OLR Version 6.3 Release Notes

Last Modified on 04/08/2025 3:02 pm CDT

> This functionality is available to districts who have purchased Online Registration (OLR) as an add-on service. For more information, contact the appropriate Client Relationship Manager.

OLR Release Notes describe all changes included within the release pack which may impact users who use Online Registration as add-on functionality to their existing student information system. Questions or concerns regarding an update should be directed to Campus Support. See the Online Registration Product Documentation for more information.

OLR 6.3.44 (4/7/25)

> This version of OLR is compatible with Campus.2515 and later.

Enhancements

- Updated Race/Ethnicity checkboxes for MD to include a new 'Middle Eastern or North African' race option. (CDP-4069)
- Updated quotation marks copied from Word or iPhones to always swap to standard ascii ones in order to prevent issues after posting in Campus. (CDP-4077)
- Updated OLR to notify Messenger when a posted person record includes phone numbers with text message preferences selected. (CDP-4080)

Fixes

- Fixed the New Application to automatically hide Contact Preference checkbox descriptions when the checkbox is disabled. (CDP-4067)

OLR 6.3.43 (3/14/2025)

> This version of OLR is compatible with Campus.2507 and later.

Fixes

- The length of the `olr_eSignature.userAgent` column has been increased to accommodate up to 8,000 characters. (CDP-4049)
- Fixed an issue where the FERPA program in South Dakota was not posting during Auto-Posting or Batch Posting. (CDP-4003)

OLR 6.3.42 (3/7/2025)

> This version of OLR is compatible with Campus.2507 and later.

Fixes

- Removed the "Drop files here to Select" text from the document upload buttons. (CDP-3794)
- Modified the Open Enrollment button in Student Processing to open in a new tab; previously, this was opening in a side panel. (CDP-4011)
- Fixed an issue where returning to search in certain scenarios in Student Processing wasn't retaining search results. (CDP-4024)

OLR 6.3.41 (2/28/25)

This version of OLR is compatible with Campus.2507 and later.

Enhancements

- Corrected the OLR signature errored due to a NULL signature value. (CDP-3855)
- Selecting a blank value in a multi-select field no longer causes a Bad Input Error. (CDP-3988)

Fixes

- Fixed an issue where naming the OLR Portal Tool the same as an existing tool caused link issues. (CDP-3917)
- Fixed an issue where enabling the "Upload Submitted Receipt on Application Post" OLR System Setting in CA sites prevented Race/Ethnicity responses from posting to Person Documents, though they appeared correctly in Print Application within Staff Processing. (CDP-3997)
- Fixed an issue in the New Application UI where the County dropdown list displayed no results, despite being correctly populated in the Classic Application UI. (CDP-4010)
- Fixed an issue where clicking the 'More' button on the OLR login page as a student redirected to the parent context. (CDP-4012)
- Fixed an issue where the OLR Summary errored when an OLR Builder field was named a SQL keyword. (CDP-4013)

OLR 6.3.40 (2/20/25)

This version of OLR is compatible with Campus.2507 and later.

Enhancements

- Reorganized the information on the Student Processing. (CDP-3382)
- An error occurred where parents could upload a document with an invalid file name while completing all fields other than the document upload and select the Student Header to Validate the student. This has been corrected. (CDP-3993)

Fixes

- NCDPI experienced Internal Server Errors when trying to Import Pleats. This has been corrected. (CDP-3982)

OLR 6.3.39 (2/4/25)

This version of OLR is compatible with Campus.2507 and later.

Enhancements

- Improved OLR Accessibility. (CDP-3728)
- Updated OLR to follow the Campus Gender Display Portal Preference. When the preference is set to hide Gender, any OLR Applications started after setting the preference will have the Gender field hidden from both the OLR Application and OLR Summary in the Parent Portal. This only affects existing applications and existing people/students. New students/people in applications will have the gender field shown, as it is required to collect for creating a person in Campus. This ticket also fixes an issue with the Messenger bitmask. (CDP-3933)

OLR 6.3.38 (1/10/25)

This version of OLR is compatible with Campus.2447 and later.

