Classic View: Student Information > General > Enrollments

Search Terms: Enrollments

The Enrollment tool displays all occurrences of a student's enrollment in the district. Because this is an historical view, this list could be long.

By default, enrollments are first sorted by grade level and sorted by enrollment start date second. To reorder the list of enrollments, click the blue headers in the Enrollments Editor list. The list of enrollments can be sorted by Grade, Calendar, Start Date or End Date.

See the core [Enrollments](#) article for information on necessary tool rights, available Ad hoc fields, and guidance on adding and printing Enrollment records.

General Enrollment Information

PATH: *Student Information > General > Enrollments > General Enrollment Information*

The General Enrollment Information editor describes the calendar, schedule, grade, start/end date and reason for the creation or ending of the enrollment record. Both the *Start* and *End Status* fields are unique to the state of California. California reporting also relies heavily on *Service Type* when populating reports. These fields are further described below. All other fields in General Enrollment Information do not require unique, state-specific data. However, many of these fields are required and data entry in these fields is necessary. For more information on these fields, see the [Enrollments](#) page.

Start Status and Start Date

Start Status indicates the reason for beginning the student enrollment, whether entering the school or district or continuing on from another grade. The Start Date indicates the start date of the enrollment record. When creating an enrollment for a student, students must have a Start Date and a Start Status. An enrollment cannot be saved without an entry in these fields.

Certain Start Statuses are used to identify new students. Please see below for more information.

► [Click here to expand...](#)

The following Start Status codes are used to identify new students.

Code	Description
03	From public school, different state
06	From priv non-relig sch, different state
09	From priv relig sch, different state
10	From a school outside of the US

End Status and End Date

The End Status indicates the reason a prior year student in grade 7-12 has not enrolled in the district during the current school year. All students with an end-dated enrollment must also have an End Status assigned to the end-dated enrollment. If a student has completed high school, be sure to select the proper completer End Status. Users are not allowed to save an end-dated enrollment without an assigned End Status. However, this condition does not apply if the **No Show** checkbox is marked. If the No Show checkbox is marked, you can enter an End Status without an End Date.

Please note that for the continuation of an enrollment within the same school, the End Status may be left blank, or the student can be assigned an End Status of: 440 or E490. See the list of End Statuses below for guidance in assigning these statuses.

When the End Status field is populated, an End Date must also be entered. When an End Date is entered, the End Status field must be populated.

When an enrollment has an End Status related to Graduated and an End Date, the Class Rank is not calculated for that student. See the [California GPA Calculations](#) article for more information on Class Rank.

No Show

A no show student is defined as a student who is enrolled in the school but never attends class and does not officially withdraw from the school. These enrollment records are ended after a certain number of school days, depending on district and/or state policy.

The No Show checkbox is NOT used for state reporting. End Status is used to determine No Show students. Please refer to the End Status section to determine the appropriate End Status for a No Show student. No Show students also require an Enrollment End Date in order to be excluded from reports.

Service Type

The Service Type is used to indicate the type of enrollment and the intended service the student receives. Service Types include: (P) Primary, (S) Partial, and (N) Special Ed Services.

To ensure you are assigning the proper service types to enrollments, please see your state documentation for more information.

Code	Description	Notes
Service Types		
P	Primary	This type of enrollment is a student's primary enrollment. This is the school the student attends all or most of the time. System settings determine whether a student can have multiple active primary enrollments at one time.
S	Partial	A partial enrollment indicates a student attends a school <i>part</i> of the time. One example might be a middle school student who attends a high school class and has a partial enrollment at the high school.
N	Special Ed Services	<p>A Special Education enrollment indicates the student ONLY attends the school to receive special education services.</p> <p style="background-color: #fce4ec; padding: 5px;">The Special Ed Service Type, N: Special Ed Services, CANNOT be used in California.</p>

Student > Learner > Active Enrollment > Custom Enrollment > interdistrictTransfer

Notes:

The fundamental basis for this provision is the signing of an agreement between districts.

- Interdistrict transfer/reciprocal agreement must be approved by both the student's original district of residence and the district to which the student seeks to transfer to.
- Both districts must approve the agreement before it becomes valid. The agreement may extend for a maximum of five consecutive years and may include terms or conditions.
- It is within the authority of either the home district or the receiving district to revoke an interdistrict transfer/reciprocal agreement at any time for any reason the local board or district superintendent deems appropriate.

If an Interdistrict Transfer code is selected, users MUST populate the District of Geographical Residence fields.
