Object Triggering Logic

This table describes logic for triggering syncing of this object.

Action	Trigger
Post	Report a record based on the student enrollment. • When a student is scheduled into a course section. Note: Report for state grade levels 6-12, unless specified differently. • A record will report for each Section record that is reported based on the Sections logic. • Report only if a Grading Task marked State Reported and Exclude from Ed-Fi is unchecked with an Ed-Fi Grade Type of Final exists for the course/section or if a Standard marked 'State Reported' and 'Final' exists for the course/section. ◦ Note: Report a record based on the Term Mask of the state reported Grading Task. • If Roster End Date is null, use the term mask to determine the term to report. • If Roster End Date is not null, use the term the endDate falls within to report. • Report from any enrollment determining a record. If the student has multiple qualifying enrollments in the same school, report a record for each unique start date. • Do not send a record based on an enrollment that is marked as State Exclude, No Show, or WISE Exclude. • Do not send a record based on an enrollment is in a calendar marked as State Exclude or Summer School. • Report records only if the student's State Enrollment Type = Primary or Coursework Only. • Do not send records if the Course is marked as Inactive or Exclude. • Do not send if there is a School Override value populated on enrollment that is different from the school for the enrollment record.
Post	Send a new record if a student's roster start date is changed.
Post	When a grade is added, changed, or deleted for a student.
Put	When section information is updated for a student or section. • Update when the course or section's homeroom field is changed. • Update when a grade is added for a grading task mapped to an Ed-Fi Grade
Delete	When a student is deleted from a course section.
Delete	Delete any future records if the student is given a roster end date for the course. • Roster End Date must be before Term Start date of future records
Delete/Post	Delete the record if a student's roster start date is changed.

School Exclude, Calendar Exclude, Resource Toggle and Resync Logic

This table describes the School Exclude, Calendar Exclude, Resource Toggle and Resync logic of this object.

Action	Trigger
None	If a resource is toggled to 'OFF' after data has sent, all sent data will remain in the ODS but no new data will send.
Resync	If a record is in the Ed-Fi Identity Mapping table and not in the ODS, it will be deleted from the Ed-Fi Identity Mapping table.
Resync	If a record is in the ODS and it does not have a matching record in Campus or the Ed-Fi Identity Mapping table, it will be deleted from the ODS.
Resync	If a mapping is changed in Resource Preferences, a resync will need to be done to reflect the changes.