Enhancements

- Added a warning message for when Emancipated Student is selected in an application. (CDP-3817)
- Increased the Notification Text field length to 180 characters in the OLR Notification Editor. (CDP-3859)

Fixes

- An error occurred where the emergency contact address line was available for existing contacts but not new ones. This has been corrected. (CDP-3861)
- The 'Require Race When Not Hispanic' validation option was not working correctly for districts in states (CA, HI, and IL) with non-standard race checkbox setups. This has been corrected. (CDP-3870)
- An error occurred in the new OLR UI where users could add more characters to a textbox than the designated limit. This has been corrected. (CDP-3887)
- An error occurred where the MNStateRace description values included non-standard characters. This has been corrected. (CDP-3891)
- The OLR Pleat Export tool is not exporting OLR dictionary items correctly for districts with multiple translation groups. This has been corrected. (CDP-3896)

OLR 6.3.37 (12/13/24)

This version of OLR is compatible with Campus.2447 and later.

Enhancements

- In the Classic look, the save process now includes a check to determine if an existing olr_household record is present before creating a new one. (CDP-3824)
- Added a unique name validator to prevent the creation of pleats with duplicate names. (CDP-3829)

Fixes

- Fixed a duplicate household posting error for OLR applications with unlinked households. (CDP-3843)
- An error occurred where OLR applications were not handling single quotes correctly in Medications/Health Condition pleat comments, causing duplicate students. This has been corrected. (CDP-3851)

OLR 6.3.36 (11/21/24)

This version of OLR is compatible with Campus.2447 and later.

Enhancement

- Added 2 OLR Information Center warnings for MN districts. One for if there are any active codes in the Identity > raceEthnicty list (in the Attribute Dictionary) that are not in the person > MNStateRace OLR List Bank for the selected config group. And another for if there any codes in the person > MNStateRace OLR List Bank for the selected config group, but they are not in the Identity > raceEthnicty list (in the Attribute Dictionary). (CDP-3790)

Fix

- Updated state race posting for multiple states. (CDP-3773) (CDP-3809)
- An error occurred where an applicant was able to remove the student from the Student section and re-submit the application if a Submitted-New application was Unsubmitted. This has been corrected. (CDP-380)
- Fields that were set to toggle off the value of the school boundary field, or were in a pleat that was set to post off the school boundary field, were not posting. This has been corrected. (CDP-3815)

OLR 6.3.35 (11/11/24)

This version of OLR is compatible with Campus.2447 and later.

Fix

- The OLR state race/ethnicity was updated for DE districts to match their state codes. (CDP-3779)

OLR 6.3.34 (11/5/24)

> This version of OLR is compatible with Campus.2419 and later.

Enhancement

- Improved accessibility of notifications. (CDP-3742)
- Improved accessibility of dialogue boxes. (CDP-3739)

Fix

- An error occurred when searching document upload records for OLR Health Processing when there were no document upload options set for either the Student > Medications or Student > Health Conditions pleats in any of the OLR Configuration Groups. This has been corrected. (CDP-3764)

OLR 6.3.33 (10/23/24)

> This version of OLR is compatible with Campus.2419 and later.

Fix

- Parents were unable to upload documents. This has been fixed. (CDP-3736)

OLR 6.3.32 (10/18/24)

> This version of OLR is compatible with Campus.2419 and later.

Enhancement

- Improved Accessibility for OLR tools. (CDP-3609)

OLR 6.3.31 (10/11/24)

> This version of OLR is compatible with Campus.2419 and later.

Enhancements

- Updated the Health Processing feature to allow users to select a student and easily identify if they have any health conditions or medications that need review. Health conditions and medications now appear clearly, along with a new 'Review' button for each item, enabling users to track their progress while processing students. Additionally, we've made it possible to open the Conditions and Medications screens in a new window, so users can add or edit information without navigating away from the main screen. (CDP-3387)
- The classic OLR user interface will be removed and the option to enable it will no longer be available for Configurations Groups with an End Year of 2026 or later. (CDP-3606)

- Added a requirement that all OLR statuses have unique names. (CDP-3612)

Fixes

- When updating the address for an application in the Physical Address Pleat, the address in the Parent > Demographic Pleat did not update to display the new address. This has been corrected. (CDP-3623)
- An error caused the Medication section to initially display a red 'X' when incomplete, but after navigating away and returning, it incorrectly shows a green checkmark, even though it's still unfinished. This has been corrected. (CDP-3657)

OLR 6.3.30 (8/29/24)

This version of OLR is compatible with Campus.2419 and later.

