This educational entity represents an overall score or assessment tied to a course over a period of time (i.e., the grading period). Student grades are usually a compilation of marks and other scores.

Object Triggering Logic

This table describes logic for triggering syncing of this object.

| Action | Trigger |
|--------|---|
| Post | <p>When a grade is posted to a Grading Task that is mapped to an Ed-Fi Grade Type and marked as State Reported.</p> <ul style="list-style-type: none"> Standards does not report to Ed-Fi. Does not report when the Course is marked as Inactive or State Excluded. Does not send records when the School or Calendar Exclude check box is checked. Checks to see the student has a Student Section Association in the Ed-Fi identity Mapping table before sending. When the Student Section Association exits, continues with processing the record to Ed-Fi. When the Student Section Association does not exist, the record goes to the Error Log with a message stating: Student (First Name Last Name, Ed-Fi ID) does not have a Student Section Association record for the course (Course Number Course Name). This record must exist before Grades can be sent. Does not send when the student's enrollment is marked as No Show or State Exclude |
| Put | When a grade is updated on a Grading Task that is mapped to an Ed-Fi Grade Type. |
| Delete | When a grade is deleted from a Grading Task that is mapped to an Ed-Fi Grade Type. |
| Delete | When the Student School Association record is deleted for the school in which the grades are associated. |
| Delete | When any field that is part of the Natural Key is changed. |

School Exclude, Calendar Exclude, Resource Toggle and Resync Logic

This table describes the School Exclude, Calendar Exclude, Resource Toggle and Resync logic of

this object.

| Action | Business Rule |
|--------|--|
| None | When a resource is toggled to Off after data has sent, all sent data remains in the ODS but no new data will send. |
| Delete | When a resource is toggled to Off after data has sent and an action is performed that would trigger a delete, that data remains in the ODS until a resync is done. |
| Resync | When a record is in the Ed-Fi Identity Mapping table and not in the ODS, it is deleted from the Ed-Fi Identity Mapping table. |
| Resync | When a record is in the ODS and it does not have a matching record in Campus or the Ed-Fi Identity Mapping table, it is deleted from the ODS. |
| Resync | When a mapping is changed in Resource Preferences, a resync needs to be done to reflect the changes. |

Natural Key Changes, Cascading Updates, and Deletes Logic

This table describes the Natural Key Changes/Cascading Updates and Deletes logic of this object.

| Action | Trigger |
|-------------|--|
| Delete/Post | Natural Key change: When the Natural Key of the Grading Period Reference or Student Section Association changes, a delete/post occurs. |
| Delete/Post | When the Grade Type Descriptor is changed or removed. |

Scope Year Logic

This table describes scope year logic of this object.
