinite Campus and send a realistic test message (including fields/sub-reports) to themselves or other staff members.

Path: Communication > Messenger > Messenger 2.0

Staff Planner Batch Edit Staff and Constraints (SIS-167151) **[Enhancement]**

As part of the ongoing enhancements to scheduling tools and the dependency on JAVA, the Staff Planner now includes the ability to add or replace the total number of periods and courses a teacher is allowed to teach to multiple teachers at one time.

There are two Batch Edit options available:

- Batch Edit Staff adds or replaces the Max Periods, Max Courses, Max Consecutive Periods and the Scheduling Team.
- Batch Edit Constraints adds, replaces and removes Course and Room Constraints, as well placement restrictions for the filtered list of staff members.

Path: Scheduling & Courses > Staff Planner

Scheduling Board Updates (SIS-168843) **[Enhancement]**

The following updates have been made to the Scheduling Board:

Updates

- The validation for a calendar not having any terms, schedules or periods has been added to the Scheduling Board Trials interface.
- To assist users with potential schedule loading issues, information banners have been added when there is no staff or courses.
- Descriptions for available Load Balancing options has been added.
- The Mark Multiple Terms/Periods Settings option now displays those terms/periods in blue (was previously orange).
- A new View Setting has been added, called One Section Per Row. When marked, sections that span multiple period schedule (Y axis) or multiple periods (X axis) now display on one line.
- When the browser window is small enough to trigger a horizontal scroll bar, Staff Planner information now fits into the designated card space.
- A Feedback button has been added to Scheduling Board, cCourse Planner and Staff Planner. Clicking this takes the user to a Campus Community Forum where ideas, comments, questions, etc. can be posted for future improvements.
- The Locked Trial Alert message has been modified to let users know that a trial is locked while the save process is in progress.
- When there are no Lunch options created for the calendar, the Assign Lunch option on the Section Side Panel no longer displays.
- The available Percentages that displayed on the left side just below the Settings has been moved into a separate Trial Statistics Side Panel, available by clicking the Stats button in the Action row.
- Navigation information has been added to the Hover options to more clearly indicate that courses, periods, departments, etc. can be right-clicked and can be dragged onto the board.
- An option to hide the Course Number in the Section cell has been added to the View Settings Side Panel.
- A new Split Cell option has been added to the View Settings Side Panel. When marked for the Course, the Course Number and Course Name display in two separate cells; when marked for the Section, the Course Number-Section Number (or any of the selectable values for View Section in the Settings Panel) and the Placed/Seat Count and Locked Symbols display in separate cells.

Fixes

- When the Drag and Drop: Enable Preferred Section Placement is marked in Build > Settings, dragging a section onto the board from the course caused the section numbers to be labeled out of numeric order. This has been corrected.
- Placement suggestions no longer show duplicate records.
- When dragging a new section onto the board, previous sections placed are no longer moved or replaced.