Fix

- An error occurred which prevented users from editing their setup due to a non-unique name, even though it was unique. This has been corrected. (CDP-3594)

OLR 6.3.29 (8/23/24)

This version of OLR is compatible with Campus.2419 and later.

Enhancements

- Added a unique name validator when creating new OLR Configuration Groups to prevent the use of duplicate Configuration Group names. (CDP-3581)

Fixes

- Updated race/ethnicity values for Indiana. (CDP-3561)
- When a parent moved a student from the Other Household Section to the Student Section in the Annual Update and they had relationships set up but no guardians marked, the relationship pleat was locked, and the relationship checkboxes could not be added. This has been corrected to allow edits for students with no guardians marked. (CDP-3448)
- In a specific setup, fields in a pleat were not displaying data as expected. This has been corrected. (CDP-3567)
- The Online Registration Student tool was not refreshing as expected when the year context changed in the updated Infinite Campus UI. This has been corrected. (CDP-3575)

OLR 6.3.28 (8/9/24)

This version of OLR is compatible with Campus.2419 and later.

Fixes

- An error occurred where the OLR eSignature was not being displayed on the Printed Application when, in the application, the signature was completed. This has been corrected. (CDP-3518)
- Updated the custom fields in the Student >Parent/Guardian Relationship pleat to be disabled in emancipated applications.(CDP-3545)

OLR 6.3.27 (8/2/24)

This version of OLR is compatible with Campus.2419 and later.

Enhancements

- Increased the character limit for the Parent email in OLR applications. (CDP-3527)

Fixes

- Translation text was not importing correctly for OLR Literals and Lists Banks if text started or ended with a " character or ends with a I am running a few minutes late; my previous meeting is running over. character. This has been corrected. (CDP-3528)
- Field data did not appear in the classic UI or the receipt if a pleat was set to toggle off the Address Not Current checkbox. This has been corrected. (CDP-3539)

OLR 6.3.26 (7/26/24)

This version of OLR is compatible with Campus.2419 and later.

Fixes

- Emancipated students could delete themselves from the Parent/Guardian Section of an application, leaving that section with no entries as they could not add another parent. This has been corrected. (CDP-3521)

OLR 6.3.25 (7/26/24)

This version of OLR is compatible with Campus.2419 and later.

Enhancements

- Added the ability to export a pleat and its accompanying data to a file, as well as the ability to import the data from a file. (CDP-3417)

Fixes

- When posting an OLR application for an emancipated student, more than one household membership record could be created. This has been corrected. (CDP-3500)
- An existing parent's Primary Email Address would be erased in their Census > Demographics tab if the application has the Parent Primary Email field set to only show for new OLR applications. This has been corrected. (CDP-3513)

OLR 6.3.24 (7/19/24)

This version of OLR is compatible with Campus.2419 and later.

Fix

- Increased the number of items that can successfully load onto the OLR Lists Bank page. Lists larger than 500 items will now have multiple pages (500 items per page). While this works, we do not recommend creating lists this large.(CDP-3447)
- Users are no longer able to move default builder fields in the Household > Home Address and Mailing Address pleats. (CDP-3464)
- Removed an unused literal that was added when a signature was added to the OLR application. (CDP-3470)
- Fixed an error where the First and Last Name fields for Students in emancipated student applications had their values swapped compared to the corresponding Parent/Guardian record. (CDP-3475)
- An error occurred when saving a record that had an old version of the signature previously saved. This has been corrected. (CDP-3489)

OLR 6.3.23 (7/1/2024)

This version of OLR is compatible with Campus.2419 and later.

Fix

- When the "Required Signature" checkbox in the OLR System settings was unchecked, the signature was hidden from the submit screen, but the validation was not bypassed, so the application was unable to be submitted. This has been corrected. (CDP-3453)

OLR 6.3.22 (6/28/2024)

This version of OLR is compatible with Campus.2419 and later.

Enhancements

- Added several accessibility enhancements. (CDP-3237)
- Improved accessibility of the signature box and added the ability to add additional signatures to the OLR application via the OLR Builder. (CDP-3239)
- Added OLR Literals Bank and Lists Bank Export/Import options to export a file out of Infinite

Campus (with or without translations) and import the file with new translations. (CDP-3361)

- Added a display grid to all OLR person sections that shows the people in the other sections of the OLR application. This is to remind parents/guardians to not create those people again. (CDP-3377)

Fixes

- Fixed error in the Students Without OLR Applications report that causes the students to not be listed. (CDP-3427)
- Fixed rights error when accessing the OLR Queue Applications tool. (CDP-3442)

OLR 6.3.21 (6/7/2024)

This version of OLR is compatible with Campus.2419 and later.

