

# At Risk (Kansas)

Last Modified on 01/14/2026 9:10 am CST

The At Risk tool records appropriate programs in which the student is participating to provide at-risk students with additional educational opportunities, interventions and evidence-based instructional services to assist in meeting state outcomes (KSDE definition).

A student can have overlapping records when the Program Status field is not the same as the other record. For example, when a student has an At Risk record with a Program Status of 2: Preschool Aged At Risk, they can also have a record with a Program Status of 1: At Risk that overlaps.

At Risk information reports in the [KIDS Collection Extract](#).

At Risk Program Editor

Use the [Federal/State Program Updater](#) to import existing Pregnant and Parenting records for students or to update records for multiple students.

## At-Risk Reporting Guidance

The [KIDS Collection](#) includes a K-12 Kansas At-Risk Program Participation field that reports whether a student is participating in At-Risk programming. To be eligible, a student must meet one or more of the following:

- Not working on academic grade level
- Not meeting the requirements necessary for promotion to the next grade; is failing subjects or courses of study
- Not meeting the requirements necessary for graduation from high school (e.g., potential dropout)
- Has insufficient mastery of skills or is not meeting state standards
- Has been retained
- Has high rate of absenteeism
- Has repeated suspensions or expulsions from school
- Qualifies for homeless and/or migrant
- Identified as an English Language Learner
- Has social emotional needs that cause a student to be unsuccessful in school
- Is identified as a student with dyslexia or characteristics of dyslexia

A student cannot be both a K-12 Kansas At-Risk Program Participation student and a Virtual Education Student.

## Add an At Risk Record

1. Select a **School Year** from the dropdown list.
2. Click **New** in the action bar across the bottom.
3. Enter a **Start Date** of when the student began participation in a Pregnant and Parenting program.
4. Select the appropriate **Program Status** for this student.
5. For students with a Program Status of **1: At Risk**, select the appropriate **At Risk Reasons**. Select all that apply.
6. For students with a Program Status of **2: Preschool-Aged At Risk**, select the appropriate **Preschool-Aged At Risk Reasons**. Select all that apply.
7. Enter any **Comments** needed for this record.
8. Click **Save** when finished.

When the student ends At Risk programming, edit the appropriate record and enter an End Date.

### At Risk Program Status and Reasons

A Program Status must be selected in order to save the At Risk record; the At Risk Reasons do not need to be selected.

When At Risk reasons are selected:

- Students with a **Program Status of 1: At Risk** can only be assigned **At Risk Reasons**. If a Preschool-Aged At Risk Reason is assigned to a student with a Program Status of 1: At Risk, an alert message displays indicating that the record cannot be saved with that selection.

- Students with a **Program Status of 2: Preschool-Aged At Risk** can only be assigned **Preschool-Aged At Risk Reasons**. If an At Risk Reason is assigned to a student with a Program Status of 2: Preschool-Aged At Risk, an alert message displays indicating that the record cannot be saved with that selection.

## Print At Risk Records

Click the **Print** to generate a PDF view of the entered record from the main view of the At Risk program.

Program Description

At-risk students can be defined by one or more criteria. Predominantly, a student who is not working on grade level in either reading or mathematics is the major criteria used.
