

# Discipline Incidents (Texas v4.0)

Last Modified on 03/11/2024 8:47 am CDT

This event entity represents an occurrence of an infraction ranging from a minor behavioral problem that disrupts the orderly functioning of a school or classroom (such as tardiness) to a criminal act that results in the involvement of a law enforcement official (such as robbery). A single event (e.g., a fight) is one incident regardless of how many perpetrators or victims are involved. Discipline incidents are events classified as warranting discipline action.

## Object Triggering Logic

| Action      | Trigger  |
|-------------|--|
| Post        | <p>Reports a behavior incident when the incident's Status is marked and saved as "Complete".</p> <ul style="list-style-type: none"> <li>• Incident must have at least one behavior event associated and the event is mapped to an Ed-Fi Value.</li> <li>• Posting can occur if a new event is added after Incident is marked as "Complete".</li> <li>• Does not send if the student is in a calendar marked as Exclude.</li> <li>• Does not send if the student is in a School marked as Exclude.</li> </ul> |
| Put         | <p>When data that is not part of the Natural Key is changed.</p> <ul style="list-style-type: none"> <li>• 'Submitted By' is changed on the Incident.</li> <li>• New behavior event is added, changed, or removed.</li> <li>• Incident date is changed.</li> <li>• Location of Incident is changed.</li> </ul>  |
| Delete/Post | <p>When the incident's status is changed.</p> <ul style="list-style-type: none"> <li>• Delete when the status is changed from Completed to In Progress.</li> <li>• Post when the status is changed from In Progress to Completed.</li> </ul>   |
| Delete      | When an incident is deleted.   |
| Delete      | When the associated student enrollment is deleted.   |
| Delete      | When all of the Student Discipline Incident Behavior Associations records associated with this Discipline Incident record are deleted.   |

## School Exclude, Calendar Exclude, Resource Toggle and Resync Logic

| Action | Trigger  |
|--------|--|
| None   | If a resource is toggled to 'OFF' after data has sent, all sent data remains in the ODS but no new data sends. |

| Action | Trigger   |
|--------|---|
| Resync | If a record is in the Ed-Fi Identity Mapping table and not in the ODS, it is deleted from the Ed-Fi Identity Mapping table.                 |
| Resync | If a record is in the ODS and it does not have a matching record in Campus or the Ed-Fi Identity Mapping table, it is deleted from the ODS. |
| Resync | If a mapping is changed in Resource Preferences, a resync needs to be done to reflect the changes.  |

## Natural Key Changes, Cascading Updates, and Deletes Logic

| Action              | Trigger   |
|---------------------|---|
| Post/Delete         | <p>Natural Key changes:</p> <ul style="list-style-type: none"> <li>If the School Number/Ed-Fi School Number changes, a delete/post occurs with the cascading deletes from the School ID Change triggers. If an Ed-Fi ID changes, this will happen with the cascading deletes from the Ed-Fi ID Change trigger.</li> </ul> |
| Delete/Post         | If the Incident is deleted all dependent resources delete.  |
| Dependent Resources | Student Discipline Incident Associations, Discipline Action   |

## Scope Year Logic

| Logic  |
|--|
| Discipline records only send to the school year to which they are aligned. |
| Data only sends for the years that have valid configuration.               |

## Resource Preferences

| Data Element Label                     | Mapping Needed  |
|--|---|
| Behavior Incident Location of Incident | Incident Location Descriptor  |
| Behavior Event Type                    | <p>Behavior Descriptor</p> <p>(Information: Only show events that overlap the configured year with the ability to view/map inactive events. Show both events that do not overlap and events that are archived.)</p> |

| Data Element Label  | Mapping Needed                  |
|---|---------------------------------|
| Behavior Event Referring Party  | Reporter Description Descriptor |
| Do you want to report the Details on the Incident to populate the Behavior Detailed Descriptor? | Behavior Detailed Description   |

## Identity Mapping Object Key

| campusObjectType | Object Key Data Source |
|------------------|------------------------|
| BehaviorIncident | incidentID             |

## Event Queue Detail

| Campus Table     | Ed-Fi Action    | Fields  |
|------------------|-----------------|---|
| behaviorIncident | Post/Put/Delete | The primary table for sending data for this resource. |
| behaviorEvent    | Put             | Referring Party                                       |

## Object Data Elements

Data Element Labels in bold are part of the Natural Key and are required data elements for Data to send to Ed-Fi.