Enhancements

- Removed Page Number Totals from PDFs in OLR Audit Reports. (CDP-3394)
- Added a new literal to any existing and newly created Yes/No Radio buttons and Drop-to-Radio-Set buttons. This will require districts to review their OLR Configurations and ensure that all of their radio buttons have updated literals. This is extremely important, as most districts have added a text field above their radio buttons to explain the button itself and make the radio button look required. With these new literals, districts will be able to make the radio buttons themselves required and have the required indicator appear for them. (CDP-3353)
  - If you are unsure if you have any affected radio buttons in your OLR Configuration, please check out your OLR Information Center to see if there are any warnings related to your radio buttons.

Fixes

- An error was causing the required field validation check for OLR Health pleats to fail. This has been corrected. (CDP-3350)
- An error occurred when toggling OLR Health Conditions and Medications pleats when there were existing medications and/or health conditions. This has been corrected. (CDP-3363)
- An error was occurring where users could not print the OLR Summary. This has been corrected. (CDP-3388)
- The OLR Summary header was not aligned with other text. This has been corrected. (CDP-3403)

OLR 6.3.18 (5/10/2024)

This version of OLR is compatible with Campus.2407 and later.

Enhancements

- Added several accessibility enhancements. (CDP-3238)
- If the district submits an application on behalf of a parent/guardian and then uses the "Unsubmit Application" button in Staff Processing, the application's status (and any indication that it had ever been submitted by the staff member) will be fully cleared out as if it had never been submitted at all. This follows the same functionality that unsubmitting a parent-submitted application follows. (CDP-1235)
- Updated the logic for the Post Race as Parent Identified OLR System Setting to always post if the Race/Ethnicty pleat is active and available. (CDP-3331)

Fixes

- Fixed toggling of address fields for existing type applications. (CDP-3268)
- Fixed defaulting of disabled email contact preferences for the first Parent/Guardian in an OLR application. (CDP-3289)
- Fixed the OLR emergency contact count to not include any removed emergency contacts. (CDP-3295)
- The name of the first parent was not being capitalized if the Force Capitalization OLR System Setting was enabled. This has been corrected. (CDP-3313)
- The title of the OLR receipt was sometimes cut off when printed. This has been corrected. (CDP-3324)

OLR 6.3.17 (4/19/2024)

This version of OLR is compatible with Campus.2407 and later.

Enhancements

- Updated Batch Post comments to append rather than overwrite existing comments. (CDP-3202)
- Added ability to send an individual email containing individual GUIDs to all Parents/Guardians in an application. (CDP-3204)
  - This will only work for up to four parent/guardians in an application. Any guardians added after the fourth will not receive the email.
  - All parents will need an email address listed to receive the email.
  - The parent that started the application will get all the GUIDs for the parents/guardians in the primary household, like before.
  - They must leave the (L)PARENT1(L), (L)PARENT2(L), (L)PARENT3(L),(L)PARENT4(L) in for all the emails to send out.

Fixes

- Fields in the Builder set to pull into applications are not pulling for non-student records in Portal - New Student application. This has been corrected. (CDP-3235)
- The locked relationship checkboxes for relationships between existing students and existing parents/guardians could become unlocked if the user changed the relationship type. This has been corrected. (CDP-3242)

OLR 6.3.16 (4/11/2024)

This version of OLR is compatible with Campus.2407 and later.

Fixes

- The Start Date for State/Federal Program records created via OLR was not being set to be the date the application was processed. This has been corrected.(CDP-3229)

OLR 6.3.15 (4/10/2024)

This version of OLR is compatible with Campus.2407 and later.

Enhancements

- General accessibility changes to help improve compatibility with screen readers.

Fixes

- Fixed a security vulnerability. (CDP-3221)

OLR 6.3.14 (4/1/2024)

This version of OLR is compatible with Campus.2407 and later.

