Ed-Fi v3.X - Staff Discipline Incident Associations Resource Preferences

Last Modified on 10/21/2024 8:22 am CDT

Tool Search: Ed-Fi Configuration

The Ed-Fi Configuration tool is used to establish Ed-Fi data resources.

The following describes how to set the resource preferences for the Student Discipline resource. If the Configure or Edit buttons do not display, then the resource does not need to be mapped and the toggle button can be used to turn the resource on or off.

> If a mapping is changed, a resync must be performed on the resource in order for the new mappings to send correctly.

1. Select the appropriate **Ed-Fi Code** for the Discipline Incident Participation Code Descriptors .
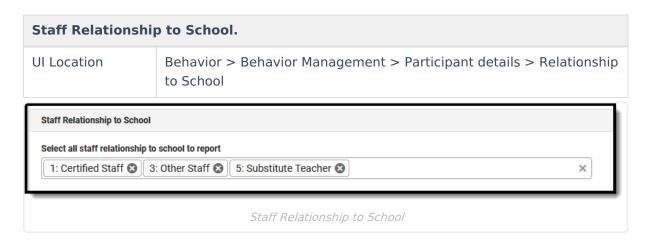

> Any item not mapped will not report to Ed-Fi.

Behavior Role	
Attribute Dictionary	System Administration > Custom > Attribute Dictionary > Behavior Role > Role
UI Location	Behavior > Behavior Management > Participant details > Role

Discipline Incident Participation Code Descriptors

2. Select the Staff Relationship to School.

Staff Relationship to School.	
UI Location	Behavior > Behavior Management > Participant details > Relationship to School

Staff Relationship to School

3. Click **Save.**
