The following provides a list of the resources available for Wisconsin and the Recommended Resync Order.

Resyncing generates a large volume of items in the Event Queue. It is recommended to plan a resync for an off-peak time and resync in groups of calendars rather than all calendars. Please see the Resync article for more information on resyncing.

Larger districts may observe performance issues if “All Schools” is selected on a resync.

There are three different profiles available for Wisconsin districts. The resources available are different for each profile. Please select the appropriate profile to view the available resources and resync order for the selected profile.