Enhancements

- All Configuration Group fields are now ordered by the most recent End Year at the top of the drop-down field. (CDP-2331)
- Configurations can now be archived so they no longer appear in dropdown lists in Processing or OLR tools, excluding the OLR Setup. (CDP-3119)

Fixes

- An error occurred where the Emancipated Minor field was not causing certain address fields to be cleared or hidden. This has been corrected. (CDP-3145)
- A scenario occurred where the Students with Submitted Applications report were taking an excessive amount of time to generate. This has been corrected. (CDP-3167)

OLR 6.3.12 (3/15/2024)

This version of OLR is compatible with Campus.2407 and later.

Enhancements

- The values within the Sequences column on the OLR Status page are now stored as integers instead of strings, enabling more accurate sorting. With this conversion, any value that is already a positive numeric value will stay the same and any that contains any non-numeric characters will be changed to 99. (CDP-486)
- Updated the Update Application screens in OLR Staff Processing to match the look and feel of the other OLR UI updates. (CDP-3075)

Fixes

- Descriptions for the various contact preference categories would only appear in the new UI for Parents/Guardians if voice and/or text messaging was enabled. This has been corrected. (CDP-3094)
- The Relationship preferences were not locked for relationships between existing Students and existing Parents/Guardians in the new OLR UI. This has been corrected. (CDP-3111)
- An error occurred when loading the student record for an Emancipated Minor OLR application when the Student Email or Student Cell Phone fields were disabled. This has been corrected. (CDP-3116)
- A race field was not flagged as a Standard field for the race checkboxes to appear for Standard OLR customers in CA, HI, and IL. This has been corrected. (CDP-3127)

OLR 6.3.11 (3/7/2024)

This version of OLR is compatible with Campus.2407 and later.

Fixes

- The CSV version of the Students With Submitted Application report did not report both guardian names. This has been corrected. (CDP-3002)
- Fixed an issue where the secondary address was not saving correctly.(CDP-3028)
- A validation warning was not appearing when an address was not selected from the list of suggested addresses when the "Force Selection of Primary Address From Campus" OLR System Setting was enabled. This has been corrected. (CDP-3038)
- Fixed the loading of an OLR Contact record when the Parent/Guardian did not have a Campus Contact record. (CDP-3044)
- Fixed an error that occurred when loading a Parent/Guardian record when a contact preference category is not available. (CDP-3049)
- If a district set up their OLR Application required restriction for the Parent Portal and had Registration Window dates set, the query was looking at the dates, regardless if the OLR System Setting to use Registration Dates was not set. This has been corrected. (CDP-3053)
- The signature when submitting an application in the new UI was always required, regardless of the "Require Drawing Signature" OLR System Setting. This has been corrected. (CDP-3077)

OLR 6.3.10 (2/14/2024)

This version of OLR is compatible with Campus.2407 and later.

Enhancements

- Added a new setting that allows districts to require Online Registration to be completed by Parent Portal users. With this setting enabled, parents will be prompted (upon logging into the Portal) to complete the required OLR application(s) before they can navigate to any other screens in the Portal.(CDP-3030)
  - If this OLR Release is taken before being on Campus.2407, this new setting will be visible but will not function until you are on Campus.2407.

Fixes

- The Apt number was not appearing in address verification previews in the new OLR UI. This has been corrected. (CDP-2993)
- Validation messages when returning to a record were not appearing for fields in the last available pleat. This has been corrected. (CDP-3003)
- The Address suggestions for the new OLR UI were not being sorted. This has been corrected. (CDP-3011)

OLR 6.3.9 (2/2/2024)

This version of OLR is compatible with Campus.2347 and later.

Fixes

- Due to the Boundary School being a calculated value that is not saved, any field or pleat that is set to toggle off of the Boundary School was not displaying on the receipt. Now, the receipt uses the School List value to toggle those fields and pleats. (CDP-2986)
- The Save button was not functioning when entering data in a new OLR Builder Field by tabbing through the fields, rather than using the mouse to move to the next field. This has been corrected. (CDP-1823)
- Disabled Contact Preference categories that have the default value set to 0 (zero) no longer save as selected when entering a new phone number. (CDP-2978)
- The "Does this person live at the address listed below?" question for Parents/Guardians now always displays, regardless of the Allow Secondary Households setting. (CDP-2998)
- The label for Submit Signature has been moved out of the signature box. (CDP-2990)

OLR 6.3.8 (1/23/2024)

This version of OLR is compatible with Campus.2347 and later.

Enhancements

- A validation warning message now appears below the Status drop-list in the Notification Editor when a previously saved value for the statues no longer exists. In addition, a new OLR Information Center warning was created to identify the affected notifications. (CDP-2959)
- Increased the future date limit for date fields in the new OLR UI from 5 years to 10 years.

(CDP-2961)

Fixes

- The configuration-specific URLs within the OLR Information Center were being copied with an incorrect configGroupID. This has been corrected. (CDP-2941)
- Users were unable to set relationships between multiple Students in the new OLR UI. This has been corrected. (CDP-2946)
- The toggle for the Emancipated Minor question was causing the OLR System Setting for the Lives in Household question for Parent/Guardians to not load properly. This has been corrected. (CDP-2948)
- The new OLR UI did not allow users to enter a primary address if the application type was Existing and the existing household had no address. This has been corrected. (CDP-2950)

OLR 6.3.7 (1/11/2024)

This version of OLR is compatible with Campus.2347 and later.

Enhancements

- When creating a new Configuration Group, the new OLR application will be enabled by default.(CDP-2881)
- The 0 option for the Display Column field in the OLR Builder has been removed as an option for the Student > Demographics pleat because it is not a valid option and does not display anywhere (CDP-2889)
- Updated how link templates open in the new OLR application to match the functionality of the legacy OLR application. (CDP-2892)
- Set the OLR Portal tab to open in the workspace when saving Portal Preferences. (CDP-2907)
- Added new race options for the state of Illinois. (CDP-2916)
- Improved performance of the OLR Summary Batch Receipt report. (CDP-2927)
- Updated the Open Campus Enrollments button to open the enrollments tool in a side panel in Classic Campus and a new window in the New Look. (CDP-2878)

Fixes

- A limited issue was causing relationships to not end for removed emergency contacts. This has been corrected. (CDP-2885)
- An issue was occurring where data might load out of order when creating new Parent/Guardian records, which would cause certain fields to not display as they should. This has been corrected.(CDP-2893)
- When the 'Include Applications With No Students' option was selected for the OLR Application Statistics report, the report generated extra result rows with blank values for students in applications that do have students. (CDP-2895)
- In the new OLR application, when toggling the health conditions or medications pleats off of a question, it would not validate the student. This has been corrected. (CDP-2908)
- In the new OLR application, the Emergency Contact email field was using the text from the Parent/Guardian email field instead. This has been corrected. (CDP-2909)

OLR 6.3.6 (12/6/2023)

This version of OLR is compatible with Campus.2347 and later.

Enhancements

- The ability to control the OLR Portal tab has been moved to System Administration > Portal > Preferences > Online Registration in Classic and System Settings > Portal Preferences > Online Registration in New Look. (CDP-2814)
- Added to checkbox to Configuration Groups to indicate which configurations are required and updated the Online Registration portal tool to emphasize required configurations.(CDP-2821)
- Add posting for Tribal Enrollment > Add posting for Identity > Tribal Enrollment (CDP-2847)

Fixes

- The OLR Summary was unintentionally loading multiple times when it was being run via the Online Registration Student tool. This has been corrected. (CDP-2818)
- Required document upload buttons on conditionally available pleats were not being properly deactivated when a pleat was not available. This has been corrected. (CDP-2828)
- The value for the 'Enable Automatic Boundary School Assignment if School List Field is Disabled' OLR System Setting was not being loaded properly in the new OLR UI. This has been corrected. (CDP-2842)
- In the new OLR application, newly created Other Household Members were being incorrectly designated as not in the household when posting. This has been corrected. (CDP-2861)
- In the new OLR application, when returning to a person that had been filled out before but was missing data, the validation warnings did not show up by default. This has been corrected. (CDP-2863)
- Moved the Clear button for eSignatures underneath the signature field. (CDP-2866)

OLR 6.3.5 (11/13/2023)

This version of OLR is compatible with Campus.2347 and later.

Enhancements

- Added additional racial subcategories for users. (CDP-2808)

Fixes

- Resolved display issue with signature boxes in the new application when labels had substantial text.
- Resolve an issue where OLR Contact Information warnings were not formatted properly for phone number requirements. (CDP-2804)

OLR 6.3.4 (10/31/2023)

Enhancements

- Race can now be set to not be required in the new application by changing the validation of the field "RequireRace" in the builder.(CDP-1767)
- Added a warning to the OLR Information Center for when an OLR configuration group is set up to allow for Emancipated Student registrations and the 'Self' Relationship Type is missing. (CDP-2758)
- Added a Grade Level Exclude list to the OLR Configuration Lists Editor. (CDP-2786)

Fixes

- Fixed an issue where fields set to post via the Builder would not always post as expected for emancipated minors. (CDP-2740)
- Fixed an issue where notifications were not sent to users with user group rights to all the years of a calendar. (CDP-2741)
- Some Colorado districts were experiencing an issue where state Race Ethnicity values were not posting as expected for students moved from the other household members section. This has been corrected. (CDP-2744)
- The new OLR UI allowed for the entry of Secondary Household Addresses for guardians regardless of the value set for the Allow Secondary Addresses OLR System Setting. This has been corrected. (CDP-2746)
- Standard OLR sites could view fields that are only available to OLR Prime. This has been corrected. (CDP-2749)
- The email contact preference checkboxes were incorrectly hidden in the new OLR UI for districts that were not Campus voice messenger customers. This has been corrected. (CDP-2754)
- OLR Address Prefix, Tag, and Direction fields did not display translations for list items. This has been corrected. (CDP-2799)

OLR 6.3.2 (9/21/2023)

Enhancements

- The column size for IDs in the OLR Queue applications tool has been expanded to now fit applications with 7+ digit numbers. (CDP-2719)

Fixes

- Updated the race posting for the state of Oklahoma. (CDP-2724)
- General fixes have been made for the Campus.2339 update. (CDP-2738)

OLR 6.3.1 (9/7/2023)

Enhancements

- Added the Name value of the corresponding OLR Configuration Group to the Description field for posted documents and receipt files. (CDP-2686)
- Adding a search option to the Queue search options to include submitted applications that have a Status Type of 'Hold'. (CDP-2694)

Fixes

- The Instructions screen was always appearing in the new UI regardless of the value of the Show Instructions After Language Selection OLR System Setting. This has been corrected. (CDP-2615)
- Fixed the School Start Exclude List so there are accurate results if there are multiple Configuration Groups in the same year with different values for the exclude list. (CDP-2647)
- The import process was modified to not import reportIDs if a new ad hoc letter template is created in the sandbox and used in an OLR Status record. (CDP-2649)
- Documents and fields that are set to appear based on the Address Not Current field in the Home Address pleat were not toggling properly in the new OLR interface. This has been corrected. (CDP-2663)
- The list of current OLR fields in the left panel of the OLR List Value Updater was pulling from all OLR Configuration Groups rather than just the selected OLR Configuration Group. This has been corrected. (CDP-2669)
- Under certain conditions, the contact preference fields, such as phone numbers and email addresses, can still post even when disabled. This has been corrected. (CDP-2675)
- If a district was set up to pull students with enrollments with non-Primary Service Types into OLR applications and a student had an enrollment with a Primary service type at a school in the exclude pull list, but also a non-Primary enrollment with an eligible Service Type at a different school which is not excluded, that student wasn't being pulled into the application. This has been corrected. (CDP-2692)
- If the value for the "Status Used for Batch Posting" OLR System Setting is no longer valid, either due to the Status being re-named or deleted, applications will no longer be either Batch or Auto-Batch posted. (CDP-2697)

OLR 6.3.0 (8/2/2023)

This version of OLR is compatible with Campus.2331 and later.

Enhancements

- Updated OLR to account for a database location change within Census. (CDP-2351)
- Updated setting of new application toggle from "Enable Beta Application" to "Enabled New Application" and made it available for all sites. (CDP-2633)

Fixes

- Fixed an issue that could cause pleats to not show on the receipt. (CDP-2620)

- Document upload toggles based off of enrolled school was malfunctioning. This has been corrected. (CDP-2621)
- When the "Re-Run SQL Scripts" checkbox was selected in the Mass Repost Applications tool, legacy customizations were being run unintentionally. This has been corrected.(CDP-2624)
- If a federal program was chosen for the post object, users could select the "Pull data into application" checkbox, even though that functionality was not supported. This has been corrected. (CDP-2627)
- If configured, fields set to post to Subraces will now also update if the "allow updating of race" setting is enabled. (CDP-2638)
- A number of pleats were missing footers in the new application, which included mailing, home address, parent demographics, and other household demographics pleats. This has been corrected. (CDP-2640)
- An error was occasionally causing emergency contacts to load improperly. This has been corrected. (CDP-2644)
